MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

The Private Branch Exchange System of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES.**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a Private Branch Telephone Exchange.

Vol. LXIX. MAY 3, 1902. No. 1781

The April Number of the Architectural Record, devoted to illustrations of the works of Mr Ernest Flagg, is now ready for delivery. It contains a hundred reproductions of buildings designed by Mr Flagg, with an explanation of their character, and a critical introduction. This number is the final issue of the Architectural Record as a quarterly magazine. Hereafter it will be published every month, and its character broadened, so as to cover not only architecture and the interests immediately attached to it, but the remoter departments of Fine Art Design. The subscription price of the monthly publication will be $3.00 a year—25 cents for each copy.

THE Stock Market incidents of the week are such as may be expected in a time of speculation extended on high values, and when commercial activity makes money in much demand. If we could imagine stock manipulation being in one hand it would suggest the figure of a man attempting to catch fish with a float that exploded at regular intervals. However, the manipulators are many and without community of action though any amount of sympathy of purpose. Notwithstanding this the little International Power and General Carriage explosions have, apparently, frightened away most of those for whom there has been so much angling in the past six months and, most probably, also ended the spring advance, thereby destroying the chances of the boom for which insiders were looking in order to unload. For final considerations this is not to be deplored. A boom on such values as have and still prevail could only be mischievous in its effects in the long run and a little shaking down instead will be very much better. The general commercial situation continues to be good, demand is active for most kinds of manufactured goods and this season the aspect of labor is not nearly as threatening as it was a year ago. Money is naturally in request, so that the high rates asked in speculative circles are a logical outcome of the circumstances. Moreover, there is not merely a possibility, but a probability that more gold will go out soon. Gold exports are not usually accompanied by high rates for money at home, and it is understood that the shipments, if made, will be due to American borrowing abroad in connection with the financing of new undertakings.

ONE of the main objections to the provision made in the House Public Buildings bill for a new post office site in New York City, is that it restricts choice to blocks suitable in size for the new building and to the sections of the city where such blocks may be found. If instead of saying, that the site selected shall be bounded on all four sides by streets, it said the building to be erected upon it should be open to streets on all four sides, this objection would be removed. In that case, the commission to whom the task of choosing the site is eventually given, could take either a small block, or part of a larger one sufficient to accommodate the building and provide a street, or streets on the side or sides that may not be open at the time of purchase. The rule of having the building open on all four sides was adopted in the case of the Hall of Records in this city, and to meet it provision was made for a street on the west side. A similar course could be followed in the case of any other public building. It is intended to put the new post office building uptown, where, of course, it should be put, the form of the provision in the House bill, will make selection well-nigh impossible. It is very important that choice should be as free as possible, because, since the matter was first agitated a new factor has appeared in the problem in the form of the proposed Pennsylvania depot. First ideas were that the new post office should be on the line of the New York Central Railroad, as that was then the only trunk line entering Manhattan Island. In a few years there will be another and a rival line centrally located in the borough, and the question now arises, which, by proximity, will offer the best facilities for the dispatch and distribution of the mail? It is also a question, whether it will not be best to place the Postal Department in a position to enable it to avail itself of either. It would also be desirable to have the Postmaster of New York on the commission of selection, unless the presence of the Postmaster-General is taken to mean that his subordinate in this city will be his practical adviser in the matter. The worst feature of the provision of the bill referred to is that it confers no definite powers, making the commission simply an agent between the owners of land and Congress, than which any clumsier or slower method of acquiring a site it is utterly impossible to conceive. This feature of the bill arouses suspicions of the sincerity of the framers of the bill, and illustrates the difficulty the capital of the country experiences in obtaining anything from Congress, as compared with the ease with which the wants of the Dodovilles of the land are supplied.

A Business Proposition.

BY reference to the letter published in our last issue, it will be found that Comptroller Grout has suggested a new plan for putting the city funds, so that it will in time cease its hand to mouth experience, and be put above the necessity of living on borrowed money for nine or ten months of each year. The plan is announced thus far in advance of any possible legislative action, in order that the tax-payers may consider it and give expression to their approval or dissent, and in the latter case to state the practical reasons that stand in the way of its adoption, before the assistance of the Legislature is asked in perfecting the reform contemplated.

It should be understood that what is presented is purely and simply a business proposition to cure a defect that has existed in the city's financial system for many years, but one that would not be permitted to exist in the financial system of any private corporation or firm in good credit, for a single year. It is this, that the city collects its income at the end of the year instead of at the beginning or during the course of the year and, consequently has from time to time to pledge its coming income in order to borrow money to meet its obligations, for which money it has to pay interest. In short it conducts its business on the easy theory and with resultant penalties of that improvidence, against which all moralists and philosophers from Solomon to Franklin have been railing through the ages. The effect of this is that from $1,500,000 to $2,000,000 are annually collected from the tax-payers, which would not be necessary under a provident and business like system. The first to call attention to this absurdity was a real estate man, Cyrille Carreau, who for the past twelve or fifteen years has been bringing it before the attention of legislators, charter revisers and the personnel of city governments for the time being. The singular thing is, that while every one has all this time admitted that the thing is wrong, until Mr. Grout came into office and recognized the facts, no official of high position would take the matter up in a practical way and declare for reform.

Much may be hoped from the determination, force and business sense of the present financial officer of the city, who has pledged himself to introduce another bill into the next Legislature in order to carry out and modernize the finances in this particular. He should have the hearty assistance of the other departments of city government affected, and of those who are much more interested, namely, the tax-payers. We have authority for saying that Mr. Grout does not want to force his personal ideas on the public; he has the economy in view and is ready to adopt any proper means to reach it. With the evil admitted, a remedy ought to be found. To do so may not be easy, because the payment of taxes, while apparently a simple thing in itself, may have serious indirect influences. The system of payment in this city has been so long established that it has become practically a rule of property, and to disturb it without the greatest care, and precaution against what may be called accidents, might do more harm than good. It should be also understood that the tax-payers cannot obtain the benefit of the saving sought to be effected, unless they find the capital with which to make it. In some way they have to advance the money, which otherwise will have to be borrowed. So far the best suggestion made is that contained in the Comptroller's latest plan, and which was first made years ago by Mr. Carreau. This, in effect, is to leave what may be called the technical provisions unchanged and to encourage advance payments dating from early in the year by means of rebates. By this taxes would remain legally due and a lien on the property at the date named by the existing charter, while the tax-payers who could not employ their money would have the opportunity

to make fair interest upon it by handing it to the Collector of Taxes in liquidation of their obligation to him, which would not be legally due until the first Monday in October. These advance payments would probably equal the payments now made in the rebate months of October and November, and while the city would pay very little, if anything more in rebates, it would save largely by being relieved of much of its necessity of borrowing to meet current expenses.

However, final opinions on the means to effect the reform need not be expressed now, but this must be insisted upon, that it ought to be possible for a community as rich and intelligent as this, in the course of eight or nine months of consideration to find a way of effecting a large saving in the public expenditures, especially as the problem presented is an ordinary one to the business world, namely, one of cutting off redundant expenditures.

The Real Estate Situation

The Tax Rate for 1902.

The amount of the tax rate has such an important effect upon the income value of real estate that property owners will heave a sigh of relief at the announcement that for the present year at least there will be no increase of the rate. On the contrary there will probably be a small decrease, although the amount of that decrease cannot be precisely decided until the assessments are finally established. The decrease will not be sufficient to repay tax-payers to an appreciable extent for the rough treatment they have received during the bloated period of consolidation, but the best part of it is that very possibly the decrease for the present year will be followed by a still larger decrease for the year following. The tax rate is, of course, the composite result of so many different factors that it would be absurd to predict confidently that the rate for 1903 will be appreciably lower than that for 1902. But what can be conservatively stated is that several different conditions are making for reduction. In the first place the State tax will be some $4,000,000 less than it is this year. If all of this saving went to the benefit of the tax-payers, it would mean a decrease of more than ten points in the rate, but though this is too much to expect, it is evident that the present administration will at least try hard to take advantage of this opportunity to win the approval of tax-payers. Moreover, there is another source of possible diminution. When the preliminary figures of the assessed valuation of real estate were made public in January, the Record and Guide showed by selected instances that these valuations had not been influenced as yet either by the enormous building movement which began early in 1901, or by the extraordinary advances in real estate values which had been recently taking place.

Characteristics of the Week.

While the business actually consummated during the past week shows a diminution in volume compared with that of previous weeks, it has been marked by several important sales. Probably the most interesting and significant of these transactions is the purchase of the Plaza Hotel by a syndicate with Judge Dugro at its head. It will be remembered that one of the worst mistakes alleged against the management of a former president of the New York Life was this Plaza Hotel investment, and that the company should be able finally to get out, probably without a loss and perhaps with a profit, is a telling indication of the increased value of property in that vicinity. The Plaza (square) is the handsomest square in New York and has reaped the full advantage of the growth of upper 5th ave. The site of the Plaza Hotel is much the finest location on the square, and perhaps, also the finest site in all the city for a quiet but elegant family hotel. The existing building can easily be much improved and rendered more profitable by the new purchasers. Other parts of 5th ave. also have been as active as ever. "Huylers" is the latest of the well-known shops, now located in the vicinity of Broadway and 23d st., to find a new site on middle 5th ave. The particular one selected is between 42d and 43d sts., and together with the changes in the Hotel Rennaisance and the Hotel Bristol, almost one whole block will be modernized and will contribute to the total effect of the new 5th ave. It is apparent also, that Madison ave. in the same vicinity will before long become the site for a big building operation, which will assist the transformation of the neighborhood. No blocks in the city are more active than these immediately north of 42d st., from Madison ave. to Long Acre square. An extremely interesting projected improvement is that of a twelve story apartment hotel for the Grand Circle. This, the second modern building, which the activity in that region has caused or will cause to be erected, but it may be doubted whether it foreshadows the future uses to which sites on the Grand Circle or in the vicinity thereof will be put. Unlike the Plaza, which is distinctively a hotel square, it looks as if the Circle would probably be chiefly an amusement center, diversified of course with hotels, restaurants, and the kind of stores that accompany them. The fact that Broadway passes through the Circle is sufficient to warrant this prediction. There has been less activity than has been customary this week, both on the East and West Sides. Fewer residences have been sold than for some time past; but a strong healthy demand for them still exists, and will doubtless keep on bearing fruit. In another column, we give for what it is worth a piece of news, which should the operation go through, will prove to be of the utmost importance. It has been evident that after the Subway was in use, the corners of 23d st. and 4th ave. would become extremely desirable sites for large mercantile enterprises, and the purchase of the Young Men's Christian Association Building last spring by the Central Realty, Bond and Trust Company, was followed by lively speculations as to what would eventually be done with the property. Well, that is still in doubt, but the fact is established that some large interest has recently been making strenuous efforts to piece out a big plot on 22d and 23d sts., near 4th ave., and it looks as if they would succeed. When such a plot is pieced out, it would be one of the best locations in the city for a department store.

Office Building Present and Future.

A canvass made during the past week, the results of which are published in another column, exhibits in its completeness a fact of which the Record and Guide has frequently offered individual examples. It shows that the office buildings, which have been finished this spring are all of them well rented for the first year of their tenancy. No one of them is less than 80 per cent. leased, and several of them will be immediately filled from top to bottom And these successes have been obtained in spite of a level of prices some 20 per cent. higher than that of a few years ago. It is manifest from this exhibit that in spite of the active building of the past year, the demand for offices in and near the financial district still runs ahead of the supply, and that conditions offer an abundant warrant for a continuation of the existing rate of construction probably for two more years. According to present indications, more office buildings will be started during the spring and summer of 1902, than there were during the spring and summer of 1901. It is impossible at the moment to ascertain precisely how many of the projects announced during the last few months will actually be realized, but indications point to one building on Battery place, three on lower Broadway, one on Broad st., one on Exchange place, and one each on Wall and Pine sts., and two on William st. This seems to be a formidable list, but most of these buildings will cover comparatively small plots, and so will not increase rentable space as largely as might be expected—certainly not largely enough to satisfy the constantly increasing demand of the present time. Moreover, the structural steel situation makes it extremely improbable that any new projects can be put in practicable shape during the remainder of this year. So it will naturally follow that during the spring of 1903 the financial district will be the scene of more building than ever. Of course this will depend upon the maintenance of the present level of prosperity, but business will scarcely begin to take a down grade as soon as that. The fact is that space in the financial district proper is becoming peculiarly valuable to certain opulent institutions, banks, life insurance companies, and so forth, and that the competition of these interests has forced prices up so high that twenty story buildings are becoming the only possible means of getting even a decent interest on the investment. Less wealthy corporations, such as the fire in-

surance companies are being forced away from the center and towards the edge of the district, and the area within which skyscrapers are necessary is constantly broadening.

How the New Skyscrapers are Renting.

With a view to ascertaining the extent of the demand for offices in the heart of the city's business section, a canvass has been made among the agents of several new office buildings which will be ready for accupancy on or about May 1 of the present year. Several important facts at once became evident, and seem to be common to all of the buildings investigated. Every one is for the most part rented, the proportion of space already leased running from about 80%, in the new Maritime Building, to 100% in the Tontine Building, corner of Wall and Water sts. For each building a very desirable class of tenantry has been secured; none but thoroughly sound and reliable concerns being allowed to rent space in any of the buildings. That the demand for offices is an unusually heavy and healthy one is evidenced by the fact that exceptionally high rates of rental are found to prevail in all the buildings under consideration. In each case a large proportion of the offices have been leased for terms of years running from three to ten; and in several instances even longer leases have been signed. The average length of the leases in all the buildings canvassed was found to be about five years.

The building at 68 William st., of which fully 90% is already rented, has been leased at rates fully 20% in advance of those obtaining in the Bishop Building adjoining, which is quite similar, and has been occupied but about two years. Lawyers, bankers, brokers, insurance companies and railway corporations comprise the list of interests which will be represented in this building.

Work on the building at Nos 72 and 74 Broadway, put up by the Century Building Co., is nearly completed, and at present about 80% of the space is rented, and options have been given on the rest. A representative of the company stated that they would have no trouble in renting the entire building twice over, and that without doubt all the offices would be leased by the time the building was ready for occupancy. Here again the tenants are bankers, brokerage concerns and desirable corporations.

The new Broadway-Maiden Lane Building, corner of Broadway and Maiden Lane, is one of the largest and most interesting of recently-completed office buildings. Mr. De Selding, agent for the building, stated that leases have been signed for approximately 90% of the room, and that at most there would be but few vacant offices by May 1. The five lower floors are to be occupied largely by prominent jewelry firms. The space above has been rented to lawyers, chemical companies, machinery concerns and other reliable parties. Mr. De Selding states that the rentals secured for this building are easily 20% higher than it was possible to obtain for similar buildings completed a year or so ago. The rates for floor space range from $2.00 to $4.50 per square foot, and average about $2.50 per square foot for the entire building.

The building at 180 Broadway, put up by the Bandouine estate, is rented with the exception of two or three small offices The tenants here are confined to lawyers, jewelers and insurance companies.

The Tontine Building, northwest corner of Wall and Water sts, and the 9-sty building on the opposite corner, inasmuch as they are quite similar, may be considered together. On account of their location we would expect a different class of business interests would occupy these buildings, and we find such to be the case. An attempt was made to segregate the wholesale tea and coffee houses in them, and to a certain but small extent the effort was successful. Many of the older and more conservative firms, however, chose to remain in their established quarters. So sugar and cotton companies, as well as lawyers, financial houses, steamship lines, etc., are represented in the buildings. The Tontine Building has been entirely leased, and most of these leases have been written for unusually long periods. About 85% of the building on the other corner has been rented, and the remaining space is being very rapidly taken up.

The Caledonian Building, at 52 Pine st, containing some one hundred and thirty offices, has been rented with the exception of seven small rooms. Insurance companies, brokers and lawyers are the tenants. Many of the leases are written for terms of several years, and are generally very satisfactory to the owners of the building.

In the new Maritime Building we found a larger proportion of unrented space than in any of the others investigated. Mr. Hopper, the agent, stated that about 80% of the offices would be rented by the first of the month. Steamship companies and large export concerns are largely represented in the building, which is admirably suited both in location and arrangement for this class of business.

The question at once raised by this condition of things is, where do all the tenants for these immense structures come from? Are they merely moving out of the old ones into the newer and more convenient buildings, or is the demand due to some cause more fundamental? In the case of the Broadway-Maiden Lane and Tontine buildings, and to a lesser extent in some of the others, tenants were drawn from older offices in the vicinity. Here, of course, there is no acetual increase in the number of offices occupied. On the other hand, a number of agents spoke of the growing tendency among out-of-town corporations and manufacturers to establish headquarters in New York. This seems to explain where a great many of the newer tenants come from. Here a real increase in the number of individuals renting offices is evident. Again, new corporations and companies are being formed; law, brokerage and financial firms are expanding their business; hence the demand for better quarters in which to conduct them.

That the comparatively modern but not strictly new buildings are not suffering because of the competition of these newer ones is at once shown when the very small numbers of vacancies is ascertained. The Broad Exchange Building is practically all rented, and in the Bowling Green Building there is not over 5% of vacant space.

The present outlook, then, is very bright for the owners of large office buildings in lower New York. The offices are renting very readily to a permanent and desirable class of tenants, and the rentals obtained are a substantial increase over the prices prevailing in similar buildings which have been standing but a few years. Not only are buildings to be finished soon being filled up rapidly, but even structures which will not be ready for occupancy before fall or early winter are being leased from the plans.

Rumor of a Big Real Estate Deal.

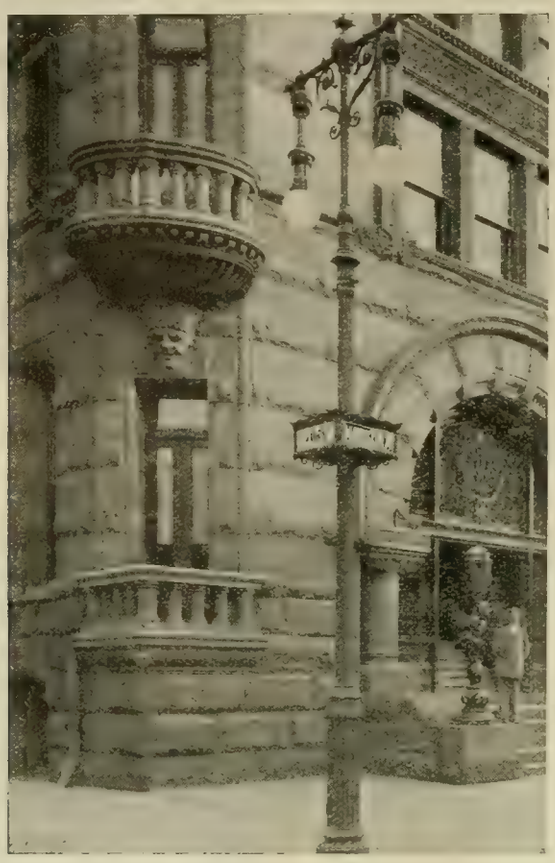
DOES WANAMAKER CONTEMPLATE MOVING UP TOWN?

When the plans for the underground road were announced it was the opinion of many that a part of the retail dry-goods trade might eventually drift to 4th av, on account of the accessibility of that thoroughfare. Until the Central Realty Bond and Trust Co. purchased the 23d st branch of the Y. M. C. A., corner 23d st and 4th av, last fall, nothing had occurred which in any way seemed to indicate the erection of a large department store in the neighborhood. At the time that deal was consummated it was commented upon that probably the purchasers were acting as agents for parties who desired the property for building purposes, but who did not wish the matter made public at the moment.

Of late there have been many reports of activity in the block bounded by 4th av, 22d and 23d sts, and Broadway, and the names of the Central Bond and Trust Co. and of John Wanamaker have been persistently connected with these rumors. Mr. Prentiss, President of the Board of Trustees of the 4th av Presbyterian Church, would neither affirm nor deny the report that the church property was about to change hands. Further enquiry in other directions indicates a probability that an agreement of some sort has been made, and that possibly the Central Realty Bond and Trust Co. have an option, not only on the church, but also on several of the brownstone front houses on the north side of 22d st. We learn that options have been obtained on some of this property. The owners are for the most part reticent, but the owner of one of the houses not far from 4th av said that during the past few weeks there had been a great many agents and others enquiring concerning the property, but that thus far it had not been sold, nor had any option been given on that particular house.

Operations of this kind are carried on so quietly that it is very difficult to obtain absolutely trustworthy information until the principals are ready to have the matter announced. While we are not able to state positively that Mr. Wanamaker is making an effort to secure the block in question, it is evident that something quite out of the ordinary is afoot there, and developments of more than usual interest may be anticipated.

The block under consideration seems to be admirably situated for the establishment of a big department store business. It is centrally located, is easily accessible by both surface and elevated cars, and will be readily reached from uptown districts when the subway is completed. With but few exceptions the buildings now standing on the property are old-fashioned brownstone front dwellings. Many of these, especially on 23d st, have been altered for business purposes, while those on 22d st are almost all as originally built. There is hardly any improved property on the block, and in the natural course of events it cannot be long before the old dwellings will give place to buildings of a modern type.



An unsuccessful effort was made to see Mr. Wanamaker regarding the matter. His representative, however, was interviewed by a Record and Guide reporter, but nothing could be learned from him as to the truth or falsity of the report.

THE TENEMENT HOUSE LAWS.

The Record and Guide has now on the press a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses. In size and character, it will be a companion volume to "The Building Laws of Greater New York," and will contain the alphabetical cross-indexes which have proved so valuable. Street Signs in New York.

For some time now the subject of street signs has been attracting a great deal of attention because the last administration allowed these signs to be utterly neglected. It was some two years ago that the West End Association first took the matter up, and it deserves credit for originating the present movement in favor of covering New York with a sufficient number of con-

venient and appropriate street signs. Since then the Municipal Art Society has also taken an interest in the subject, and has made some investigations as to the kind of signs needed. The consequence was that when the new administration assumed office, eager to repair the deficiencies of its predecessor, President Cantor of Manhattan Borough set energetically to work in order to secure a good design for street signs and an appro-

priation to cover their cost. In the meantime, however, the associations and some private individuals who were interested in the matter have put up several different experimental signs in conspicuous places, so as to attract public attention, and possibly to win public approval. The West End Association, for instance, is responsible for a sign, which has been placed upon an electric light pole at 25th st and 5th av; and another sign, designed by Mr. Chas. M. Becker, is to be seen at the southeast corner of Madison av and 45th st.

Both of these signs are similar, in that the numbers and letters stand out in white upon a ground of blue glass, and in that they are square in shape and situated with their sides parallel to the lines of the avenues and streets. But in other respects they differ very decidedly. The sign at 5th av and 25th st is not so well proportioned as the one at 45th st. It is more in the shape of a cube and less in the shape of a flat box. The number of the street appears to be unnecessarily and awkwardly large in that at 25th st, while in the type shown at 45th st the lettering, while small enough to look well, is large enough to be seen clearly and distinctly at some distance. The superiority of the 45th st sign, while marked in appearance, is even more marked in its cost. The one at 25th st will be supplied to the city by the Edison Company for nothing, provided the city will thereafter pay $10 a year to keep each one lighted, which would mean an expenditure of $40,000 a year. On the other hand the sign at 45th st is so arranged that by means of a reflector it throws the light either of a permanent electric light or, still better, of a Wellsbach burner on to the letters, and consequently, while it would cost something less than $10 apiece to establish these signs, they could be thenceforward operated and maintained without any yearly expense.

There is a third type of sign, one triangular in shape, an example of which may be seen on 36th st, near the Herald Building. The argument in favor of this sign is that it is necessary in New York for a street sign to be visible, not only to people walking up and down and across town,

but also to people who are moving rapidly past in electric cars. Now people who are so moving know, of course, what avenue their car is running on; but they frequently need to know what street the car has reached in its progress up or down, so as to tell how near they have come to the jumping-off place. But a street sign that shows nothing but the avenue letters or numbers on the avenue side and the street letter or numbers on the street side would be useless to the trolley car passenger except for a moment, when the car was passing at just the right angle. For this reason it has been suggested that the signs, instead of being placed parallel to the avenue and the street, should be placed with an angle pointing toward the street, and should plainly exhibit on each surface of the angle both the avenue and the street names. President Cantor is understood to favor these triangular signs, but it has not yet essentially been proved that they are superior in convenience to the rectangular ones. At present it looks as if they would be adopted, although they are much more expensive to operate than the Becker sign.

In view of the interest now being taken in street signs of all kinds, both for purposes of advertising and purposes of indication, we reproduce herewith a typical Paris street post, which, while not disagreeable to look at, is both useful, because of its illumination and its letter box, and profitable, because the spaces are sold to advertisers. There is no reason in the world why these posts should not be made a source of profit to the city. If is not advertising in itself that is objectionable. On the contrary, there are several conspicuous advertisements in New York, such as those of a certain biscuit and a certain oil,

which are very attractive and ornamental. All that is necessary is that the signs should be properly regulated, and that a general design should be adopted as appropriate and as unobjectionable as that shown in the accompanying illustration. Advertisers would beg eagerly for such signs, and they could be made a source of a large income. If the Comptroller wishes

A STREET POST OF PARIS, USED BOTH FOR ADVERTISING, ILLUMINATION AND A LETTER BOX.

to manage the street sign business economically and profitably for the city, he should see what he can do in the direction of getting under way a system of street posts of the kind described and illustrated above. The present ordinary lamp posts and letter boxes are ugly and should be superseded by something more seemly and useful.

Fire Underwriters and Drugs in Warehouses.

The meeting on the 24th inst. at the Board of Trade rooms under the auspices of the drug trades must have been of considerable interest to property-owners as well as insurance men. It was called for the purpose of discussing the new classification of drugs, etc., adopted by the Fire Insurance Exchange. The Warehouse Committee of the New York Board of Fire Underwriters was present and many important facts in the mysteries of fire insurance were made plain.

Mr. Francis C. Moore, for the Fire Underwriters' Committee, in the course of his arguments, said: "The insurance men figure 55 per cent. for losses, 35 per cent. for expenses, such as surveying, brokers' fees, taxation, etc., 5 per cent. for conflagrations, which had not proven adequate in the past, and 5 per cent. for profit. The companies are willing to reduce rates 1 per cent. for every reduction of 1 per cent. in losses in this city." In speaking of the schedule, Mr. Moore said that even though every article had been carefully considered as to its ignitibility, combustibility, and susceptibility the schedule as it now stands undoubtedly contains errors, but is being constantly revised, and the insurance interests are willing to and desirous of correcting all mistakes or making changes when they are convinced that present ratings are not just. Among the other gentlemen who spoke were H. G. Jarrett, George Massey, Geo. W. Hopping, Philip S. Tilden and Col E. W. Fitch.

Transit in the Bronx.

W. C. Gotshall, President of the New York and Portchester Railway Co., is quoted as saying that the company had twenty-five men in the field running the final lines for the projected four-track electric railway, for the construction of which the consent of the State Railroad Commission had been obtained by the Gotshall-Belmont syndicate. "We cannot begin construction just yet," he added, "because we have still to obtain the formal, though merely formal, consent of the city authorities of New Rochelle, Mount Vernon and New York to the road's crossing certain streets and highways above the grade thereof. Petitions have been prepared for submission to these authorities and we may be able to break ground in ten or twenty days." Mr. Gotshall said that he did not expect that the company would be obliged to open condemnation proceedings for much land, although not all the right of way has yet been bought.

Land has been acquired for the extension of the City Island R. R., which is said to be held in the interest of the N. Y. & Portchester.

The Aldermanic Committee on Railroads gave a hearing on the application of the Interborough R. R. Co. for a franchise, but no intended action was announced.

Theatre Construction.

REBUILDING AFTER FIRE.

The refusal of the Superintendent of Buildings, subsequently approved by the Board of Examiners, to approve the plans for rebuilding Miner's Eighth Avenue Theatre, George M. McCabe, architect, was referred to last week in the article "Building Law—Modifications." Since its publication Justice Scott, in the Supreme Court, has sustained the owners' contention that the work ought to be treated as an alteration. In doing so he said:

The respondent's refusal to approve the plans and specifications for the restoration of the relators' theatre is based upon their failure to conform to sections 105 and 109 of the Building Code. These sections contain very stringent regulations respecting the method of constructing theatres over thirty-five feet in height and designed to accommodate more than 300 persons. Being designed to secure, so far as possible, the safety of that portion of the public which may resort to theatres, they should be construed with some liberality to effect the purpose of their enactment. At the same time the rights of the owners of such properties must be conserved, and the provisions of the Building Code, being in their nature restrictive of the general right of an owner to use his property as seems to him best, should not be stretched by construction beyond their fair and reasonable intendment. The relators' building before the fire, although it did not conform to sections 105 and 109 of the Building Code, was a lawful structure, because it was erected long before the Code was adopted. The work proposed to be done is not, in effect, a reconstruction of the building, but rather a reparation, since the greater portion of the original structure remains intact. Section 105 of the Building Code applies by its terms to a building "hereafter erected or altered to be used as a theatre," and section 109 applies to "every theatre hereafter erected." It can scarcely be said of a building which has been for many years used as a theatre, and has been partially injured by fire, but of which there still remains the foundation, the greater part of the side walls, and of the proscenium wall, the auditorium floor and about one-half of the balcony floor, that the reparation necessary to restore it to its original condition is equivalent to the "erection" of a theatre. The alteration spoken of in section 105 clearly refers to the alteration into a theatre of a building which had formerly been used for other purposes. In my opinion the repairs proposed to be made to relators' building are not equivalent to an erection of a theatre within the meaning of the sections of the Building Code above referred to. If the building had been totally or substantially destroyed, so that its reparation had amounted to a practical rebuilding, a very different question would be presented. The relators are entitled to a mandamus requiring the respondent to re-examine the plans and specifications and to pass upon them, irrespective of the provisions of sections 105 and 109 of the Building Code.

The history of the case is this: Plans were filed shortly after the fire in the Bureau of Buildings to restore the building, but to make all the inside construction fireproof, that is, the stairs were to be made fireproof enclosed in walls, the galleries were to be constructed of iron and the roof to be of iron. The application was denied by the Superintendent of Buildings on the ground that the structure must be made to comply with Section 109 of the Building Code, in regard to placing open courts on each side of the building.

An appeal was made to the Board of Examiners, the architect claiming that this was not a case of building a new theatre nor the alteration of a building to be used as a theatre, but was simply the repairing and restoration of a theatre partially destroyed by fire, and in its restoration fireproof materials were to be used in place of wood, thus bettering the character of the building, and that the requirement of the Code for open side courts did not apply. The Board of Examiners by a divided vote, four to two of the six members present, refused to approve the appeal. The owner then applied to the Supreme Court for a mandamus, with the success stated above.

A SIMILAR CASE.

A case corresponding to the above was that of the theatre on the east side of 3d av, south of 31st st, which was partially destroyed by fire about seven years ago. Anticipating objections from the building department to the restoration of the theatre, the owner of the building, Thos. J. McCahill, employed Wm. J. Fryer to restore the building substantially as it was before the fire. Plans were prepared and filed embodying some better-

ments, the principal being that the former open wooden staircases, one on each side of the building, were made fireproof and enclosed in brick walls. A new front took the place of the old one, the under side of the galleries and the auditorium ceiling were metal lathed and plastered, the aisles were widened and the heating apparatus made safe. In all other respects the building was simply a restoration; the galleries, of wood, repaired, and the stage and other damaged parts reconstructed with material of like kind.

The application to rebuild was refused by the Superintendent of Buildings, Stevenson Constable, on the ground that the building must be built entirely fireproof, and must have open courts on each side. After considerable discussion, during which the applicant insisted that he had the legal right to restore the theatre precisely as it was before the fire, inasmuch as the fire had not totally destroyed the building, and the only prohibition against the rebuilding of a building damaged to an amount greater than one-half of the value thereof above the foundations related to frame buildings within the fire limits.* The case was referred to the attorney of the Department for his opinion. The attorney decided in favor of the applicant, and a permit was then issued. Later on, during the rebuilding, ex-Superintendent of Buildings, James McGregor, for reasons of his own, but without a full understanding of the facts, tried ineffectually to secure the indictment by the Grand Jury of the owner, the architect and the Superintendent of Buildings for what he declared was a monstrous violation of law.

These facts are all of record in the Department of Buildings, but with successive changes in the head of the department, changes in the examiners of the plans, and changes in legal advisers to the department, a former decision that would have directly applied to the Miner Theatre case seems to have been overlooked.

*This is still the case.

PROSCENIUM—STEEL CONSTRUCTION.

Wm. E. Mowbray applied to the Board of Examiners for permission to use a novel form of construction in the proscenium of Hammerstein's 34th st theatre, running through to 35th st, between 7th and 8th avs, in place of brick wall running to and through roof. In his application he said:

It is claimed that an equally good or more desirable form of construction can be employed for the construction of the proscenium wall of a theatre, for the following reasons:

(1) Owing to the clear span of 67 feet 6 inches and the clear height of 55 feet of proscenium opening, the architect, after three lengthy consultations with Mr. Bowman, engineer-in-chief of the Phoenix Steel and Iron Company, of Phoenixville, Pa., preferred to use the steel truss and the steel columns which are imbedded in brickwork, in connection with two partitions constructed of 6-inch 13-pound steel I-beams with cross braces and filled in with 6-inch thick hollow burned clay terra cotta fireproof blocks set in pure Portland cement mortar, and with an intervening space 1 foot 4 inches wide filled in to top with mineral wool, or asbestos packing, or other fireproof materials approved by the Superintendent of Buildings, in preference to a brick arch built of rowlock brick courses laid in cement mortar over box girder with skewbacks.

(2) The thrust resulting from a brick arch of such a great span and at such a great height above the earth surface will require an excessive strength in skewback, and in the box girder underneath the brick arch, to support the wall and arch.

(3) The principal duty of the brick wall and the brick arch over the proscenium is that of a fire stop or fire-resisting material between the stage and the auditorium, as well as to support a small section of the roof.

(4) The method of construction as proposed is the first known example of applying to the necessities of theatre construction the principles of modern steel construction, such steel construction not being thought a possibility at the time the law regarding the construction of proscenium walls in theatres was first passed.

(5) The construction as shown, of a truss supporting two 6-inch I-beam partitions filled in with 6-inch hollow burnt terra cotta blocks, and with the intervening space filled in with mineral wool, asbestos fibre or other fireproof materials, as approved by the Superintendent of Buildings, will provide an equally good and more desirable form of construction.

The Board granted this application on condition that the construction proposed is found of adequate strength by the Superintendent of Buildings.

STORES WITH PLACE OF ENTERTAINMENT ABOVE.

J. B. McElfatrick & Son asked for a modification for the stores which it is proposed to construct under the auditorium of the entertainment building now being erected on the block front of Central Park West, between 62d and 63d sts, the upper portion of which is intended for the exhibition of a Cuban ball game, Jai Alai. In doing so they said:

With reference to the stores shown on the plans as extending 40 feet from the building line, we request that a modification of the Building Law be permitted on account of the character of the building, which, although one for public amusement, is of the nature of a fireproof baseball stand and shed rather than a theatre.

The stores are completely cut off from the rest of the building by brick walls and by ceilings of Roebling fireproof construction of steel beams and concrete arches.

There is nothing of an inflammable nature in the whole building in the way of hangings or decorative features.

The exits provided in the event of panic are amply sufficient. The whole audience from the first tier of seats can get down immediately into the court and playing-court, that are level with the streets, and thence to the streets by the exit doors provided, besides having the main doors and exit stairs to the front of the building and the fire escapes.

The Board approved the application on condition (a) that the brick walls inclosing the stairs be made twelve inches thick; (b) that the ceilings over stores be made of iron beams, filled in with fireproof arches; (c) that staircases leading from restaurants to kitchen be inclosed with fireproof materials, with fireproof self-closing doors at top and bottom; (d) that partitions surrounding cafe and restaurant be made of wire glass in metal frames; (e) that the aisles on the first gallery be carried through the line of boxes (to permit ready escape of inmates); and (f) that the floor surface of cafe, restaurant and kitchen be of incombustible material.

A Protest Regarding the Brick Situation.

One who is well posted, in conversation with a representative of the Record and Guide during the past week, protested against several paragraphs recently published which seemed to indicate that everything connected with that industry was running along without friction. He said:

"As the Manufacturers' and Agents' Consolidated Brick Co. are said to be the agents for selling brick made by the manufacturers who constitute the membership of the Manufacturers' Association, one would think that the Consolidated Brick Co. would proceed on business lines and as far as possible keep in touch with the people here, who for years had been large buyers of brick, and instead of making enemies, try to increase their sales by fair treatment. Instead of that way of doing business, what do we see? The company was formed in March, 1901, and in a very short time endeavored to force a certain firm into doing an unjust act to fellow members of an association. They sent their clerks under cover of darkness to every boat discharging brick in this city, informing the captains in charge of each boat that under no circumstances should trucks of that firm have brick, nor any truck carting for them, practically boycotting said firm for two months. Then, finding they were beaten in that move, in September, 1901, they passed a resolution, and sent to each firm in the city written notice of same, that those firms who purchased all their brick from the Consolidated Brick Co. would get their brick 50 cents per M. less than those firms who purchased only part of their brick from the Consolidated, and that resolution is still in force."

You will find it in Wants and Offers on page 795.

Co-operation Among Building Material Dealers.

The following letter explains itself. It was sent last week to dealers in building materials by one of the trade who has been trying to secure co-operative action:

Gentlemen:—Owing to the seeming unwillingness of the members of the trade to enter into any combination or consolidation of interests, as evidenced by the non-attendance at several meetings called for that purpose, and the failure on the part of many to reply to my letter of recent date, I am forced to the conclusion that they are not, as a whole, willing to go into any plan for their mutual good.

I consider the manner in which we are now doing business to be unprofitable, and apt to continue so, owing to the unbusinesslike competition among ourselves. I think also that as we are middle men, we are apt to be forced out of the trade, as is the general tendency of the time, unless we combine for our protection. I had hoped in getting the trade together, that on the various views expressed, we might arrive at a plan suitable to all. Failing in this, I have concluded to cease any further consideration of the matter.

Public Hearings.

STREET NUMBERS—BAY WINDOWS—ELEVATOR SHAFTS.

There will be a public hearing before the Committee on Buildings, of which Alderman and architect Franklin B. Ware is Chairman, on Friday, the 9th of May, to consider and discuss the following ordinances, viz.:

At 1 p. m.—An ordinance to compel owners or lessees of buildings to affix numbers to the buildings owned or leased by them, the numbers to be at least two inches high, on a plate located to the right of the entrance, where practicable, and to be readily discernible night and day, etc. The text of the proposed ordinance was given in the Record and Guide of April 19th last.

At 2 p. m.—An ordinance to provide for the issuing of permits for the erection of bay windows, show windows, oriel windows, etc., requiring the payment of a fee for the privilege of erecting same, at the rate of two dollars ($2) per square foot, per floor, for the Borough of Manhattan; one and one-half dollars ($1.50) for the boroughs of Brooklyn and the Bronx, and one dollar ($1) for the boroughs of Richmond and Queens. Also restricting the projection in certain portions of the city, and requiring the consent of adjoining property-owners before a permit shall be issued, etc.

At 3 p. m.—An ordinance to amend Section 96 of the Building Code in regard to the enclosing walls for elevator shafts in non-fireproof buildings, allowing the use of fireproof partitions in all non-fireproof buildings except in warehouses and factories over five (5) stories high, in which case the enclosing walls must be of brick.

A Market for Realty and Kindred Securities.

The Stock Listing Committee of the Real Estate Board of Brokers, which has been in existence for over two years, reported at a meeting held a few days ago that a plan had been perfected for listing the stock of realty and kindred corporations. Mr. Francis E. Ward, President of the Board, in an interview with a representative of the Record and Guide, explained the scheme quite fully. The plan, as stated by Mr. Ward, is in brief as follows: The stock of all sound real estate, title, trust and building corporations, who desire it, is to be listed by the Board, and these securities are to be dealt in by the brokers at their present quarters, 111 Broadway. A circular letter was recently sent to all the real estate corporations in the city advising them of the plan. To date replies have been received from over a hundred of these, asking that an investigation of their standing be made, and that other preliminaries necessary to the listing of their stock be proceeded with. In the near future a similar communication will be sent to other than real estate corporations which it is hoped will be interested in the plan. The idea is to afford better facilities for trading in the stock of reputable corporations than are at present in existence. It is confidently hoped that this innovation will prove to be a popular one, and that the stock of a goodly number of representative corporate interests will be included in the list.

BROADWAY.—Arrangements, it is said, have been concluded for the sale of the Boreel Building, No. 115 Broadway, by the George A. Fuller Construction Co. to a corporation which is in process of organization. The new corporation will take the property at a valuation of $3,000,000 and will improve the site with a 25-sty office building, which it is estimated will cost $2,500,000 more. The corporation is being formed specially for the

purpose of improving and operating the property, and interests identified with both the Fuller Company and the Central Realty Bond and Trust Co. will probably be represented in it. The site of the Boreel Building contains about 16,000 sq. ft. and includes the block bounded by Broadway and Cedar, Thames and Temple st. The building is a 7-sty structure, completed in 1879. The property was bought last spring by the Central Realty Bond and Trust Co. from the descendants of Sarah, wife of Robert Boreel. Sarah Boreel received the site in 1842 as a dowry from her father, John Jacob Astor, who bought it in 1828 for $121,000. It then contained the City Hotel, which had been preceded by Burns's Coffee House. The Central Realty Bond and Trust Co. disposed of the Boreel property last fall to the Fuller Company, several pieces in the adjoining block to the west being transferred with it to secure the light and air of the prospective new Boreel Building. At that time, it was said, that a new company would be formed to improve the property, and while in some quarters it is stated that it will be improved at once, Mr. Fellows, the Secretary of the Company, says that that operation is two years off.

58TH ST.—Joseph Beckel has sold to J. G. Schurman, President of Cornell University, No. 39 West 58th st, a 4-sty and basement dwelling, on lot 20x100.5. The seller bought it in 1889 for $47,000.

45TH ST.—William B. Reeves has sold to the Realty Company of New York Nos. 141 to 147 West 45th st, a plot 69x100.

47TH ST.—A. J. Patterson has purchased from William J. Ives No. 62 West 47th st, a 4-sty dwelling, on lot 21x100.5. The property adjoins the Patterson apartment house, owned by the buyer, who also owns No. 56, which adjoins it on the other side.

54TH ST.—F. de R. Wissmann has sold for John T. and James A. Farley to Chester W. Chapin No. 21 West 54th st, a 4-sty and basement dwelling, on lot 25x100.5.

49TH ST.—The Municipal Realty Corporation has bought No. 227 West 49th st, a 3-sty dwelling, on lot 21.6x100.5.

GRAND ST.—Frederick W. Pfaender has sold to Lowenfeld & Prager No. 503 Grand st, old building, on lot 17x73x78, at the junction of East Broadway.

LEXINGTON AV.—John Kafka has sold No 647 Lexington av, a 5-sty flat, on lot 25x100.

45TH ST.—McVickar & Company have sold for Chauncey M. Depew to Thomas B. Hidden, No. 22 East 45th st, a 4-sty dwelling, on lot 22x75.3. It is 73 feet west of Madison av and was purchased by the seller in 1878. Mr. Hidden has also leased from the Jackson estate No 348 Madison av for twenty-one years, and he now controls Nos. 21 to 31 East 44th st and Nos. 14 and 16 and 20 and 22 East 45th st in addition to the above.

54TH ST.—Dr. Robert F. Weir has resold to John R. Drexel Nos. 13 and 15 East 54th st, two 4-sty and basement dwellings, on plot 41.8x100.5, which he purchased last week to protect No. 11, which he owns and occupies. Mr. Drexel will erect an American basement dwelling on the plot. He now occupies the Vanderbilt house at 5th av and 40th st. He is reported to have paid $177,500 for the 54th st site. De Blois & Eldridge were the brokers.

49TH ST.—Henry H. Tyson has purchased from Eleanor Van R. Fairfax No. 34 East 49th st, a 4-sty and basement dwelling, on lot 21.6x75.5, located at the southeast corner of Madison av. Mr. Tyson conducts a market at No. 529 5th av, on the Paran Stevens site.

SPRING ST.—N. Brigham Hall & Son have sold for George P. Goldsmith to Marks Rosenberg No 186 Spring st, a 3-sty building, on lot 17x86. The buyer owns Nos. 79 to 81 Thompson st, an abutting parcel, giving him an L-shaped parcel surrounding the corner which is 50x51.

44TH ST.—Miss T. Heterich has sold to Samuel Green and Edward Baer Nos. 124 and 126 West 44th st, two dwellings, on plot 37.6x100.5. This is part of the plot which Heinrich Conreid of the Irving Place Theatre recently secured under contract as a site for a new theatre. The plot secured by him included Nos. 122 to 138, a frontage of 167.6. At the time of his signing contracts it was said that he paid nearly $2,000 a foot front for the property. The present sale is said to have been made at about $73,000, and $78,000 is being asked for the plot.

BROADWAY.—The Broadway Trust Company, recently incorporated with a capital of $700,000, have purchased the 9-sty brick building at the northeast corner of Broadway and 8th st, on a plot 70.6x106x70.6x101.6. The building, known as Nos 756 to 760 Broadway and Nos. 131 East 8th st, is owned by Louis M. Jones. The company merely buy the building, as the ground is a Sailors' Snug Harbor leasehold, which has from 16 to 17 years to run. The officers of the new company are Moses May, President; Bird S. Coler, First Vice-Presiden; Joseph E. Schoenberg, Second Vice-President; Frederick G. Lee, Secretary, and Ira Leo Bamberger, Counsel.

A TEST.

I don't believe one broker in ten who comes to owners has a bona fide customer with $20,000 to invest.

If YOU have such a customer; I will guarantee HIM 10 per cent. net on his investment of $20,000 for 3 years and put up 6 months' rent as security for the proper performance of my lease. I will net about 14 to 16 per cent., but offer THE GUARANTEE as an inducement to a buyer. NOW LET US SEE HOW MANY BROKERS WILL ANSWER THIS. Fakirs, humbugs, irresponsible and exploitive brokers need not apply.

LEASES.

M. & L. Hess have leased for Mary J. Walker and Emily Watson No. 306 5th av. The lessee is the Dr. Jaegers Sanitary System Woolen Company, which will pay an aggregate rental of $240,000. The lease is for a term of fifteen years.

Douglas Robinson, Charles S. Brown & Co. have leased for the estate of John P. Duncan No. 304 5th av for a term of twenty-one years at a total rental of about $200,000.

C. E. Harrell has leased No. 865 Broadway, a 5-sty building for Huylers. For the Gibert estate he has leased a new building which is to be erected at No. 23 East 17th st. The two properties adjoin each other, and the lessee of both is John Forsythe.

The building at No. 71 William st, owned by the Mutual Life Insurance Co. and now occupied by the Magdeburg Insurance Co., has been leased to the Trust Company of the Republic, through the firm of Lovejoy & Noyes, for a term of six years at an annual rental of $12,000.

Easton & Co. leased for ten years, at $6,300 a year, to Paul G. Mehlin & Sons, piano dealers, now located in Union sq, the 6-sty business building recently completed by R. A. Wallace at Nos. 549 to 557 West 54th st, 100 feet east of 11th av. The building which the lessees have secured for occupancy has a frontage of 119.11 feet and a depth of about 75 feet.

Albert B. Ashforth has leased for William Waldorf Astor to Louis Korn for a term of years No. 31 West 33d st. The building will be altered for business purposes.

Bryan L. Kennelly has leased for the Bedlow estate to the New York, New Haven & Hartford Railroad Pier 49, East River, with bulkhead, for a term of ten years, at an aggregate rental of $165,000. He has also leased for Henrietta C. Armstrong, Katherine R. Lincoln and others to Jarvis & Co. the 5-sty warehouse Nos. 289 and 291 South st, running through to Water st, for three years, at an aggregate rental of $20,000.

The Hoffman estate have leased the ground at No. 508 5th av to the "Huyler's" for a term of twenty-one years, at a gross rental of $147,000.

OUT OF TOWN.

Edwin J. Lucus and Arthur Bernard Lucus have sold several large parcels of acreage property in the First Ward of Mount Vernon, on the line of the proposed N. Y. & Portchester R. R., which will connect with the new underground road. The property is also on the line of the present Union Electric R. R., which runs through to New York. The Mount Vernon Realty Corporation is the buyer of the most important parcel, known as the Daniel Oakly Estate, and comprising about 350 lots. Interested in this company are Samuel Fessenden, of Connecticut; Mayor Edwin Fiske, of Mount Vernon; Samuel McMillan, Bryan L. Kennelly and Peter McDonald, of New York.

H. W. Nichols has sold for the Farmers' Loan & Trust Co. the former residence of the late Lathrop R. Bacon at Tarrytown to Ashbel P. Fitch, of New York, President of the Trust Company of America. The property consists of a 15-room dwelling, various outbuildings and eight acres of land.

Real Estate Notes.

Adrian H. Muller & Son have moved from No. 24 Pine st to No. 55 William st.

William A. Darling, real estate broker, has removed from No. 2 Cortlandt st to 189 Broadway.

Charles Galewski, real estate broker, has removed from No. 203 Broadway to the Stewart Building, No. 280 Broadway, Room 241.

Mayor Low on Monday signed the ordinance providing for the extension of the Rapid Transit railroad on Lenox av, from 142d to 150th st.

William C. Rader is the buyer of Nos 209 to 213 West 48th st, reported sold in our last issue. Mr. Rader, by the way, is Frank Tilford's private secretary.

The sale reported last week of the northwest corner of Lexington av and 69th st has fallen through. The property consists of two 4-sty dwellings, and is being held at $75,000.

A division of the Water Register's office for the service of property-owners in the Bronx has been opened in the Municipal Building, 177th st and 3d av.

The Board of Estimate has approved the widening of 4th av between 8th and 9th sts by taking off on the west side of the avenue a strip 91 ft. 6 ins. deep on the north side of 8th st and 25.79 ft. deep on south side of 9th st.

Levy Bros., real estate agents and brokers, have removed from 392 Grand st to their own building, the "Columbian," No. 253 Grand st, corner of Chrystie st.

De Lancey T. Smith, real estate broker, is now occupying permanent quarters at 1843 Broadway, near 60th st, where he has the best of facilities for the dispatch of business. Telephone 2596 Columbus calls Mr. Smith's office.

George W. Dougherty, formerly with Hall J. How & Co., is now established at No. 211 West 116th st, where he negotiates the sale of vacant and improved investment parcels, places mortgage loans and makes appraisals. His telephone call is 297—Harlem.

Arthur S. Cox & Co. have removed from No. 30 to No. 31 Pine st, where they have every facility for the dispatch of business. This move was necessitated by the demolition of from No. 24 to No. 30 Pine st.

A decision of Justices Freedman, Truax and Gildersleeve, Appellate Term of the Supreme Court, handed down yesterday, holds the contractors, and not the city, liable for damages to private property caused by the breaking of water mains in subway excavations.

The southeast corner of 5th av and 16th st, a plot 88.6x128.4, will be sold by order of the Supreme Court, in partition, on the 27th inst., by Geo. R. Read. Policies of title insurance of the Title Guarantee and Trust Co. will be furnished to the buyer free of charge.

The long established firm of A. L. Mordecai & Son, real estate and mortgage brokers, have removed from the German-American Building to Rooms 301-304 in the North American Trust Co. Building, No. 135 Broadway, corner of Cedar st. Their telephone call is 3151 Cortlandt.

Stabler, Smith & Dreyer, No. 674 Columbus av, is now Stabler & Smith, the original designation of the firm, through the withdrawal of Henry H. Dreyer. With the firm is now associated, though not as a member, A. L. David, formerly of No. 111 Broadway.

Wm. Lemberg & Co., real estate brokers and mortgage loan negotiators, have removed to larger offices at No. 150 Nassau st. Their telephone call is 4523 John. Wm. Lemberg and D. W. Reeve comprise the firm, and many recently completed sales testify to their industry and ability.

At a meeting of the directors of the East Bay Land & Improvement Co., held on Wednesday, Chas. H. Patrick was elected President in place of General E. L. Viele, deceased, and Frederick Johnson, of George F. Johnson & Son, to fill the vacancy in the board of directors. Mr. Patrick will continue to act as Treasurer of the corporation.

Bert G. Faulhaber has opened offices at No. 7 East 42d st, Rapid Transit Building, for the transaction of a general real estate business. Mr. Faulhaber is manager of the estate of Henry Hart and experienced in the management of real estate. He will give personal attention to properties placed in his charge. His telephone call is 4619—38th st.

Wood & Giles, real estate brokers and appraisers, have removed their offices from No. 244 West 116th st to No. 10 East 42d st, which will be their main office. They will still retain a branch at No. 234 East 116th st for the convenience of their Harlem clients. These brokers represent the Beers Realty Co., a corporation owning large holdings of property throughout the city and country.

Nicholas F. Walsh, to better accommodate his largely increased business, has leased the entire building, No 12 Chambers st, and will occupy the large office on the ground floor. Mr. Walsh has been located at the above number for five years, succeeding his uncle, P. J. Mahony, who was there located for ten years. In addition to selling property and placing mortgage loans Mr. Walsh makes a specialty of renting and collecting. His telephone call is 5057 Cortlandt.

Hagan & Slevin is the name of a new firm of realty agents, appraisers and brokers who have bought the 116th st office of Hall J. How & Co. James Hagan is well and favorably known in realty circles, having been for seven years with Hall J. How & Co. and about twenty years in the realty business. Joseph Slevin is also experienced in realty work. The firm continue at the old stand, No. 240 West 116th st and commence with a large collection and renting business, including the properties of Thomas S. Walker. Their telephone call is 692 Harlem.

HOTEL BASEMENT STATIONS ON RAPID TRANSIT RAILROAD.

The Subway Realty Co. wants about $150,000 for allowing the rapid transit tunnel more room under the hotel they are going to build at Park av. and 42d st. They are willing to throw off $25,000 of this for certain vault privileges from the city at the same place. Comptroller Grout is against allowing any such sum. He told representatives of the company that John Jacob Astor's syndicate, which owns a hotel site at Broadway and 42d st, was willing to surrender the easement under the property free of cost in return for a station in the basement of the proposed hotel. Mr. Grout said that having a subway station in the basement of a hotel was worth a great deal, and he would have the value of Mr. Belmont's easement appraised before he would agree to pay him anything.

WIDENING 59TH STREET.

The local boards of improvements of the Hudson, Murray Hill and Yorkville districts, at a meeting in the City Hall Monday considered a petition to widen 59th st from river to river. The plan proposed is to add the sidewalk space from 5th av to 3d av to the roadway and to build an arcade sidewalk through the buildings on the south side of the street. These would have to be constructed through such buildings as the Savoy Hotel, the Board of Education Building, the Hotel Roland and the Arion Club. West of 5th av the widening would be done on the north side by using a part of the Park promenade. The cost for building 3,854 feet of arcades has been estimated at $519,000. As the local boards sat only to receive suggestions no action was taken.

The World of Building

Material Market.

There is little new to report this week in the building material market. Constructors are taking advantage of the fine weather. Structural steel alone seems to be the retarding element in some instances, but these happen to be of great importance. The American Bridge Co., whose plants are already of enormous proportions, are even now laying plans for the erection of new plants, commensurate with others, at Chicago and Economy.

IRON AND STEEL.

It is the same old story with regard to the prices of pig iron—continued demand and advancing prices. A man on the metal exchange the other day said, "It is one thing to quote prices and another to buy. The only thing the purchaser can do is to first find his iron and then arrange the price." For No. 2 foundry iron $22 per ton has been paid this week, while the price is quoted at $20.

Stocks in finished iron are low in every direction and supplies from the mills are coming in very slowly.

It is not surprising that old rails and other forms of steel are finding a ready market. $25 per ton was paid this week for 3,000 tons heavy section tees. Foreign lots can be had at $22 to $22.50 per ton delivered in New York. Scrap iron readily brings from $21 to $22 per gross ton. Railroad scrap, being scarce, brings from $26 to $27 per gross ton.

There was an important meeting of the blast furnace workers of the United Steel Corporation held Saturday evening last at Braddock, Pa., for the purpose of organizing a lodge of the Blast Furnace Workers of America. There are 3,800 men employed at the furnaces at Braddock and Rankin, Pa.

The cost of the new works about to be erected at Chicago by the American Bridge Company will be between $2,500,000 and $3,000,000. It will be an exact duplicate of the works at Economy.

A contract has just been given to the American Bridge Co. for 9,000 tons of structural steel, amounting to $600,000.

BRICK, LIME AND CEMENT.

Brick is in good demand at steady prices, especially in the better grades. Manufacturers are convinced by the decreasing demand for lower qualities that in order to be "up-to-date" they must bend their energies to the production of high grades of this important product. At the next monthly meeting, to be held about the 15th inst., the manufacturers will consider the lessening of production in view of the fact that the increased use of steel and stone must necessarily diminish the demand.

Work will be resumed next week in the Hudson brick yards. The New Jersey manufacturers started early last month.

An order for 2,000 barrels of cement to be used in the new post office building in the City of Mexico has been received by the Atlas Portland Cement Co., whose New York offices are at 30 Broad st.

LUMBER.

The demand for all kinds of lumber is generally good and may briefly be summed up as follows: Hardwoods good, especially for poplar, oak and ash, upon which prices are held very firm. Southern pine is fairly active with firm prices. Hemlock is not in such urgent demand and yards are buying only what they need for immediate orders, but prices remain firm. The supplies of Eastern Adirondack and West Virginia spruce arriving daily are finding ready buyers and prices remain unchanged. The demand for North Carolina pine is unusually active, but stocks are at present small, which keeps prices stiff. There is some demand for cypress and prices are firm.

The first shipment of lumber of the season has arrived at Bangor. It contains about 3,000,000 feet of spruce and is owned chiefly by the Eastern Manufacturing Co.

PAINTS, OILS, ETC.

Country orders for every class of paints are plentiful, while the local demand is unusually good. Prices generally are unchanged. The market for lead oxides will be for a time somewhat paralyzed on account of the burning of the large plant of the National Lead Co. in Brooklyn about a week ago. The demand for lead products is especially active and the indications are that it will continue. Linseed oil is reported to be in good demand and prices remain firm.

The American Linseed Oil Co. will have a strong competitor in the Sherman Williams Co. when their new linseed oil plant now under construction is completed.

The United States Refining Co. and the Peerless Paint and Varnish Co.'s works at Cleveland were destroyed by fire recently.

The Paint, Oil and Varnish Club of New York will have their next annual dinner and meeting on May 15th.

The Mohawk Paint and Chemical Co., of New York, has leased the plant formerly occupied by the Cranston Press Co. at Hainesville, near Norwich, Conn., for the manufacture of a waterproof paint. The capital of this company is $200,000.

WINDOW GLASS.

The demand is still very strong and jobbers are looking forward to another advance or reduction of discount. They declare that at even present prices there is no margin of profit whatever. Mr. H. Holbrook, the Secretary of the Jobbers' Association, says that at the next meeting of the association there will, he believes, be a further reduction of the discount.

The Federation Glass Co. is about to erect a new plant in Marion for the manufacture of window glass. This plant will cost about $50,000 and it will operate a 30-blower tank.

Another large plant is about to be built at Buffalo, N. Y., by the Great Lakes Glass Co. The plant, when finished, will cover about three acres and employ about 100 men.

The Globe window glass factory at Findlay, Ohio, was destroyed by fire on the 29th ult. Three hundred men were thrown out of employment and the damage is estimated at about $100,000.

On June 1st operations will be commenced for the erection of a glass plant at Columbia, S. C. This will be on a large scale and be within the city limits.

Product and Appliance.

Still another building material which hails from England and is put forth as a substitute for wood—Uralite. It claims much, but the old adage still remains good—"the proof of the pudding is in the eating."

It can be cut with a knife or saw, the manufacturers say; can be polished, grained, glued, etc., and also that it will not split and is unaffected in any atmosphere. When the claims of any of these new products are too strong we are naturally suspicious.

It is pleasing to learn that the Building Superintendent with his new army of expert and unapproachable inspectors is going for the violators of the building laws tooth and nail. The violations are flagrant and in many directions.

A few weeks ago the Record and Guide described and illustrated the Ideal Safety Fire Escape system, which includes the revolving door of T. Van Kannel. At the time we published that article the firm manufacturing this system occupied commodious premises on West 67th st, but we have just learned that their business has developed to such great proportions that they are compelled at once to transfer their manufacturing to premises of far greater extent at 522 East 134th st, New York City.

We are too modest to take advantage of this positive proof of the power and influence of the Record and Guide, but the fact speaks for itself.

The Mississippi Wire Glass Company, of New York, has this week been entertaining the superintendents of its various factories in St. Louis, Mo., and elsewhere. Nothwithstanding this, Mr. E. W. Humphreys, the President of the company, managed to inform us that they were not at all disturbed by the new fireproof glass enterprise.

Fireproof glass, or glass which will only succumb to a temperature of about 4,000° F. or more, will be too costly to use instead of brick, and this brand new Fireproof Glass Corporation which has just been formed is much like Jupiter—in a gaseous stage of development.

But the world is looking for new ideas and new things every day, and we shall have many sensations even in the glass industry yet. A new glass-blowing machine has just been invented by Charles Hess and Charles Fogle which it is declared will revolutionize the glassware industry. One of these machines will do the work of seven men.

A new process for making bricks, hard, smooth, highly finished, using sand instead of clay, which will greatly reduce the cost of manufacture, has been adopted by the Virginia Press Brick Works, recently incorporated under the laws of New Jersey.

Recent efforts which have been made in Cleveland to form a combine of the sash and door manufacturers are expected to end in failure, owing to jealousies among the manufacturers and other causes.

A new $15,000,000 steel company has just been incorporated under the laws of Arizona. The name of the company is the Western Iron and Steel Co.

The Magnus Metal Co. has moved its New York office from 71 Broadway to 170 Broadway, New York City.

NOTES.

A large lot of German iron is to be shipped to the United States according to London advices by mail.

Ten tons of pig tin were landed here by the St. Louis this week; also 25 tons by the Ryndam. The Lowther Castle has sailed from Singapore with 696 tons.

Edward Atkinson, President of the Boston Manufacturers' Mutual Fire Insurance Company, is pushing his plan for an experiment station or school of insurance engineering. Funds have been raised to erect buildings of so-called fireproof construction and conduct experiments so as to note the influence of excessively high temperature, humidity and various weather conditions.

Imports of iron and steel in the first three months of 1902 were 100 per cent. more than in the corresponding period of last year. Exports decreased more than 50 per cent.

Cleveland despatches state that recent efforts to combine the sash and door manufacturers in the West will probably fail.

Labor News.

SOME STRIKES ON, BUT SITUATION IS IMPROVING.

There have been a number of developments in the labor situation during the past week affecting the building trades, including a strike called by the Cement and Asphalt Laborers' Union, which demands for its members an increased wage from 28c. to 33c. an hour, with an eight-hour day. It was stated yesterday in the office of Gollick & Smith that no official notice had been given the employers of the laborers' demands. The union holds a meeting to-night, at which a course of action will be decided upon.

H. W. Miller, Secretary of the Employing Plasterers' Association, says that the situation is the same as a week ago in the strike of the plasterers and the plasterers' laborers for an advance in the latter's pay from $3 to $3.50 per day, although there is now some chance of a comprosise being agreed upon in the near future. "The employers were approached this week," said Mr. Miller, "by the plasterers with the purpose of arriving at an understanding which would enable them to return to work. They show evidence of having become heartily sick of bearing the brunt of the laborers' fight. It was agreed by the employers that the plasterers should submit an ultimatum for them to the laborers to-night to the effect that they would be granted an advance in wages from $3 to $3.25 per day if they would make their association, the Plasterers' Laborers' Union, subservient to the Plasterers' Union and governed by that body. As the case stands now, the plasterers are wondering what benefit they are to derive from their own increase from $4.50 to $5 a day, when it will take them all summer to make up the amount already lost on the laborers' behalf. The plasterers' committee is to report to us to-morrow night. If the laborers do not agree to these terms, we will be simply compelled to fight the matter out to the end."

The demand of the International Tile Layers' Union, Local No. 30, for an increase from $4.50 to $5 per day has been acceded to by the employers, it was stated yesterday by the Bradley-Currier Co.

The statement by certain daily newspapers this week that an agreement had been signed by the Laborers' Union Protective Society and the Mason Builders' Association is stated by Mr. Foster, Secretary of the latter, to be without foundation. An agreement is not made, for the reason that the laborers' society is, through its affiliation with the Central Labor Union, liable to be called out on sympathetic strikes.

The printed copies of the agreement made this year between the Mason Builders' Association and the bricklayers' unions contain some further changes from that of last year besides those already reported, i. e., that wages shall be 65c. an hour and foremen members of bricklayers' unions. These further changes are that washing down shall be done by bricklayers; that not merely shall a suitable tool house be provided, but one for the exclusive use of bricklayers; that "bricklayers on any outside scaffold under men working directly above them must be covered;" that pay-time on Saturday be 12 m. instead of 12.30 p. m.

The strike of the carpenters on the Ansonia Hotel, Broadway and 73d st, was explained by Mr. Sinclair, of Watt & Sinclair, who have the trim contract, to be due to the objection of the men to handling non-union hardware on the doors when they reached the job from out of town. He had no doubt of the wood being accepted, but thought the hardware would have to be taken off. On that basis he expected a settlement last night or this morning.

The first of the eight large stone pillars that are to adorn the front on Chambers st side of the new Hall of Records was placed in position Tuesday. The monolith is 36 feet long, 4 feet 2 inches in diameter and weighs 41 tons. The stone was brought here from Hallowell, Me., where it had to be trucked two miles to the railroad, put on a freight car, run to the Harlem River, transferred to a lighter, and taken to pier A. Here there was a delay of twenty-four hours in deciding whether the pier would stand the heavy weight. The monolith was finally landed successfully and hauled to Chambers st by a score of horses. Two engines, two booms, one of steel, and a double derrick had to be used to swing it on to its granite base.

National Fireproofing Co. have moved their offices to Maiden Lane Building, No. 170 Broadway. They report among lately secured contracts for supply of their specialties to the following buildings, the general contractors for which are stated after their respective names or designations: N. Y. WALL PAPER POPULARITY.

C. P. H. Gilbert, speaking informally of the decoration of country houses, said that following close in the wake of the success of burlaps as a hygienic, substantial and beautiful wall covering, were numerous materials adaptable to the summer home wall covering. The Japanese manufacture an array of materials, including straw cloths, grass cloths, etc., in plain and figured goods, which have proved their fitness for presenting a cooling impression and being durable. The summer home is demanding new departures in wall coverings, which costs little more than

high-priced papers and are easily put in place. The grass cloth with its glazed surface is particularly desirable, as the heat does not affect it as with a prepared surface of burlap, which has been found to become "sticky" in some cases when the heat is intense.

Westinghouse steam turbines are to be adopted in the electric generating station to be built for the Metropolitan Railway Company of London, the contract having just been given to the British Westinghouse Electric and Mfg. Co., of Manchester. The latter are now filling a similar contract for the Metropolitan District Electric Traction Company, and as there will be a general similarity in the two stations, it will be easy to arrange for connecting the two and making them interchangeable, as far as the supply of current is concerned, which feature was required by the terms of the franchises of the two roads. The Metropolitan power station will be located at Neasden, in the northwest of London, and will contain three sets of 3,500 kilowatts capacity each. The Chelsea station of the Metropolitan District Railway will contain four sets of 5,000 kilowatts each. The electrical machinery for both stations will also be supplied by the Westinghouse Company. The current will be three-phase alternating and of 10,000 volts, to be transformed in substations to direct current.

Bricks Out of Sand.

It is announced that a Virginia company is about to make bricks by a secret process using sand only as the material and decreasing the cost. This news does not disturb the brick manufacturers in this part of the country. They recall a number of experiments along this and similar lines, the object of which were to reduce the cost of making bricks. Some have tried to use clay exclusively; others sand. The former discovered that their product, too rich in plastic silica and alumina, shrunk, warped and cracked. The sand users made bricks that were weak and brittle. Possibly the last venture of this sort was some years ago when a company of Germans proposed to make bricks out of ashes, cinders or almost any waste product. They gave out that they could do the molding at the docks in New York, thereby saving cost of transportation. This company is only a memory and bricks are being made in the same old way.

Undoubtedly the fact that clay and sand often cannot be dug from the same hill has made generations of brick makers wish that either one would suffice without the other. Examination of bricks made in former ages does not indicate that there ever were any manufacturers who were not obliged to use clay for the cohesive and plastic qualities, sand or some similar substance for the tempering influence. It may be imagined easily that away back before the Christian era in the Valley of the Tigris Euphrates and in Egypt the problem was much the same as it is to-day. The bricks made by the Chaldeans, the Assyrians, and those fashioned on this continent by the early Spaniards and the Pueblos indicate that the essential elements were like those now employed.

Skill in selecting the materials, mixing and burning them must continue as in the past to control the quality of the product. It requires a nice judgment to select the best clay. There is more to brick making than the molding of the little blocks. The brick manufacturer who is experienced knows that if there is an excess of carbonate of lime when the bricks become wet the quicklime will slake and destruction will follow. Iron pyrites are objectionable because their chemical action will make the bricks porous and weak. There are many things to consider before a manufacturer who is at all cautious will depart from the traditional methods of brick making. Improvements have been made in the machines for molding and in the ovens for burning, but the materials that are used are not radically different from what they were centuries ago.

In the North River yards sand is the most expensive part of the materials, for it has to be bought elsewhere and carried to the ovens. None of the manufacturers here or in New Jersey would make bricks of sand if they could, for they have clay plentiful in amount and superb in quality costing them less. The compressive and tensile strength of the product and its durability have been tested by actual use. Builders will be slow to use anything in construction of the strength and lasting qualities of which there may be doubt.

Getting down to the brick situation to-day there are some who believe the stock on hand is sufficient for the present season. The larger manufacturers say that this is an exaggerated estimate. It will be a month before the new bricks will be ready for shipment at the Hudson yards, which will start up next week, and by that time it is believed the stock will be reduced so that the output will be required to fill orders as they come. The association which controls 90 per cent. of the output in this market met during the week and made no change in prices.

Direct vs. Alternating Current Motors for the Operation of Electric Elevators.

Electric elevators are being installed in this and other cities in rapidly-increasing numbers, and both direct and alternating currents are being used as a source of power supply. There has been much discussion and difference of opinion among the exponents of the different systems, each claiming greater economy of power over the other. With a view of securing reliable data which would show definitely the power consumed in operating each system, Messrs. Daniels, Haviland and Rosenblatt, seniors in the Electrical Engineering Department of Columbia University, have conducted an exhaustive series of tests in various parts of the city with elevators run by both direct and alternating-current motors.

While both systems are found to be giving satisfaction, the results of the tests show conclusively that the power consumed, and hence the cost, is less where the direct-current system is employed. Where the alternating current is the only available one, there is, of course, no choice, but where the direct current can be had, it is entirely satisfactory and much the more economical.

M. & L. Hess have sold for the Mela Realty Co. the property No. 180 Washington Park, a 4-sty and basement dwelling, and Nos. 479 and 481 Franklin av, two 3½-sty dwellings.

The McNulty & Fitzgerald Co. have sold to William Kelly, President of the Brooklyn Alcatraz Asphalt Co., the woods on Ocean Parkway adjoining Minden's road-house on the north. It is a very picturesque property and comprises about 175 lots. Mr. Kelly will start at once to improve the tract.

For some time the Long Island Railroad has been endeavoring to purchase the old Thirteenth Regiment Armory, which adjoins the Flatbush av station. The company desires the ground to enlarge its station facilities. The price the company is willing to pay is said to be $100,000. Comptroller Grout, however, thinks that this sum is insufficient and at a future meeting of the Sinking Fund Commission he will recommend the disposal of the property at public auction.

Pontus I. Thompson, Secretary of Realty Buyers, reports the purchase of a building site located on the corner of Broadway and Havemeyer st, size 104x121 feet, opposite the entrance of the new bridge, by Realty Buyers at $110,000. Among other purchases during the week by the same company are: No. 90 Joralemon st, a 3-sty and basement dwelling; No. 86 Gold st, a 4-sty brick tenement; Nos. 373 and 373a Baltic st, a 3-sty brick and a 3-sty frame tenement; also six Queen Anne villas located on Drew and Jamaica avs.

Charles Buermann & Co. have sold for Strauss & Charig Nos. 679-681 Sterling pl, two 3-sty double limestone flats, 27x80x131 each, to Dietrick Strunck.

The Peace Committee of the International Council of Women.

The Peace Committee of the International Council of Women, consisting of Mariana Chapman, Sadie American, Emma Keith Booth, Elizabeth B. Grannis, is organizing public demonstrations to be held simultaneously in these countries, on the 15th of May, the anniversary of the Hague Conference, in favor of peace and arbitration. Meetings will be held, at which addresses will be made; the clergy are being asked to preach upon this topic on the Sunday previous to the 15th of May, and the Committee hopes to enlist the support of the press.

CONVEYANCES.

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing a Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to their having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

April 25, 26, 28, 29, 30 and May 1.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

CONVEYANCES.

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MISCELLANEOUS.

Order of Court discharging John B Pine as trustee under will Geo W Robins and appointing Arnold Hague his successor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

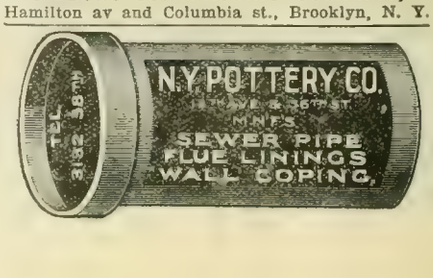
JUDGMENTS.



In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

Vol. LXIX. MAY 10, 1902. No. 1782

AFTER making a fine recovery from the troubles of last week, the Stock Market is inclined to settle back into dullness. A good deal of manipulation has gone on to bring the small public frightened away by recent events, back into the market, but without success, because the commission house business has fallen off to very moderate proportions. In this contingency dullness can only mean declining prices, because it is impossible to conceive of the manipulators continuing to play over a fished out stream. At the same time, it is to be borne in mind that extreme weakness is improbable, because there are a good many large financial operations yet incomplete, the success of which would be jeopardized by a bad break in quotations. The best opinion is that the market will be dull and dragging through the summer, with probabilities then dependent upon the crop prospects, which happen for the time being to be improving. Owing to the continued activity in general business throughout the country money is in good demand, and rates are likely to remain strong for sometime. It is almost sure, too, that gold exports only await an easing off in this demand, and the consequent decline in rates. The business situation of Europe is unchanged from the condition of moderate improvement last reported, and the strength of government bonds indicates, not merely where present speculative opportunities lie, but also that the demand for money for commerce and manufactures continues to be light.

APRIL figures for gold production on the Rand reveal further progress. Estimates are for 120,000 ounces, equivalent to $2,400,000, a jump, since mining was resumed last October, from 33,393 ounces and a value of $667,860. Revival of activity in South Africa is not confined to gold mining; and, as the fortunes of that vast area are at present occupying so much attention and have such an important bearing upon the whole commercial situation, the following extracts from a speech delivered recently by the chairman of the Standard Bank of South Africa to the London shareholders have value. Notwithstanding the conservatism of the terms in which they are expressed and the admission of unfavorable circumstances, they give a more cheerful view of the business conditions in place of that of paralysis so generally accepted. They are: "The more important channels of communication had been reopened, and many of the great industries of the country were again resuming operations. In no direction had these symptoms been more observable than in the Transvaal, and the reports from the other of our new colonies, which was chiefly dependent on agriculture, indicated that the larger towns in the Orange River Colony had not greatly suffered, and that merchants in them had, on the whole, done fairly well throughout the period of British occupation. In the Cape, the revenues of the Colony appeared to be buoyant. After deducting working expenses, the earnings of the Cape Government Railways last year amounted to £4 8s. 4d. per cent. on a capital of £22,000,000 invested in these undertakings. The trade of the Colony showed an increase in imports of more than £4,000,000, and in exports of nearly £3,000,000 over the returns of 1900; and it was stated that the block at the Docks was so great, both at the Cape and at Natal, that important additions were to be made to the harbor works at Cape Town and Durban. On the other hand, the expenditure of the Cape Government is believed to have been very heavy. The conditions in Natal resembled those in Cape Colony. The Budget showed a satisfactory surplus. The imports into the Colony in 1901 amounted to more than £9,000,000, and exceeded by 60 per cent. the imports of 1900. There were symptoms of a steady progress in Rhodesia. The output of gold in that great territory in 1901 rose to 172,000 ounces, or nearly double the output for 1900. Turning to the agricultural prospects of South Africa, he was afraid he must speak with some caution. The devastation of territory and the destruction of flocks and herds, however unavoidable, had inflicted a serious loss, and the farming community had suffered severely in consequence. The wool industry particularly, it was feared, must experience a large decrease in production, and probably some years would elapse before the exports could be restored to the importance of normal times. With the termination of the war it was to be hoped that these prospects might improve. Immigration and irrigation schemes—both matters of great importance—were, it was understood, occupying the attention of the various Governments."

Tunnels vs. Bridges.

JUST now another attempt is being made to create a public opinion in favor of subaqueous and against transpontine communications between the boroughs of Manhattan and Brooklyn; that is for the substitution of tunnels under the East River for the bridges unbuilt. Who are back of this movement is easy to be guessed, and the resolution passed by the Rapid Transit Commission on Thursday, calling for reports on the several merits of tunnels and bridges by the chief engineer to the commission and by the Commissioner of Bridges will be received with satisfaction, as a rational method of providing a basis for arriving at a scientific conclusion.

Most of the participants in this discussion have hitherto been laymen, eminent in their several ways, but not the men whose decision should be final in a matter depending so much upon technical investigation for its proper solution. It appears to us that so far attention has been directed only to a fraction of the problem involved, a large one, but still a fraction. As it appears to the limited vision of these laymen, the question is one simply of carrying a large number of people in railroad cars from one borough to the other. If that were the case it would most probably settle the question for their favorite tunnels. But, as will be seen from the figures showing the number of vehicles that crossed Brooklyn Bridge last year, given on another page of this issue, it is a much larger question than that. As our figures show there was an average of 3,318 teams daily passing over the bridge, and we are further informed that these figures are 20 per cent. below the record, because there has been a decline of that proportion in this class of traffic since the trolley cars commenced to run over the bridge. This indicates a vast movement of travel for which the city ought to supply facilities, and which it is reasonable to conclude will be much larger when the city drops the mediaevalism of tolls and provides bridges on which provision is made for the electric cars in a way that will not discourage equine draught. There is also to be considered the large, the very large number of people who for reasons of preference, economy or necessity cross bridges afoot, who do not seem to be taken into the calculations of the advocates of tunnels.

It is glibly contended, the contention being based upon estimates whose accurracy has yet to be proved, that several tunnels under the East River could be built for the cost of one bridge over it. This overlooks the factor of relative capacity which ought to play an important part in coming to a wise decision. We doubt whether, if the money expended upon Brooklyn bridge for instance had been diverted to tunnels instead, it would have provided the facilities of travel that that magnificent and much abused structure does; or that time has materially changed matters in this respect. This allows nothing for compensation for having to go underground, although we hold that we ought never to go below ground for anything without some considerable money or efficiency advantage being gained thereby. There are other points that as yet have not been considered, and which would come up even if it were decided that tunnels were more economical and efficient than bridges. One of these would be the rights of private owners, for we suppose, it would not be possible to restrict the routes of tunnels built in place of bridges, to lines of public property only, and a very interesting question of compensation would then arise, and one involving a large sum of money. It is not necessary to say anything more to show that this matter of Tunnels vs. Bridges, which has hitherto been so lightly treated, is not one to be decided off-hand, but on the contrary one to be weighed very seriously as it, we believe, will now be done.

Meantime, we are glad to note that the ex-officio members of the Rapid Transit Commission, the Mayor and Comptroller, with the good sense and independence characteristic of them, have decided not to be diverted from the policy of improvements already laid out. They certainly have nothing to justify them in stopping work on the new bridges, but rather reasons for seeing that in the rapid completion of these lies the solution of the trouble that has given rise to all this discussion, and the suggestion of alternative expedients.

The Real Estate Situation

It is interesting to notice that certain changes are taking place in the character of the building plans filed. For a period of more than a year there have been very few plans filed for moderate-priced rows of private dwellings. Almost all the speculative building of residences has been in houses that would sell when completed for more than $150,000. The only exception to this statement was a row of five dwellings on the north side of 100th st., for which plans were filed a couple of months ago. This is an unprecedented state of doings, and the excellent demand for middle class dwellings has naturally encouraged builders to resume this class of operations. During the past week plans have been filed for one row of seven and one row of fifteen residences, both to be erected on 137th st., and it is very probable that these are but the forerunners of a number of similar operations. It should be noticed, however, that even these buildings when completed will scarcely be low-priced residences. They are estimated to cost from $25,000 to $30,000 each, and consequently must sell for $10,000 more than those figures. The erection of the really economical dwellings which will come with the improvement of Washington Heights must wait for a couple of years still. Another interesting tendency, which the present building figures show is the increased erection of tenements. During the first three months of this year there were plans filed at the Building Department for only twenty-one Manhattan tenements, as distinguished from flats or apartment houses, to be erected at an estimated cost of $1,085,000. During the single month of April this record has been surpassed, for in that month plans were filed at the same department for twenty-six tenements to be erected at an estimated cost of $1,158,000. It now looks as if the tenement house branch of the building business has well recovered from the effect of the new law, and is getting along satisfactorily on the new basis. It should be noticed, however, that as the Record and Guide anticipated, it does not pay for tenement-house builders to erect a six-story building on a frontage of 25 feet. The only plans filed for parcels smaller than 38 feet, are those for buildings to be erected on corner lots. Another tendency, which the plans show, is the extent to which the tenement house on the lower East Side is gradually displacing the old brownstone residences which lie south of Stuyvesant Square along the line of 2d ave. Finally, we notice that, so far as flats and apartment houses are concerned, there is a movement, not dominant but conspicuous, toward the erection of nine and ten story fireproof apartment houses for a relatively cheap class of tenants. Formerly such buildings were constructed only for the use of the well-to-do; but the difficulty of building profitable semi-fireproof apartment houses under the present law has stimulated the attempt to put up fireproof buildings, in which the apartments rent from $50 to $70 a month.

Contemporary Building Tendencies.

Plans are now being developed in the Bronx, which look toward the rapid improvement of that borough as soon as Rapid Transit is provided. Some indication of the character of these plans may be inferred from the purchase by the City Real Estate Company, representing the New York and Portchester Railroad Company, of almost sixty-six acres of property, fronting on Bronx Park, and extending from the West Farms road to the Boston Post road. It is proposed to erect a large station on this property, which will be an important transfer point on all its lines. The property in question is situated near the Morris Park race track, and this track undoubtedly plays an important part in the plans for developing the region. The story of another projected improvement comes from the other end of the borough, which, while of a very different character, points in something the same direction. It is stated that dredging is now under way, on property owned by George Ehret, for the purpose of establishing a ferry at Locust ave. and 134th st., to run to North Beach; and in this connection the report of a sale of a large plot at Locust ave and 136th st., although denied, is also interesting. For a connection will be made with these points by the Union Railway Company, and a popular place of recreation will be established at North Beach, which will easily be accessible from all parts of the Bronx, and even Washington Heights. These items of news are only suggestions; but they are suggestions of a kind that give a pointed hint of one important source of growth for the Bronx. The magnificent park system of that borough and the availability of certain neighboring districts for exploitation as popular resorts will play an important part in building up its transportation system. Certain sections of it will become the playground for the inhabitants of all parts of Manhattan, and it is a fortunate thing, indeed, that these parks were provided at a time when they could be bought at a relatively cheap price. Apparently the Bronx is also fortunate in the transportation companies that are providing for its development with so much enterprise and with such large resources.

The Plans for the Bronx.

Should the report prove true that another big department store, controlled by the H. B. Claflin combination, be situated on Greeley square, and that the McAlpin property between 33d and 34th sts. has been bought for that purpose, the predominant importance of that square in the retail trade of Manhattan will be finally settled. Co-operating with the other causes already at work, it will make that square the central point in the uptown business section. It should immediately become a matter of serious consideration with the municipal authorities, whether that square as it is now planned will not greatly impede the mass of traffic that will gather from all parts of Manhattan, Brooklyn, Queens and New Jersey, and whether measures should not be immediately taken to make it more convenient for such uses.

Greeley Square on Top.

The amount of business reported during the past week has been about equal to the amount reported the week before, both of them indicating a marked decrease from the level of activity that has prevailed this spring. It should be noticed also that week by week the number of conveyances filed at the Register's office are falling behind instead of exceeding the number filed last year. One cause of this slower pace undoubtedly is the fact that corporate purchases for transit improvements, with their sequel in the way of an urgent demand for new housing on the part of the population displaced, no longer cut as big a figure in the returns as formerly. Another important cause is the fact that the high prices now being charged, both for all classes of real estate in Manhattan, as well as for nearly all classes of building materials, undoubtedly discourages both the purchase and improvement of real estate. It is just as well that this moderation should be shown. We do not believe that the advances in value which have taken place in the last eighteen months are based upon an inflated notion of what well-situated real property in Manhattan is worth; but it is undoubtedly true that the movement towards expansion could not go much further at present without tending towards inflation. In the meantime the operating companies are still accumulating desirable large parcels of real estate adapted to improvement. The most noticeable and significant illustration of this fact, recently developed, is the accumulation of property on upper 5th ave. For several years past the region north of 90th st. and immediately east of the Central Park has been a debatable land. At one time it looked as if the less desirable class of improvements, which have been erected north of 97th st. would push further south, and this would probably have happened long ago had the means of communication to and from that district been better. But recently the expansion of the expensive residence section has been too rapid and insistent to be denied. Beginning with the Carnegie purchase, one street after another has been added to the millionaire's district, until it has traveled at least as far north as 97th st. But this is not all. If current rumor is correct, there is likely to be a readjustment of prices, and a consequent rebuilding throughout the whole section between 5th and Madisons aves., and perhaps as far north as 110th st. On April 12 we stated that a syndicate was making extensive purchases in this region south of 106th st. It now turns out that the J. C. Lyons Operating and Building Company has acquired a plot 100x175, on the north corner of 5th ave, and 99th st.; and it is stated but cannot be confirmed, both that he will erect American basement dwellings on the plot, and that this is only one purchase out of several. There are un-

doubtedly large profits for a company with sufficient capital, who will go systematically to work to improve and reconstruct this neighborhood. The demand for expensive dwellings shows no signs of diminishing; and every week now, one or more of the houses of this class, just completed by speculators, are being sold.

Elevator Regulations.

The followirg letter and its accompanying regulations explain themselves. They will be of service to owners of elevator buildings, architects and those having the care and custody of elevators:

To the Editor of THE RECORD AND GUIDE:

Sir: Enclosed I send you a copy of the regulations of the Bureau of Buildings, Borough of Manhattan, for the construction, inspection and operation of elevators. There have been so many inquiries recently in regard to these regulations, and the existing regulations, which have accumulated from time to time, were never issued in printed form, that I had my Chief Examiner, R. P. Miller, and Chief Supervisior of Elevators J. J. Boyhan, collate and revise the old regulations and include the new ones.

I thought you might like to have these regulations for publication in your journal, through which I believe those most interested in this matter can be most easily reached.

Yours respectfully, PEREZ M. STEWART,
Superintendent of Buildings, Borough of Manhattan.

REGULATIONS
FOR THE CONSTRUCTION, INSPECTION AND OPERATION OF ELEVATORS.

1. The term "Elevators," as used in these regulations, shall include all elevators or lifts used for the carrying of passengers or employees. So far as practicable, these regulations shall also apply to escalators.

2. All elevators must be inspected as often as possible by an Inspector of the Bureau of Buildings, known and designated as a Supervisor of Elevators, in accordance with the Rules and Regulations of the bureau prescribing the duties and governing the actions of the employees.

3. Before any elevator shall be hereafter placed in any building in the Borough of Manhattan, the owner or his agent, architect or contractor, shall notify the Superintendent of Buildings in writing, stating the construction and mode of operation of machinery of elevator to be installed, and obtain his approval therefor, and such elevator shall not be operated until it shall have been duly inspected and a certificate of such inspection obtained. A like notice of any repairs or alteration intended to be made to any elevator shall be given by the owner or person employed to make such repairs or alterations.

4. The owner, lessee, manager or other person having charge or control of any elevator now in operation in the Borough of Manhattan and the manufacturer of any such elevator hereafter placed in any building, shall cause to be fastened in a conspicuous place in said elevator, a metal plate, having suitable raised letters on same, which shall prescribe the number of pounds weight which said elevator shall be permitted to carry, which weight shall not be more than eighty per cent. of the capacity of the elevator as determined by a proper test made under the supervision of a Supervisor of Elevators of the Bureau of Buildings.

5. Every elevator, except in private dwellings occupied by one family, must be in charge of a competent operator of reliable and industrious habits, not less than eighteen years of age, with at least one month's experience in running an elevator under the instruction of a competent person. In case the Superintendent of Buildings shall become satisfied that the person engaged in running any elevator, is incompetent or disqualified from any cause to continue to run the same, the owner or person managing or controlling the elevator shall, upon notice from the Superintendent of Buildings, at once replace the said operator by a competent operator.

6. The doors in elevator shafts in non-fireproof buildings, must be constructed fireproof and made solid for their full height. Any lights that may be desired in these doors must be provided with wire glass. No one pane of wire glass shall exceed five square feet in area.

7. All doors leading to any elevator shaft shall be locked or bolted on the shaft side, so as to be opened only by the operator of the car.

8. In all cases where the law or regulations permit grill work enclosing the shaft or car, it shall not be of more than one inch mesh of substantial material, and properly braced and carried the full height of openings.

9. All folding gates over three feet wide at entrance to shaft or car shall have top and bottom centre braces.

10. In all elevators the counterweights shall be run in a separate shaft from the car, or in a chase separated from the car shaft by a substantial screen or partition for the full height of the shaft.

11. No elevator shall be permitted to have attached above or below the car, a freight compartment or similar device.

12. All elevators shall have a governor or speed safety directly attached to the car.

13. The car of all elevators must be constructed of fireproof materials, except that interior trim may be of hard wood.

14. All guide rails for both the car and weights, shall be of iron or steel, and shall be fastened to the sides of the shaft with wrought or cast iron brackets.

15. There shall be not less than two cables independently connected to the car and to each set of counterweights. The lifting or weight cables shall have at least one full turn of cable on the drum when they have run the limit.

16. All sheaves for operating cables shall be provided with proper guards.

17. Immediately under the sheaves at the top of every elevator shaft in any building there shall be provided and placed a substantial grating or screen of iron or steel of not more than one and one-half inch mesh, and of such construction as shall be approved by the Bureau of Buildings.

18. A clear space of not less than three feet must be provided between the bottom of the shaft and the lowest point of the underside of car floor when the car is at its lowest landing, and between the top of crosshead of the car and the underside of the overhead grating when the car is at its top landing.

19. All parts of the elevator machinery must be properly enclosed and such enclosure must be lighted. Free and safe access must be provided to all parts of the elevator machinery.

20. The speed of all elevators must not exceed 400 feet per minute, except that express elevators may run 500 feet per minute for that portion of the shaft in which no intermediate stops are made. Express elevators shall mean only such elevators as run two-thirds of height of shaft without stop.

21. In making any changes or alterations to elevator shafts, rails, overhead machinery or power, all the work must be made to conform to the present law and regulations.

22. Any infraction of these regulations or failure to comply with their provisions after due notice from the Superintendent of Buildings, shall be treated the same as a violation of the Building Code and shall subject the owner to the same penalties as prescribed in Section 105 of the Building Code for such violations.

Tunnels versus Bridges.

As a result of their consideration of the matter of the congestion at Brooklyn Bridge, the Rapid Transit Commission on Thursday passed the following resolution:

Whereas, His honor, the Mayor, has requested this board to endeavor to find a solution of the problem of providing suitable permanent methods of intercourse between the boroughs of Manhattan and Brooklyn; therefore, be it

Resolved, That the chief engineer be requested to report to the board, at his early convenience, the facts or estimates concerning the respective cost and comparative merits of tunnels and bridges as means of communication; having reference to terminal facilities and the occupation of streets in the Borough of Manhattan by elevated structures or otherwise.

Also, as to the time required to complete tunnels, in case it should be deemed wise to substitute tunnels for the proposed Manhattan and Blackwell's Island bridges, which the Department of Bridges estimate will require five and four years, respectively, to complete.

Resolved further, That the Mayor of this city be authorized to obtain a like report from the Commissioner of Bridges.

In connection with the foregoing it is important to note that there is a heavy foot and vehicular traffic over the East River, for which bridges are the natural means of transport. Since the toll was abolished no record of the foot traffic on Brooklyn Bridge has been kept, but as tolls are still charged for wheeled traffic, the figures for that are available. To assist the discussion of the question "Tunnels v. Bridges," which is brought up by the resolution, the monthly record of heavy and light vehicles using the bridge during the year 1901 is given below:

The Taxpayers' Alliance.

At the regular monthly meeting of the Taxpayers' Alliance of the Bronx, Wednesday evening, at Alliance Hall, corner 3d av and 175th st, Park Commissioner Eustis addressed them by request on what he had done for the parks in the Bronx and what he intended to do with the means at his command for that purpose. That he gave a satisfactory account of his work was

shown at the close of his address, when, after answering many questions that were put to him, he received a vote of thanks.

The subject of the franchise of the Interborough Railroad Co. was earnestly and warmly discussed until after 11 p. m. The Union Railway Co. were, as usual, severely criticised for their failure to keep their many promises and for failure to furnish such transit accommodations as is required and demanded by the residents of the borough, as well as by those who visit it for pleasure on holidays. The meeting represented the thirty-two local taxpayers' organizations and local improvement associations. A committee of ten was appointed to attend before the Board of Estimate when the question of the value of the franchise comes up, should one be granted by the Board of Aldermen.

The Effects of the Small Parks Upon Realty Values.

Some five or six years ago earnest efforts were made by the New York Legislature to bring about the establishment of small parks and children's playgrounds throughout the more densely populated portions of Manhattan, for the purpose of alleviating, so far as it were possible by this method, the disagreeable and unhealthful sanitary conditions then prevailing. Incidental to the overcoming of some of this evil would be, theoretically at least, the increase in value of the realty immediately surrounding and adjacent to these small parks. With the purpose of determining just what practical effect there has been, the Record and Guide has made a canvass of the real estate brokers familiar with the various neighborhoods affected.

Cyrille Carreau, a broker of long experience in the eastern downtown districts, does not think that any increase in values of property on the lower East Side has resulted from the establishment of the small parks there. He has found that light and air are, with the Jews who inhabit those sections of the city, of but little consideration when compared with a trifle lower rent and room for one additional person. "The people in these neighborhoods," said Mr. Carreau, "for the most part look upon it as merely a temporary residence. They have in view the accumulation of a sufficient amount of money to establish their financial freedom, and, when this is attained, they nearly always move to the more desirable parts of the city. In the meantime, no sacrifice is too great which will make possible the saving of an extra dollar. Rents are a trifle higher immediately surrounding the parks. An apartment which in another neighborhood would bring $15 would there rent for $16, say. On the other hand, realty fronting the parks is assessed at from 15 to 20 per cent. higher than similar property a block or two away."

Surrounding Mulberry Bend park, the conditions are better. G. Tuoti, who is thoroughly familiar with the conditions prevailing in the Italian sections of the city, says that the establishment of this park was of material benefit to neighboring realty, especially that situated a block or two away. Business houses of all descriptions which formerly occupied sites condemned by the Park Commission were forced along Mulberry street to the block between Bayard and Canal streets, and along Roosevelt, James and Oliver streets, to the material benefit of those sections. Many of the families dispossessed found new homes west of Broadway between 3d and Canal streets, which, of course, benefited that region. The East River Extension park, 111th to 114th streets, and east of 1st avenue to the river, has, however, affected real estate in the opposite way. Residents who had been driven away by the condemnation of their homes failed to return to occupy the large tenements which were erected adjacent to the park, and these buildings are at the present time badly rented. Eventually they will be occupied, for they are very desirable to the class of people to whom they cater, but so far they are a losing investment.

St. John's park, at Hudson, Clarkson and Leroy sreets, is called a failure by real estate men who deal in property in its vicinity. It is open on but three sides, the fourth being shut in by a tall tenement house. Charles E. Duross has found, he says, that property facing St. John's park is no more in demand than elsewhere. The constant presence of hordes of noisy children makes the park undesirable to many people. Here, too, the assessed value of realty is about 20 per cent higher.

Entirely different conditions prevail on property facing St. Nicholas park at St. Nicholas avenue and 130th street, where sites fronting on the park are desirable to the well-to-do and wealthy class. Here values have risen, as they have not done in the regions occupied by the poor. This is but natural. The poorer class is bound down by the question of cost. The cheapest accommodations available must be taken irrespective of place. The wealthy man is influenced largely by the desirability of a location, and is willing to pay several hundred dollars more rent yearly for an apartment overlooking a park.

St. Nicholas park is, as yet, wholly undeveloped, yet the fact that there is to be free air and sunshine facing them, has, in the opinion of Wm. M. Bernard, of Porter & Co., influenced homeowners to save Edgecomb avenue from the medium class apartment house.

On the whole, the parks of the lower East Side have effected the decrease in value of property facing them through the necessitated removal of business houses to other sections. The slight increase which owners have been able to make in the rent of apartments has frequently not equaled the loss of the larger amount paid for the ground floor store. But, on the other hand, the increased demand for business sites and living rooms in sections a little removed from the parks, arising from the former occupants of condemned property, has, at all events for a while, more than offset this.

Do Bids Receive Proper Consideration?

To the Editor of THE RECORD AND GUIDE:

I think is is time some one should write you concerning an abuse of long standing, an unsatisfactory condition of which we have been aware of for years, and from which we and many other building contractors have suffered much annoyance and the loss of large sums of money.

I refer to the unsatisfactory system of bids and estimates in use in this city.

Not long since our firm was asked by a leading architect to figure on the plans for a large building. In perfect good faith we gave our time to the undertaking, and submitted a bid. The contract went to another bidder, and we learned subsequently on reliable authority that not only was ours the lowest bid, but that our figure was used to influence the price of the party who was awarded the contract. This was apparently done with deliberate intention, it being evidently the plan of the architect to use our estimate simply as a cudgel to beat down the price of the man to whom he had from the outset intended to give the work.

If this happened only occasionally it would be ground for a most vigorous protest, but with cases of this nature occurring with greater and greater frequency it seems that those of us who are being victimized should not only express ourselves in plain language, but should take measures to protect ourselves from similar outrageous treatment in the future.

We all understand that architects usually have their favorite men among the contractors, and this will always be true. But that I should be invited to figure on plans in order that my bid shall be used as mine was used, is an outrage of all principles of business morality and common honesty, which it is to be hoped have not entirely forsaken the architectural profession.

And the architects should themselves sympathize with us in this matter. How long is it since they were suffering in much the same way? Didn't they complain, and justly, of most unfair treatment in competition from those who projected large buildings? They demand that their competitions should be carried on under relatively fair conditions. Why should they deny to us the privilege of being accorded equal fairness? If the contractors who are invited to bid were assured that the lowest among them would get the work, the system would be purged of its most vicious feature. Either should that be done, or else the contractor be paid for the time he expends in making his estimate.

The Record and Guide, being a fair-minded paper, I hope will see fit to give some publicity to this matter, which is surely a live one to all who are in any way interested in building.

Thanking you in advance for any courtesy you may be able to show in relation to the above. CONTRACTOR.

We publish our correspondent's letter because we judge from the many complaints of a nature similar to his that have reached us that his case is not exceptional. The irresponsible treatment of bids and estimates by those who ask for them has apparently reached a point that calls for some corrective. An architect or owner is not called upon to invite either A, B or C to submit bids, but if he chooses to ask them to furnish figures and thereby puts them to expense in time and labor it should be understood that the parties invited to bid are financially and otherwise satisfactory to architect and owner, and the lowest estimate consequently will be accepted.

Moreover, it is asked why should not these bids be opened in the presence of the bidders? There ought to be no objection to this course if the bids are called for in good faith and not as a mere performance calculated to cover favoritism of some sort. If all the complaints we hear are well founded some architects at least are pursuing a policy long ago denounced in government work. It would be interesting to discover how far the abuse has been carried, and to that end the Record and Guide will open its columns to any correspondent who has anything to say on the subject.—Editor R. and G.

Telephone Charges in Baltimore.

The Maryland Telephone and Telegraph Company, which operates a system in opposition to the Bell Company in Baltimore, has had introduced in the City Council a bill which among other matters seeks to release the company from a provision

of its present ordinance from the city, which prohibits it from charging more than $48 per year for a business telephone, and $36 a year for a residence telephone. In explaining the measure before a meeting of the council on April 28, President Bouton of the company said that they had found that contrary to almost all other kinds of business, the operating expenses per telephone increase with the number of telephones in service, for the reason that as the number of telephones increases the amount of use to which each telephone can be put is correspondingly extended. He said that his company found the operating expenses per telephone of their Baltimore plant more than twice as much as the corresponding figure in other exchanges in smaller towns. If the city will withdraw the present limit put on the telephone rates Mr. Bouton says that his company will institute a graded schedule, so that as low a rate as possible may be extended to the small users of the telephone, and at the same time those who use the telephone heavily will be charged a much higher rate than at present. In brief, the company wishes to be relieved from its present low flat rates, and to be free to adopt the message rate plan of charging for service employed by the Bell companies in all large cities.

The Present Status of the Apartment Hotel Renting.

The activity which manifested itself last year in the building of apartment hotels has been completely eclipsed by the number of plans filed with the Building Department during the first three months of 1902. In 1901 there were recorded plans for the building of forty-six hotels, to be erected at a total cost of $20,374,000, and of these all but six were apartment hotels. During the first four months of 1902 there have been filed plans for eighteen apartment hotels, to cost $6,690,000, as against ten in the corresponding time last year. This makes the apartment hotel loom up as an important factor in New York City building, and raises the question in one's mind whether or not there is too much building in a line of real estate investment which has yet to demonstrate its real value.

A canvass of the projected buildings shows that in most cases operations are being pushed rapidly with the purpose of being in readiness for the opening of the fall renting season, while a number of the apartment hotels are already partially or completely filled with tenants. The location of these hotels ranges from as far down town as Waverly place to 79th street, and from 7th to Madison avenues. Those already occupied or ready for occupancy are: The Marlton Apartment Hotel, 3 West 8th street; the Ramon, 338 West 57th street; the Hotel Quentin, 208 West 56th street; the Portland, 129 West 46th street and 132 West 47th street; 13 and 15 East 48th street, which is to be occupied almost wholly by members of the Union Club; the University, 106 West 47th street, and The Collingwood, 43 West 35th street.

The progress of the remainder toward completion is; The Leonori, on the northwest corner of Amsterdam avenue and 79th street, ready July 1st; 35 Madison avenue, not started; 154 West 47th street, ready about October 1st; 12 West 47th street, ready in about two months; 122 West 49th street, two stories erected; 20th street and Grammercy Park, erected to the fifth story; 144 West 49th street, nearly completed; 118 West 57th street, old building not yet torn down; 120 West 57th street, iron work finished and walls within two stories of top; 211 West 54th street, iron work up nine stories, walls, six; southwest corner Broadway and 67th street, foundation laid; Hotel St. Regis, southwest corner 5th avenue and 55th street, finishing inside; 110 West 72d street, "The Hargrave," finishing inside; southwest corner Broadway and 77th street, six and a half stories; 103 Waverly place, about to start building; 24 West 45th street, finishing inside; 44 West 45th street, iron work five stories, walls three; 11 East 32d street, old building still standing; 164 West 74th street, ready for fall rental; 90-94 Madison avenue, iron work twelve stories, walls five; northwest corner Madison avenue and 27th street, building just commenced, and 206 West 43d street, walls eight stories, iron work nine.

It will be seen that at the opening of the fall renting season there will probably be at least sixteen apartment hotels, averaging considerably more than fifty apartments each, ready for patrons. Whether or not there will be sufficient demand to fill them is, of course, somewhat problematical. It seems to be the general rule, at any rate, that owners have had no trouble in finding desirable lessees, who assume their share of the responsibility and risk of the venture.

The fundamental idea of the apartment hotel, as explained by Edward Solomons, lessee of the Hotel Quentin, 218 West 56th street, is the doing away with the servant question. "We offer here," he said, "suites of from one to six rooms each, unfurnished, at a cost of from $450 to $3,000 a year, including all the combined conveniences of the hotel and apartment house, such as elevator, rstaurant, service of meals in one's apartments, bell-boys, servants, etc. The suites are arranged in such a way as to give as perfect privacy as can be obtained in an apartment house."

This is the plan which is generally followed, and similar rents are charged. There is, however, no set rule. For instance, "The Ramon," 338 West 57th street, which is managed by a woman, Mrs. Judith Whittier, furnishes the apartments when it is desired at an advance per month of about $10 a room, and makes boarding obligatory. Still another plan is that followed by A. W. Eager, proprietor of the Hotel Wellington, 869 7th avenue, where there can be found the apartment hotel accommodations with those of the transient and family hotel as well. It has been found in nearly every case that while monthly rentals may be made until October 1st, after that tenants are taken only on a yearly lease.

Notwithstanding the dullness of the season from a renting standpoint, proprietors of those apartment hotels which are on the verge of readiness or are actually ready for tenants report more or less demand for accommodations. Wm. F. Bang, proprietor of "The Collingwood," which has been completed one month, reports that half of his suites are occupied and that he expects the remainder to be leased within the coming two months. C. L. Leonori, proprietor of "The University," 106 West 47th street, which was completed a year ago, and of "The Leonori," on 79th street and Amsterdam avenue, says the former has been fully occupied for a considerable time, while inquiries enough have been received of the latter, which will be completed by July 1st, to lead him to believe that there will be no trouble about its rental in the fall. That portion of "The Portland," on 47th street, which has been ready for occupancy since October last, is filled, and no difficulty is apprehended in renting the new building which has been erected at its rear on 46th street. On the other hand, it is stated on good authority that the proprietor, E. R. Champion, has made arrangements to manage two new apartment hotels to be erected immediately opposite on 47th street. "The Ramon," 338 West 57th street, has been ready since April 1st, and one-half of the 56 apartments are rented. The Hotel Quentin, 208 West 56th street, 65 apartments, has been ready about one month and is one-third rented. The suites range in size from one to six rooms. The Marlton Apartment Hotel, at 3 West 8th street, is reported by its manager to have 22 of its 57 suites rented.

It will be seen that of the apartment hotels which have come on the market this spring none is less than one-third nor is any more than two-thirds rented. This, however, is of little value in computing the prospects of fall renting, as the spring demand cannot be taken as a sufficient test.

Public Hearings.

STREET NUMBERS—BAY WINDOWS—ELEVATOR SHAFTS.

A public hearing was held yesterday afternoon before the Aldermanic Committee on Buildings on proposed ordinances for the following purposes:

1. To compel owners or lessees of buildings to affix numbers to the buildings owned or leased by them; the numbers to be at least two inches high, on a plate located to the right of the entrance, where practicable, and to readily discernible night and day, etc.

2. To provide for the issuing of permits for the erection of bay windows, show windows, oriel windows, etc., requiring the payment of a fee for the privilege of erecting same, at the rate of two dollars ($2.00) per square foot, per floor, for the Borough of Manhattan, one and one-half dollars ($1.50) for the Boroughs of Brooklyn and The Bronx, and one dollar ($1.00) for the Boroughs of Richmond and Queens. Also restricting the projection in certain portions of the city, and requiring the consent of adjoining property-owners before a permit shall be issued, etc.

3. To amend Section 96 of the Building Code in regard to the enclosing walls of elevator shafts, allowing the use of fireproof partitions in all non-fireproof buildings in place of brick walls, except in non-fireproof warehouses and factories over five stories high.

The first of these led to quite an animated discussion. Representatives of the West End Association, while agreeing that in all cases owners should be compelled to properly number their houses, maintained that to force owners of houses already plainly marked to follow the plan suggested would be unnecessary and unfair. Mr. Spencer suggested that some latitude be given in the matter of location and material for the sign. He favored having the president of each borough take the supervision and determine the material and location for each sign, subject to the approval of the Art Commission. This plan was endorsed by representatives of several associations of property-owners present. Alderman Goodman, the introducer of the measure, made a vigorous plea in favor of its adoption. He expressed his willingness to have it altered in any desirable way. Another hearing is to be granted, time for such hearing to be announced later.

Albert Seaman and Richard Deeves appeared before the committee to urge a slight modification in the ordinance relating to bay, show and oriel windows, to the effect that in the case of such windows already existing it shall not be necessary to secure from the adjacent property-owners permission to replace the same, provided that their dimensions be not increased.

This suggestion was taken under advisement by the committee and will probably be incorporated in the ordinance.

No opposition was manifested to the proposed amendment to Section 96 of the Building Code. The opinion of those present very strongly favored some lighter form of construction for elevator shafts than that now required in the class of structures affected by the existing law.

Brokers, attorneys and owners will be interested in the announcement of D. Kempner & Sons, on page iii. This firm, long-established and reliable, are ready to lease good tenements on the West Side, from 14th to 59th st, and guarantee good income to owners, and pay the regular commission for securing business. Their address is No. 626 8th av, and telephone 1702 38th.

Coming Auction Sales.

Peter F. Meyer will sell at auction on Wednesday, the warehouse property, Nos. 425 and 427 West 25th st, and meantime will supply maps, etc., at No. 111 Broadway. Dimensions, etc., will be found in our business pages.

Richard V. Harnett & Co. (Incorporated) announce for Thursday, 22d inst., an important sale of Brooklyn lots, located on Shore road or Bay Ridge Parkway, 1st, 2d and 3d avs, 67th and 68th sts, Sedgwick and Bergen places. This section, generally known as Bay Ridge, is being improved with residences for which it is specially adapted, owing to its high location, its views of the Bay and Narrows, and excellent transit facilities. Titles will be guaranteed by Title Guarantee and Trust Co. free of cost to buyers. The auctioneers will supply maps, etc., at No. 73 Liberty st, as will also Jas. A. Townsend, No. 206 Broadway, and C. N. Moody & Co., No. 189 Montague st, Brooklyn.

James L. Wells has a number of important business parcels to dispose of 20th inst. These consist of Nos. 20 and 22 Waverly place, Nos. 22, 24 and 26 Lafayette place, Manhattan; and Nos. 1015 to 1021 Broadway, Brooklyn, the last-mentioned being the department store known as the Berlin. Notice of this sale, containing descriptions, etc., will be found on page 894. The sale is to close an estate. The auctioneer, at No. 141 Broadway, will supply maps and terms, etc.

Jere. Johnson, Jr., Co.'s announcement of the sale of Eastern Parkway lots, which will be found on another page of this issue, should have the attention of builders, operators and investors in Brooklyn realty. The property is in a good residential section, which is being rapidly built-up under the influence of improved transit and other forms of development. The sale is set for Thursday next; terms are good, and the auctioneer will supply maps at either No. 187 Broadway, Manhattan, or No. 189 Montague st, Brooklyn.

Jas. L. Brumley will offer at auction, on Tuesday next, by order of executors, the important store property Nos. 1154 to 1160 Fulton st, Brooklyn, at No. 189 Montague st, Brooklyn Real Estate Exchange. Facts regarding the property, terms of sale, etc., will be found in our advertising pages.

Gossip of the Week.

SOUTH OF 59TH STREET.

55TH ST.—Post & Reese have sold for Mrs. Gerald F. Stanton No. 50 East 55th st, a 5-sty American basement 20-foot dwelling, with dining room and butler pantry extension, recently remodeled.

CLIFF ST.—A. L. Mordecai & Son have sold for Henry L. Felt and William H. Livingston No. 51 Cliff st, a 5-sty building, 27x84 x20x82.

45TH ST.—A. L. Mordecai & Son have sold for George W. Stetson to the Forty-Fifth Street Company Nos. 38 to 42 West 45th st, three dwellings, on plot 60x100.5. Nos. 40 and 42 were sold last year by the estate of John R. Downey for $85,000. A 12½-sty apartment hotel will be erected on the site from plans by Tracy & Swartout. This will make the fourth apartment hotel on this block.

BROADWAY.—Joseph L. Buttenweiser has sold to the Provident Savings Life Assurance Society No. 530 Broadway, northeast corner of Spring st, an 11-sty bfuilding. The buyers already own Nos. 532 and 534 adjoining. Thomas P. Payne was the broker.

WHITE ST.—Max Marx has sold to James Stanton No. 4 White st, a lot 20x50, with an L 25x40 to West Broadway. The buyer will erect a 6-sty loft building on the property.

7TH ST.—Lowenfeld & Prager have sold to the Hungarian Reformed Church No. 121 7th st, a dwelling, on lot 22x97.6.

58TH ST.—Judge P. Henry Dugro and others are reported to have purchased Nos. 5 to 15 West 58th st, six 4-sty and basement dwellings, on plot 120x100.5, adjoining the Plaza Hotel, which they purchased last week.

48TH ST.—The Central Trust Co., trustees for A. M. Bates, have sold No. 19 West 48th st, a 4-sty dwelling, on lot 25x100, Columbia College leasehold.

48TH ST.—J. Edgar Leaycraft & Co. have sold for Mrs. Sarah Willett to Cassimir S. Mankowski No. 110 West 48th st, a 3-sty dwelling, on lot 20x100.5.

45TH ST.—Aaron Wolff, Jr., has sold No. 47 West 45th st, a 3-sty dwelling, on lot 18.9x100.5.

51H AV.—The William H. Webb estate has sold No. 415 5th av, a 4-sty dwelling, on lot 30x125, to Mrs. Elizabeth Anderson, who will alter for business purposes. The buyer owns No. 417 5th av, and Nos. 2 and 6 East 38th st, and No. 5 East 37th st. Albert B. Ashforth was the broker.

WALL ST.—The City Real Property Investing Co. have purchased from Cordelia Schermerhorn Jones No. 62 Wall st, a 6-sty building, on lot 25.5x117.8. The buyers recently leased Nos. 58

and 60, adjoining, with an option to buy. These, together with No. 62, give them a frontage of 76.1 feet. It is also reported that the same buyers have acquired No. 56 Wall st, extending through to Nos. 59 and 61 Pine st. This property is owned by George Peabody Wetmore, who purchased it in 1871 for $140,000. Charles D. Wetmore, by the way, is one of the directors in the purchasing company. The entire plot, Nos. 56 to 62, has a frontage on Wall st of 101.1, and a depth of 115 feet; the Pine st parcel, which abuts, is 57.1x76.

28TH ST.—Alice V. Leavitt has sold No. 16 East 28th st, a 4-sty dwelling, on lot 25x98.9.

5TH AV.—Frank V. and John H. Burton, owners of the Hotel St. Marc, have purchased No. 426 5th av, a 4-sty building, on lot 22x100. They now own the entire 5th av front with the exception of the corners of 38th and 39th sts. Their holdings front 131.4 on 5th av, and 16 feet on 38th st, and 17 feet on 39th st. No. 426 sold for $60,000 in 1885. No. 428 sold a short time ago for $195,000, the Messrs. Burton buying at an advance. No. 430 sold in 1885 for $95,000 No. 432 they purchased in 1900 for $190,000, and No. 434, together with Nos. 1 west 38th st and 2 East 39th st, were transferred to them in 1900, the revenue stamps on the deed indicating a consideration of $120,000. As this latter transfer was a family affair, the revenue stamps probably represent the interest of the seller.

WASHINGTON ST.—Schmeidler & Bachrach have bought Nos. 791 to 795 Washington st, southeast corner of Horatio st, three 5-sty tenements, on plot 75x90.

57TH ST.—Edith G. Hyde has sold No. 117 West 57th st, a 4-sty and basement dwelling, on lot 20x100.5.

ELM ST.—Cyrille Carreau has sold for Mandelbaum & Lewine to Bertha Volkening No. 202 Elm st, 25x100.

18TH AND 17TH STS.—Harry J. Sachs has sold for Donald McCredie Nos. 236 to 242 West 18th st, running through to Nos. 249 to 255 West 17th st, a plot fronting 100 feet on each street. The buyer is a large concern located in the neighborhood, and will erect a building to be used for storage purposes. This property was sold at auction in 1901, the present seller being the buyer; he was a party in interest; his purchase included Nos. 236 to 242 West 18th st, Nos. 239 to 243 West 18th st, Nos. 248 to 254 West 18th st, Nos. 243 to 265 West 17th st, and No. 160 8th av, for which he paid $351,000, buying it in one parcel. It was first offered in separate parcels, the outside bids aggregating $298,350.

15TH ST.—S. B. Goodale & Son have sold for the estate of Jacob Burdett to Alphonse Freund, No. 143 West 15th st.

53D ST.—Harry P. Austin has sold No. 21 West 53d st, a 4-sty and basement dwelling, on lot 23x100.5. Mr. Austin bought the house in February, the revenue stamps on the deed indicating a consideration of $90,000. No. 19 sold in 1886 for $60,000, No. 17 for $65,000, and No. 15 sold in 1869 for $38,000. A. M. Griffen is the buyer.

49TH ST.—Joseph A. Harper has sold No. 46 East 49th st, a 4-sty and basement dwelling, on lot 21x100.5, the buyer being the present tenant. The McVickar Realty Trust Company were the brokers.

51ST ST.—The Ross estate has sold to David H. Hyman No. 66 West 51st st, a 4-sty and basement dwelling, on lot 18x100.5.

51ST ST.—P. C. Eckhardt has sold for H. J. Hornthal No. 349 West 51st st, a 3-sty and basement dwelling.

43D ST.—The Manhattan Oil Co. has sold, through P. C. Eckhardt, No. 410 West 43d st, a 3-sty and basement dwelling.

57TH ST.—Henry D. Winans & May have sold No. 117 West 57th st, a 4-sty private dwelling, 20 feet, with butler's pantry and bath room extension, for Mrs. Charles L. Hyde.

6TH AV.—Emanuel Alexander and Marcus Nathan have purchased No. 841 6th av, a 4-sty building, on lot 20x84, between 47th and 48th sts.

4TH ST.—Charles E. Duross has sold for D. Sylvan Crakow to Edward Bohde No. 313 West 4th st, a dwelling, on lot 20x75.

53D ST.—Frederick de Peyster Foster, attorney for the estate of Pierre Humbert, has sold No. 6 West 53d st, a 4-sty dwelling, on lot 25x100; the price is said to be about $140,000. Post & Reese were the brokers.

56TH ST.—Harry E. Zittel has sold for Frederick Sonnenberg No. 11 East 56th st, a 4-sty dwelling, 20x55x100.

NORTH OF 59TH STREET.

5TH AV.—A sale of more than usual interest, and one which in a measure confirms the statement published in this paper on April 12, namely, that a syndicate was buying very extensively south of 106th st, between 5th and Madison avs, is the purchase by Jeremiah C. Lyons of the north corner of 5th av and 99th st, a plot fronting 100.11 on the avenue and 175 feet on the street. It is reported that he will erect American basement dwellings on the plot. The property sold in May, 1899, for $135,000, and again in December of that year for $185,000. Paul R. Towne is the owner of record. The City Real Property Investing Co. owns nearly all the vacant lots on the south side of 99th st, between 5th and Madison avs; also four of the five flats on the north side, adjoining Mr. Lyons' purchase, for which they are asking $45.000 each. The selling price of the plot just sold is said to be $300,000.

PARK AV.—Harry J. Sachs and S. F. Jayne & Co. have sold for Julia C. Brown the northeast corner of Park av and 85th st, four 3-sty and basement dwellings, on a plot fronting 102.2 on Park av and 82.2 on the street.

70TH ST.—M. E. Hewitt & Co. have sold for David Hoffman to N. W. Cawood No. 114 West 70th st, a 4-sty dwelling, on lot 18x100.

70TH ST.—Frederick Zittel has sold for Mrs. Ann Duffy No. 12 West 70th st, a 4-sty and basement dwelling, 22x60x100.

8TH AV.—Brettel & Jackman have sold for Ernest Machenbach the northeast corner of 127th st and 8th av, a 5-sty three-family flat with stores, 25x95x100.

126TH ST.—George S. Shultz has sold to Arthur R. Wilson No. 162 West 126th st, a 4-sty and basement dwelling.

112TH ST.—Sidney H. Herman has sold Nos. 106 and 108 West 112th st, two 5-sty flats, each on lot 26.8x100.11.

101ST ST.—D. D. Brandt has sold for Robert Wallace to A. M. Shier No. 314 West 101st st, a 5-sty American basement dwelling, on lot 17x100.11.

88TH ST.—Senator Chauncey M. Depew has sold to Simon H. Stern Nos. 12 to 18 East 88th st, four 5-sty flats, on plot 100x100.8. S. Osgood Pell & Co. were the brokers. The seller bought the property for $150,000 and now sells for $240,000, which is about the price at which lots on the side streets in this section are held at.

127TH ST.—Hattie Heil has sold No. 63 East 127th st, a 3-sty and basement dwelling, on lot 20x99.11.

84TH ST.—Charlotte E. H. Fountain has sold No. 210 West 84th st, a 5-sty flat, on lot 26x102.2.

MADISON AV.—C. H. McCartin has sold to Mrs. Annie D. Smith No. 1323 Madison av, a 4-sty dwelling, on lot 20x74.

WANTED $200,000.
PROFIT $500,000.
Any one willing to put about $200,000 into a new office building, to be erected on a choice site, can prove to himself, on the closest investigation, that he can get his money back in about two years and clear $500,000 as "velvet" besides.
This is no scheme, but the sane proposition of a reputable real estate man of twenty years' experience.

A TEST.
I don't believe one broker in ten who comes to owners has a bona fide customer with $20,000 to invest.
If YOU have such a customer, I will guarantee HIM 10 per cent. net on his investment of $20,000 for 3 years, and put up 6 months' rent as security for the proper performance of my lease. I will net about 14 to 16 per cent., but offer THE GUARANTEE as an inducement to a buyer. NOW LET US SEE HOW MANY BROKERS WILL ANSWER THIS. Fakirs, humbugs, irresponsible and exploitive brokers need not apply.

108TH ST.—Charles E. Schuyler & Co. have sold for Jacob D. Butler No. 329 West 108th st, an American basement dwelling, on lot 40x65. The house adjoins the corner of Riverside Drive and is one of a row of seven started in 1899 by William Van Wyck Graham, who could not complete them. He transferred them to the loan man, who traded them with J. D. Butler, who in turn sold them with a loan. They were foreclosed a few weeks ago, the buyer's name being given as H. J. Gallagher, who turns out to be J. D. Butler.

112TH ST.—Harry McNally has sold to Louis Lese, through Taylor & Douglass, Nos. 27 and 29 West 112th st, two 5-sty double flats, each on lot 25x100. Mr. Lese gives in exchange two frame dwellings, each on lot 25x100, at No. 34 West 128th st, and No. 56 East 129th st.

THE BRONX.

BRONX PARK.—A transaction of more than usual importance to The Bronx and one involving $275,000 was closed this week. The City Real Estate Co., representing, it is said, the New York & Portchester Railroad Co., have purchased the Neal estate tract of nearly 66 acres. The property is on the east side of The Bronx River, and fronts 4,299 feet on Bronx Park and extends from West Farms road on the south to the Boston Post road on the north. It is only a short distance from the Morris Park race track, which, report says, has also been secured by the same interests. They are also said to be negotiating for other large tracts in this vicinity. J. Clarence Davies & Co. we hear are the brokers.

LOCUST AV.—The Port Morris Land & Improvement Co. is reported to have sold the plot fronting 292.8 on Locust av, extending to the East River and from 136th to 137th st, together with bulkhead rights. Important changes are going on a short distance from this property. At 134th st and the river George Ehret is now preparing to erect an elaborate ferry house, and when completed the boats will run between this point and North Beach and College Point, giving the residents of The Bronx a convenient connection with a nearby Sound summer resort. It is also reported that the Union Railway will run a branch from 138th st down Locust av to the proposed ferry. The new ferryboat Port Morris, of the New York & College Point Ferry Co., which will ply between East 99th st, Manhattan; Port Morris, Bronx, and North Beach and College Point, Queens, made a trial trip on Thursday, starting from the foot of West 34th st.

ARTHUR AV.—P. J. Heaney & Co. sold for Margaret Knox the dwelling No. 2013 Arthur av, on lot 26x90; and for John V. McEvily the four lots on the south side of 207th st, 400 feet west of Perry av.

R. I. Brown's Sons have sold for Louise Bundstein to James J. Smith No. 1384 Fulton av, a 2-sty frame house, on lot 25x206.

148TH ST.—Max Marx has sold to Isidor Davidson No. 553 East 148th st, a 5-sty flat, on lot 25x106.

BECK ST.—George F. Johnson & Sons have sold to Dr. C. T. Graham-Rogers No. 24 Beck st, a 3-sty dwelling, on lot 25x100.

RAILROAD AV.—J. P. & E. J. Murray have sold to the American Express Co. four lots adjoining their stable, at Mott Haven, one lot in Railroad av, north of 138th st, and three lots in the rear, facing on the Mott Haven Canal, which is being filled in to form Canal pl. The company's property now comprises about 75x222 feet.

BATHGATE AV.—Mary E. Wilson has sold No. 1626 Bathgate av, a dwelling, on lot 25x120; and Wm. H. Kruse has sold No. 892 Tinton av, a dwelling, on lot 26.4x170.

WOODYCREST AV.—B. F. McQuay & Co. have sold for J. H. Jones No. 114 Woodycrest av, a 3-sty two-family frame dwelling, on lot 25x100.

137TH ST.—James McSorley has sold No. 859 East 137th st, a 4-sty flat, on lot 29.6x100.

LOUISE ST.—Albertine Krause has sold a plot of five lots on Louise st, 100 feet south of Morris Park av.

LEASES.

M. & L. Hess have leased for Martin Schrenkeisen, Jr., as trustee, to E. Regensburg & Sons, the cigar manufacturers, the entire buildings, Nos. 164 to 168 Canal st and Nos. 23 to 29 Elizabeth st, for a term of years, at an aggregate rental of $160,000. Extensive alterations and improvements will be made and the buildings will be known as The American Building.

Real Estate Notes.

Dr. Edward L. Keyes is the buyer of Nos. 135 and 137 East 74th st, reported sold last week.

David Davis was the broker in the sale of the southwest corner of 8th av and 115th st.

A Mr. Bertram is the buyer of No. 35 West 54th st, sold by the estate of Edward Scheitlin in April.

Albert B. Ashforth has opened a branch office in the Singer Building, No. 149 Broadway, room No. 230.

"I'll advertise the contracts for the Bronx Concourse within a week or go to jail," President Haffen is quoted as saying a day or two ago. Which will it be?

S. Steingut & Co. were the brokers in the sale for J. Golding to H. M. Lazinsk, of the two 6-sty tenements with stores, Nos. 71 and 73 E. 4th st, on plot 50x100, reported sold last week.

While nothing has been settled as yet as to the successor of the firm of William M. Ryan, it is stated that the present business is being and will be conducted on the same lines, and that a definite announcement will soon be made.

Jacob Bauman was the buyer of the flats on the west side of 8th av, between 139th and 140th sts, reported sold by Adler & Herman some weeks ago. Millard Vieth was the broker.

F. W. Janssen, C. R. Smith and W. W. Smith now occupy Room 103 on the 5th floor at No. 96 Broadway. They were formerly on a lower floor of the same building.

F. G. Swartwout & Co. and Bert G. Faulhaber were the brokers in the sale of the Park av block front, between 129th and 130th sts, 200x115, to Adelbert S. Nichols, which sale was reported last week

The Boreel Building was transferred this week to the Thames Court Co. for $3,000,000. The George A. Fuller Co. bought it in October last for $2,050,000. Alexander R. Peacock is said to be the principal owner in the Thames Court Co.

Roy C. Gasser was the buyer and Samuel Goldsticker the broker in the sale of Nos. 57 and 59 East 61st st, at the northwest corner of Park av. The asking price was $100,000. Mr. Gasser recently purchased the southeast corner of Park av and 64th st.

Katz & Co., real estate brokers and agents, inform their clients and friends that they have removed their downtown office from the 6th to the 7th floor of No. 35 Nassau st. Telephone call 4413 Cortlandt. Their East Side office continues at 114 East Broadway. Telephone 1359 Franklin.

George Dalker has secured from the Manhattan Savings Institution a loan of $325,000 at 4 per cent. on the St. Nicholas apartment houses, at the southeast corner of St. Nicholas av and 145th st. The new loan displaces an old loan of $300,000 at 4½%. This is evidence of a better appreciation of values.

James Henry Smith has invested $372,500 in land on 55th and 56th sts, between 6th and 7th avs. He paid $250,000 for the riding academy, fronting 100 feet on each street; $65,000 for Nos. 133 and 135 West 55th st, adjoining the academy; and $57,500 for the Vanderbilt stable, at Nos. 132 and 134 West 55th st.

The New York Realty Corporation met in Jersey City on Tuesday. Abram M. Hyatt, Vice-President of the New York Security and Trust Co., was elected a director and all the former directors were re-elected.

There is over $436,000 due on the Criterion Hotel property, Broadway and 41st st, the foreclosure sale of which is announced for next Wednesday. Strange to say, there is also due $47,172 for taxes, etc. The wonder is that the New York Life Ins. Co., who are foreclosing, allowed the taxes to go unpaid until they now aggregate more than 10 per cent. of the total due them.

The Biltmore, the 6-sty apartment on 129th st, near 8th av, recently sold by Leon A. Liebeskind, the builder, to Louis Russell, was disposed of while incomplete. One of its attractions was that it was built under the Tenement House Law as it stood prior to 1901, and contained, therefore, a larger rentable space than a house built upon a similar plot under the new law can show.

Chas. R. Faruolo & Co., Italian real estate agents, have scored such a success in the management of estates and in their specialty, taking houses on lease, that they have been forced to enlarge their offices at No. 45 East Houston st by the building of an extension which provides space necessary for the transaction of their large business, which now embraces the care of some 150 tenements.

The first meeting of the Board of Directors of the McVickar Realty Trust Company was held recently, at which time the following officers were unanimously elected: President, H. W. McVickar; First Vice-President, W. E. G. Gaillard; Second Vice-President, Francis Burton Harrison; Secretary and Treasurer, E. D. McGreal. Mr. William Salomon was elected a director in addition to the regular board of fifteen.

The new firm of Andrews, Bell & Co., with offices at No. 20 East 42d st,, commence business under auspicious conditions. They have the management of several 42d st buildings, among others, and will make a specialty of the care and sale of business properties and dwellings in the central part of the city. Mr. Benj. F. Andrews and Edwin Q. Bell are both experienced workers in the realty world. Their telephone call is 1041 38th.

The New York Realty Corporation this week took title to Nos. 24 to 32 Pine st, the stated consideration being $900,000. They immediately transferred the plot to The Speyer Building Co. and Kean, Van Cortlandt & Co., the consideration in the latter case being indicated by the revenue stamps on the deeds as $1,019,000, an apparent profit of $119,000. The buyers are, however, stockholders in the selling corporation. They will immediately improve.

The hours of all city departments are now from 9 a. m. to 4 p. m. on all working week days except Saturday, when they are to be from 9 to 12 noon. Heads of departments may keep offices open beyond 4 p. m. when in their opinion business requires it.

According to "Elektrotechnische Zeitschrift," a simple and interesting apparatus has been tried experimentally on the lines of the Government telephone exchange at Stockholm, Sweden, for the last year. Its object is to indicate to the subscriber whether or not the central station operator is listening to the conversation. It is declared that the apparatus works well, and that the plan is popular among the subscribers. In apartment house exchanges such an apparatus would be very favorably received by the tenants.

An agreement has been made by Kirke La Shelle with Mrs. Anna Lacroix settling the suit brought by the former to compel the conveyance to him of the property at No. 168 West 47th st. Mr. La Shelle was compelled to pay Mrs. Lacroix $9,000. The property owned by him has an entrance from Broadway. Mr. La Shelle has filed plans with the Building Department for the erection of a theatre on the site, the permit for which expires on the 18th inst. He is at present considering offers for the purchase of the property, and the theatre may not be built. J. B. McElfatrick & Son, 1402 Broadway, drew the plans.

The Interborough Rapid Transit Co. was incorporated on Tuesday with the Secretary of State to operate the rapid transit railroad now building and railroads to be built in Manhattan and the Bronx. This is the corporation formed in pursuance of a law passed by the last Legislature, which authorized the contractor who is building the present rapid transit road in New York City, to turn the work and the operation of the road over to a corporation. The capital is $25,000,000. The directors are: William H. Baldwin, Jr., Charles T. Barney, August Belmont, Andrew Freedman, James Jordan, John B. McDonald, Walter G. Oakman, John Pierce, William A. Read, Cornelius Vanderbilt and George W. Young, of New York City; E. P. Bryan, of Yonkers; and Gardiner M. Lane of Boston. The certificate of incorporation states that the company shall have power to construct and operate any other railway or railways authorized or to be authorized by the Rapid Transit Commission.

An amended certificate of incorporation of the New York and New Jersey Railroad Company was filed with the Secretary of State 5th inst. The company is capitalized at $8,500.000. The directors for the first year are: Charles Howland Russell, Henry L. Sprague, Frederic B. Jennings, Allen Wardwell, Winford T. Denison, Charles W. King, Robert C. Maroney and Howard Van Sinderen, of Manhattan; William H. Stevens, Richard R. Greene, C. Roy Bangs, of Brooklyn; Hall Park McCullough, of North Bennington, Vt.; Nathaniel H. Kennedy, of East Orange, N. J. The corporation is to operate the tunnel and railroad in part within New York formerly owned by the Hudson Tunnel Railroad Company, to be connected with railroads in New Jersey. The eastern terminus is to be in the block bounded by Christopher, West 10th, Greenwich and Hudson sts, New York City. An issue of $7,000,000 first mortgage bonds for the purchase of the tunnel and other property of the Hudson Tunnel Railroad Company is authorized, $4,500,000 being for the purchase of the property and $2,500,000 for the purchase of a south tunnel and an eastern terminus for the proposed tunnel road.

WANTED, $200,000—PROFIT, $500,000.

Any one willing to put about $200,000 into a new office building, to be erected on a choice site, can prove to himself, on the closest investigation, that he can get his money back in about two years and clear $500,000 as "velvet" besides.

This is no scheme. but the sane proposition of a reputable real estate man of twenty years' experience. EXCELSIS, Record and Guide.—[Advt.]

West End Affairs.

The West End Association announce another large batch of new members. At the April meeting 28 were accepted. At the May gathering, which occurred last Tuesday evening, the following were added:

William Baumgarten, No. 294 Riverside av; Prof. Geo. Chase, No. 309 West 74th st; Richard H. Gatling, No. 471 Central Park West; Richard T. Green, No. 251 West 83d st; E. C. Williams, No. 60 West 82d st; Ralph A. Gushee, Riverside av, corner West 126th st; Herbert A. Shipman, No. 219 West 79th st; Peter McDonnell, No. 310 West 72d st; Daniel O'Day, No. 128 West 72d st; Jules P. Storm, No. 147 West 77th st; Dave H. Morris, No. 269 West 72d st; Alfred P. W. Seaman, No. 147 West 87th st.

J. Aspinwall Hodge addressed the association regarding the status of the elevated railroad third-track matter. He believed that pending suits of property-owners would result in compelling the company to ask of the Rapid Transit Commission action legalizing the third track, and that the Commission would grant such application only upon condition of the improvement of station facilities, equipment and services.

J. L. Brower moved that the secretary be instructed to issue circulars to voters in 19th and 21st Aldermanic districts, requesting expression of opinion upon the pending ordinance to permit increased speed by motor vehicles. The resolution was seconded and adopted.

Several communications were received from Jacob A. Cantor, President of the Borough, one for official reasons declining honorary membership of the association and another stating that abandoned lamp-posts cannot be removed until the street sign question has been settled.

After the transaction of this and other important business adjournment was had in the usual form.

A Correction.

We regret that in our issue of April 26th some remarks on the real estate situation in the middle 5th av district were accredited to Mr. Henry D. Winans, of Winans & May, which that gentleman entirely disclaims.

In spite of the opposition of business men, the State Railroad Commission have granted the application of the Brooklyn Union Elevated Railroad Company, lessor, and the Brooklyn Heights Railroad Company, lessee, to discontinue the stations on the Fulton st line at Clark and Tillary st, Boerum place, Lafayette av, Cumberland st and Vanderbilt av. The question of the discontinuance of the Flatbush av station is held in abeyance. President Greatsinger, of the Brooklyn Rapid Transit Company, is quoted as saying that plans for the construction of a union station for the Fifth av and Fulton st lines at Flatbush av would be given to the builders at once and the work begun immediately. The closing of these lower Fulton st stations will make a saving of eight minutes on the trip. When the improvements are completed Bath Beach and Bensonhurst trains will be run through Fulton st to the Bridge, relieving the Bridge st and Myrtle av crush. On enquiring at the offices of the Rapid Transit R. R. the Record and Guide was informed that the company had no intention of building a new station.

John H. Loscarn has resold the 4-sty brownstone residence, No. 481 Franklin av, on lot 18x100, for $10,000; it was sold recently by the Mela Realty Co.

ART DEALER INTRODUCED CUSTOMER TO FIRM AND GETS HIS COMMISSION AFTER A CIVIL SUIT.

J. M. Warren, a picture dealer, at No. 137 East 59th st, obtained a verdict from the Supreme Court this week for $1,325.50 for introducing C. A. Gould, the patent car-coupler man, to Boussod, Valadon & Co., art dealers, of London, Paris, and formerly No. 303 5th av. His claim was that he introduced Mr. Gould to the firm, and that the car-coupler man purchased $13,500 worth of paintings, on which he claimed commission.

The Comptroller's Tax-Paying Plan.

To the Editor of THE RECORD AND GUIDE:

Dear Sir: In the correspondence between Mr. Henry F. Miller and Comptroller Grout, which was published in the Record and Guide of April 26th, it appears that Mr. Grout has modified the tax collection plan so that the date on which the tax becomes a lien will remain October 1st, and the date of imposing a penalty for non-payment of taxes will remain December 1st of each year, and will give to those who can, and who desire to do so, a rebate of 3% upon payments made between January 1st and December 1st of each year. This indicates on the part of Mr. Grount a most praiseworthy consideration of the hardships to which many taxpayers would have been subjected under the former proposed plan because of additional and excessive penalties, and because of demands of mortgagees. For the exclusion of these evils from the measure now proposed, all taxpayers whose holdings were jeopardized under the former tax collection plan, should acknowledge their relief, and without reservation, actively support Mr. Grout's new measure. R. O. E. LODGE.

THE TENEMENT HOUSE LAWS.

The Record and Guide has now on the press a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses. In size and character, it will be a companion volume to "The Building Laws of Greater New York," and will contain the alphabetical cross-indexes which have proved so valuable. Order of Record & Guide, 14 and 16 Vesey st.

The World of Building

The Quarterly.

The first Record and Guide Quarterly for 1902 is now ready for delivery. This publication includes all the conveyances, mortgages, projected buildings, alterations, auction sales and leases, arranged alphabetically and numerically, recorded from Jan 1st to March 31st, 1902. Price, $3; yearly subscription, $10.

Builders, read Wants and Offers. See page 850.

Material Market.

Dealers dispose of their products easily, and in some lines there is difficulty in keeping up with orders. The number of new buildings that are planned is increasing steadily. Operations upon buildings already underway are facilitated by fine weather. In general prices are stiff, with a tendency to advance.

IRON AND STEEL.

Pig iron for prompt delivery commands high premiums among consumers who want small quantities. At the furnaces it is asserted that there is no iron to spare, and there is not much selling, because it is useless to take on more business until later in the year. Steel continues the scarcest article in the list. A report has it that an independent sheet mill in Ohio has bought 15,000 tons of foreign sheet bar, and are now getting deliveries. Rod mills are lacking material.

In structural material the scarcity is said to increase. Even in Pittsburg industrial concerns are said to have postponed improvements because they cannot get the structural material needed within a reasonable time. Sales of plate during the week have been heavy. Special grades of sheets command premiums. The mills have many contracts running six months or more, but are willing to take new business.

The small amount of Bessemer pig iron still unsold for the balance of the year is fast disappearing from the market. Basic iron for third-quarter shipment was quoted this week at $19.75 Pittsburg. Steel billets have brought from $33 to $34 Pittsburg, but buyers take only sufficient for immediate needs at these prices.

Glasgow correspondents write that business in the finished iron and steel trades continues slow; that consumers apparently have covered their wants for some time ahead. They add that the productive capacity of the furnaces and mills is in excess of the demand, and sellers have difficulty in disposing of the output. Plenty of American inquiries for pig iron are reported, but the Scotchmen say that the terms offered from this side admit of no profit, so there is little export business. Keen competition in the galvanizing and tube trade shows no sign of cessation.

The United States Cementation Co., capital $100,000, and the Machine and Rail Metal Co., same capital, have been incorporated in New Jersey, and will deal in steel and iron.

One of the trunk railroad lines is said to withhold an order for construction of 50 steel cars of a new design because of the difficulty of securing steel plates and structural material in Pittsburg.

George Eckhard has been appointed temporary receiver of the Standard Structural Co., of 11 Broadway.

TIN, LEAD, ETC.

April 30 the total visible supply of tin for United States and Europe was 15,596 tons, as against 18,131 tons at the close of the preceding month. Arrivals at Atlantic ports during April were 3,834 tons; total arrivals since January 1 were 11,759 tons. Deliveries for April are estimated at 3,300 tons. Shipments from the Straights were 4,040 tons.

There has been no change in the price of lead, and little business is reported.

A large amount of tin is said to be held by consumers and speculators, who bought when prices were much lower than at present.

There has been some depression in the copper market, due in part, perhaps, to manipulation and partly to a possible overproduction.

June 2 will be the date of the annual meeting of the Amalgamated Copper Co.

Customs authorities have decided that zinc dust is free from duty.

WINDOW GLASS.

In the Jefferson Building, now being constructed in Saginaw, the first marketable plate glass ever turned out in Michigan will be used. It was made by the Saginaw Plate Glass Co.

An advance of 10 per cent. in the price of window glass to the consumer has gone into effect. Jobbers are preparing to place another large order.

W. I. Carpenter, a Minneapolis lumber man, says that the mills in his state have orders to last from 60 to 90 days. He says that for the first time this year fir flooring is being shipped into Ohio, and even farther east.

It is figured that there will be a shortage of hemlock, based on last year's production, of 125,000,000 feet.

Product and Appliance.

In Part 3 of the 22d annual report of the United States Geological Survey, now in press, attention is called to the extent of the chalk and chalk-marl deposits in Southwestern Arkansas, and their value as Portland cement materials. A cement plant was established some time ago at Whitecliffs, and this development created a demand for detailed information. The pure chalk formation has a thickness of 100 feet in the western part of the area, and varies greatly. It is in the midst of fine chalky and clay marls, into which it grades with gradual changes.

It is computed by the American Iron and Steel Association that there was an increase of 60 per cent. in steel and iron rods last year. Production of wire nails increased 30 per cent.

It is claimed that patents of Harry C. Lambert and James A. Graft, of Cincinnati, will lessen the cost of making pipe bends, so that a saving of 300 to 700 per cent. over old process will be effected.

A contract has been closed for the construction of a steel railroad trestle from the terminal railroad to the ore storage bins of the St. Clair Furnace Co., at Clairton. Iron ore will be fed directly from the bins to the furnaces. The McClintic-Marshall Construction Co. will build the trestle, using 1,500 tons of structural steel.

At a meeting of cut nail manufacturers this week it was decided to advance export prices 10c. to $2 in carload lots f. o. b. New York, and $2.10 in less than car lots.

Plans have been made to double the capacity of the new Vulcan Crucible Steel Works at Monaca.

The American Stoker accomplishes the reduction of heat losses by the economic use of air. The tendency exists in all ordinary furnace practice to burn "blow holes" in the fire. The greatest amount of air will enter through a common grate at a point where the fire is thinnest, and at which point the least amount of air is required, while at the very point where the bed of coal is thickest, and the greatest amount of air is required, the least is supplied.

The American stoker overcomes this difficulty in a remarkable degree by a continuous feeding action. The air is supplied under mild pressure, passing through the burning coal, and is brought intimately in contact with the incandescent coke, and is thus utilized completely, while the heating of an excess of air is avoided.

A reduction of the amount of air used in the perfect combustion of a given amount of coal always produces a twofold economy; first, it reduces the total amount of heated gases actually discharged by the chimney; second, in reducing the total volume of gases, the velocity at which they pass over the heated surface is correspondingly reduced, thus allowing more time for a complete absorption of the heat by the boiler surfaces.

The American Stoker undoubtedly does all that is claimed for it, which is more than can be said of other apparatus we have examined, making extravagant claims on similar lines. The success of the Stoker appears to be an absolute certainty, since it supplies in all honesty a want which has been keenly felt by all users of coal.

In these days, when one naturally thinks of electricity as the desirable agent in lighting, etc., it is rather remarkable that coal oil of the previous days, should under latter day management produce a more powerful and whiter light than the best type of electric arc. Such seems to be the fact, however, and it is of peculiar interest to the building trade to know of this illuminating agent.

This system is the invention of Colonel Proskey, and consists of a lamp not unlike in appearance to the decorative arc, which, by being connected with a small tank located anywhere within 500 feet of the lamp, comprises the plant. Kerosene oil, 150° test, is the fuel used, and the result is a powerful white, soft light, without fluctuation, and more nearly akin to sunlight than any illuminant known.

Some of these lights have been used abroad with success, and both Paris and London are considering their adoption for street lighting purposes, and the Municipal Lighting Company, which is supplying this system in America, is now installing a number of their improved lamps on Madison Square, and are preparing to place elsewhere in the city about 1,000 more.

The Board of Examiners of the Department of Buildings, New York City, in the case of the Cafe Martin, has made a ruling which foreshadows the requirements that elevator shafts in all fireproof buildings shall be solidly enclosed either by masonry or metal, or by wire glass placed behind the grille work.

Superintendent Stewart has vetoed the use of fireproofed wood in the construction of tenements for two months. "In two months," said Mr. Stewart, "we shall have decided on a simple method of testing the fireproofed wood. Meantime I intend to take no chances, and therefore order metal-covered trim to substitute fireproofed wood.

POINTERS.

F. J. Shollar, of Altoona, Pa., has completed plans for the erection of new buildings for the University of Southern Pennsylvania, at Martinsburg, Va. Specifications call for steam heat and acetylene light.

ERIE, PA.—This place is to have a brick and terra cotta theatre building of five stories from plans by S. H. Woodruff, of Buffalo, N. Y. Oscar Cobb and others, Buffalo, N. Y., are the owners.

COUNTRY WORK OF NEW YORK ARCHITECTS.

HARRISON, N. J.—Hill & Stout, No. 1135 Broadway, have completed plans for a 3-sty brick and stone manufactory, 150x 62 feet, to be erected for the General Electric Company, the owners, at Harrison, N. J. Same is to be used as a manufactory for lamp filaments.

CARNEGIE LIBRARIES FOR QUEENS.

The members of the Queens Carnegie Library Committee, Dr. Walter G. Frey, of L. I. City, and Henry A. Bogart, of Flushing, are pushing forward the preparatory work as rapidly as possible, and expect to have all of the library buildings under way this year. Lord & Hewlett, Heins & Lafarge, of the N. Y. Central Committee, in charge of the plans, and Tuthill & Higgins, of Jamaica, of the Queens committee, are preparing the plans. The sum of $240,000 is allowed for the Queens buildings, and it is the general opinion that this will be divided between eight structures, and that these buildings will be located one each on the lower part of Long Island City and Astoria section, Jamaica village, Flushing village, Elmhurst, Corona, Ozone Park and College Point. The apportionment of cost has not been decided yet, but it has been tentatively proposed that there be apportioned for the L. I. City buildings, $60,000, for Astoria $30,000, for Jamaica $40,000, for Flushing $35,000, for Elmhurst $30,000, for College Point $25,000, and for Corona and Ozone Park $20,000 each.

SOME JERSEY BUILDING.

MONTCLAIR.—A. F. Morris, No. 43 No. Fullerton av, is working on plans for a 3-sty brick and stone store and office building, 90 x 90 ft., to contain all improvements. The specifications call for steam heating, electric lighting, patent plaster, metal ceilings, tiling, mosaic and cabinet work, open plumbing, plate glass, etc. The cost to be $50,000.

PLAINFIELD.—Wm. H. Clum & Son, No. 28 Somerset st, have about completed plans for a 2-sty and attic frame cottage to be erected on So. 7th st for James C. Manning. The plans call for shingle roofing, furnace, hardwood trim, electric lighting, open plumbing, etc. The cost is to be $4,500.

Fred. L. Lancaster, of The First National Bank Building, has drawn plans for a 2-sty and attic frame dwelling, 30x40 feet, containing all modern improvements. The specifications require stained shingle exterior, hardwood finish throughout, open plumbing, electric light, furnace, etc. Chas. B. Pope is the owner, and building operations on the lot corner Craig place and Grove st will begin in a few weeks. All contracts are open.

Edward V. French is at work on a semi-fireproof extension of brick to cost $3,000. The specifications will require steam heat for both main building and extension, skylights, Sackett's wall board, electric lighting, open plumbing, etc. I. H. Boehm, Front st, Plainfield, is the owner. Figures will be received in about two weeks.

E. H. Gilbert, of Orange, N. J., has about completed plans for rebuilding The Babcock Building, No. 240 W. Front st. The specifications will require steam heating, electric lighting, electric elevator, tile roofing, carpentering, mason work, terra cotta, iron columns and beams, etc. Mrs. Geo. H. Babcock, of Plainfield, is the owner, and the cost will be $80,000.

PATERSON.—Charles F. Edwards has completed plans for a modern 5-sty brick and stone department store building to contain electric light plant, electric elevators, steam heat, hardwood cabinet work, plate glass, etc. M. J. Carey & Co., No 1135 Broadway, have submitted a $50,000 estimate for the mason work. The building is 125x119, and operations are to begin soon. Meyer Bros., of this place, are the owners.

You will find it in Wants and Offers, on page 850.

Labor Troubles.

TEMPORARY PEACE OBTAINED BY COMPROMISES.

Although the plasterers and the plasterers' laborers returned to work this week, relations between them and their employers are still strained to a considerable degree. As the matter stands now neither side has won a real victory and the fight may not be over. The laborers have received half their demanded advance in wages and are now getting $3.25 a day. They wanted an increase of from $3 to $3.50. On the other hand, the employers have gained the concession that the laborers will, when necessary, prepare the journeymen's material before 8 o'clock in the morning in order that the latter may get to work on time. The main questions which the employers raised, viz.: that the laborers' organization should place itself in control of the plasterers' association; that the plasterers should sign a two-years' agreement with the employers; and that employers might either not be compelled to pay fares and board to their men on out-of-town jobs, or be permitted, as is now not the case, to employ local craftsmen, were not decided. There is to be a meeting some time in the near future between committees of the employers and employed to discuss these points, but employers are not very hopeful of the result. A prominent mason builder yesterday expressed regret that the employers had not held out a little longer, saying that it was his belief that in another week they would have gained every one of the disputed points. The Employing Plasterers' Association was, however, influenced by a number of its members who had jobs on hand in which further delay meant large financial loss.

The statement appears in the current issue of the Metal Worker that "with many men out of employment at present and not too much work in sight the journeymen plumbers are asking $4.50 a day, with a half-holiday on Saturday, the same to commence May 15." At the office of A. H. Brown, President of the local employers' association, it was stated that an agreement had been made by the terms of which the plumbers are to receive $4.25 a day after June 1st, an increase of 50 cents a day. No more helpers are to be engaged, but those at present employed are to be retained.

The striking carpenters who have been working on the wood trim on the Ansonia Hotel, Broadway and 73d st, returned to work last Saturday. Mr. Sinclair, of Watt & Sinclair, who have the contract, says that he is not at liberty to state the terms of the agreement arrived at. On Friday, April 25th, just prior to the ending of the strike, Mr. Sinclair said the chief cause of the workmen's complaint was the presence of non-union hardware on the doors when they reached the job from out of town. He thought then that the difficulty would be overcome by the removal of the hardware.

One or two in building trades' lines requiring office room and space for samples can get cheap rent at No. 113 East 27th st. Apply between 3 and 4.

Of Interest to the Building Trades.

J. A. Martin-Cook, architect, has opened an office at No. 1135 Broadway.

Pickering & Walker, architects, have moved to the 13th floor of No. 1135 Broadway.

The J. C. Vreeland Building Co. have opened offices at No. 1135 Broadway, 14th floor.

Charles E. Griffith, of Charles E. Griffith & Son, real estate agents, is president of the Port Richmond National Bank, which began business on Monday with 44 accounts and deposits aggregating $83,538.11.

F. A. Hyde Tiling Co. have removed to No. 113 E. 27th st, where they are fitting up a fine showroom. A notable example is their work in the elevator shafts of the Mutual Life Building,

a very difficult job just completed. The president of the company is Frank Hyde, who for thirty years has been champion long range rifle shot of the world.

George L. McElroy, architect, who was formerly with J. N. Farnsworth, No. 11 Broadway, has opened offices on the 7th floor of No. 160 5th av.

Harry T. Howell, architect, has moved from 138th st. and Brook av., to larger quarters in the Carr Building, corner 138th st. and 3d av.

Building Commissioner Longfellow, of St. Louis, Mo., reports that during April there were issued permits for the erection of brick buildings valued at $1,084,576; frame buildings, $61,970; brick additions, $198,008; frame additions, $9,234. The increase in money over the corresponding month last year was $626,266.

Elliott Lynch, architect, has moved to the 10th floor of No. 1135 Broadway.

James F. Slevin succeeds Slevin & Sheeran, who for eighteen years have carried on the business established in 1860 by Mr. Slevin's father, whom they succeeded. Mr. Slevin has established easily accessible offices at No. 12 Chambers st for the construction, alteration and repair of buildings, for which line of work he is well equipped, and will be glad to submit estimates. Mr. Slevin also acts as appraiser in condemnation proceedings, and represents many owners whose buildings were taken for the Delancey St. Bridge approach. His telephone call is 4221—Cortlandt.

The book of steel ceiling and side wall designs, just issued by the Canton Steel Roofing Co., is a high-class publication, in keeping with the standing of the Canton Co. Romanesque, German Renaissance, Rococo, Colonial, Empire, Gothic and miscellaneous designs are shown in large numbers, and on a scale sufficiently large to give an excellent idea of the appearance when made up and to permit selections of the best patterns. The New York offices and warerooms of the Canton Steel Roofing Co. are at No. 157 West 23d st, where interested persons can secure catalogues, estimates, etc.

Fancy a chimney 460 feet high, that is 70 feet greater in height that the 29-story Park Row Building, and 100 feet higher than the big shaft erected at Constable Hook last year by the Orford Copper Co. Such a chimney was built 12 years ago at Halsbrücke, near Freiburg, by H. R. Heinicke, designer and builder of high factory chimneys. His system is the Perforated radial brick system, and if the chimneys he has built were placed end to end, they would have a total length of over 34 miles. An interesting catalogue relative to chimney construction will be sent on request to Mr. Heinicke's New York office, 156 5th av; also estimates and references.

Ravitch Bros., contractors in structural and ornamental iron work for buildings, have every facility for turning out work quickly at their large plant, Nos. 81 to 89 Mangin st, near Rivington st. They have on hand at the present time a large stock of steel beams, from 4 to 10-inch., which they offer to the trade. Their present contracts include the structural work for the following buildings: New 10-sty hotel, Park av, corner 58th st, for the Lenox Realty Co.; 10-sty apartment house, Riverside Drive and 97th st, for the West Side Construction Co.; new Jewish theatre, Grand and Chrystie sts, for Harry Fishel, besides several for the City and Suburban Homes Co.

The Brockway Brick Co. have recently removed their office from West 52d st to the Adams Building, No. 109 W. 42d st. Some six years ago this company introduced on the market a superior building brick known as the Brockway, which has met with universal favor. These brick are well made, of the standard size, and well-pointed, and have been thought good enough for fronts in some instances. They are as cheap as common brick, taking in consideration their finish and size. The company have the contract and are supplying the new Macy and Saks buildings, on Broadway, between 33d and 35th sts, for the Geo. A. Fuller Company. Their telephone is 1528 38th st.

Success in making ornaments of artificial brownstone has been achieved at No. 62 East 67th st, corner of Park av. Wreaths, mouldings, balusters, etc., have all been made by the Fordham Stone Renovating Co., for Geo. Vassar's Sons, contractors, and with such success as to insure many orders in the same line. The Fordham Co. are now cleaning the stone work on the Singer Building, Broadway and Liberty st, also the Adelphi apartment house, in Brooklyn. Owing to the demolition of No. 54 William st to make way for a skyscraper, the Fordham Stone Renovating Co. have removed their offices to No. 100 William st (Woodbridge Building). Their telephone call remains unchanged, No. 1791 John.

A Trenton, N. J., dispatch under date of 6th inst., says: "Articles of incorporation of the Federation Window Glass Co., capital $600,000, were filed here to-day, the incorporators being J. R. Johnson and Leopold Mambourg, Indiana; William L. Monro, Pittsburg; H. O. Newcomb, Millville, N. J.; and E. R. Flood, Atco, N. J. It is the intention to take into this new organization all the plants now in the Federation-Operative Window Glass Co., consisting of about fifty window glass plants in the East and West. This will place the window glass business of the country in the hands of three concerns—the American Window Glass Co., of Pittsburg; the Independent Window Glass Co., of Pittsburg; and the Federation Window Glass Co., of Muncie, Ind. These three companies will manufacture and control 95 per cent. of all the window glass made in America."

THE FIRST CANADIAN CEMENT PLANT.

The first cement plant in Canada to be operated by electric power is that of the National Portland Cement Co., at Durham, Ontario. All of the cement-making machinery in this plant will be driven by induction motors supplied with current by two Westinghouse 450 K-W., three-phase alternators. These machines are of the engine type, with revolving fields, and run at 125 R. P. M., 3,000 alternations and 600 volts. Two exciting units are provided, one consisting of a 62½ K-W., 125-volt, engine-type, D. C. generator, direct-connected to an automatic engine, and the other of a 56½ K-W. machine coupled to an induction motor. The output of the exciters will be used not only for exciting the fields of the A. C. generators, but also for arc and incandescent lighting throughout the works and grounds. The Westinghouse Co. also furnish the 8-panel switchboard and instruments.

BUILDING IN MARCH.

Statistics compiled by Construction News disclose that in March, 1902, there were 8,489 permits issued in twenty-three cities, calling for an expenditure of $32,387,000. In March, 1901, the operations aggregated 7,605 buildings, at a cost of $29,796,000, an increase of 884 permits for last month over the figures of a year ago, and of $2,590,911 in their cost, or a general gain of 8 per cent.

MARRIED WOMAN DIES INTESTATE.

To the Editor of THE RECORD AND GUIDE:

If a married woman dies intestate, leaving personal property of the value of $4,000, and no children, but husband and brothers and sisters surviving, how will the money be distributed, according to the laws of the State of New York?

Answer.—The husband takes the whole of the personal property of his wife who dies intestate and leaves no descendants her surviving.—Law Editor.

ENCROACHMENT—ADVERSE POSSESSION.

To the Editor of THE RECORD AND GUIDE:

Kindly answer the following query: A bought a plot of lots from B subject to an encroachment of four inches by a permanent structure, which has existed for twenty-five years. The plot has been bought and sold several times within twenty years of such trespass always subject to the same encroachment clause. The trespassor never paid taxes on the four inches in question. Kindly let me know under what circumstances could A get possession of the four inches?

Answer.—I do not think A can recover possession of the four inches so long as the encroaching structure stands.—Law Editor.

TENEMENT HOUSE LAW.

To the Editor of THE RECORD AND GUIDE:

(1) A owns a 3-sty and basement brick and frame dwelling, occupied by three families. He claims that under the new tenement law if one-half of it is destroyed he could not replace it as it originally existed, but would have to build according to the new law. Is he correct? (2) If said building was insured for $4,000 and one-half was destroyed by fire and the insurance company offers the owner $2,000 for the damage, should he refuse the offer and ask to have the building replaced? But as this could not be done according to the new law, would the insurance company be compelled to pay the full amount of the policy?

Answer.—A's claim was correct under the law as it stood prior to April 3 inst., when Governor Odell signed the amendments to the Tenement House Law. As the law now stands, it is not correct. (2) Under the terms of the usual policy, A can ask to have the building replaced.—Law Editor.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find Mortgages in this list with the wrong block number attached. The bloak number we give is taken from the instrument is filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Mortgages under this head marked with a * denote that the property is located in the new Annexed District (Act of 1895).

May 2, 3, 5, 6, 7 and 8.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES.

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a Private Branch Telephone Exchange.

Full information on request at any of the Contract Offices:

Roof Proof

That M F Roofing Tin is the best roofing material is demonstrated by roof proof in every city and town of the whole land. Here is a business block familiar to every resident of Pittsburg. It was covered with

M F Roofing Tin

more than fifty years ago, and has had no repairs. The roof is as sound as ever to-day and good for many years yet. Do you want a roof that will not leak; that is weatherproof and almost **wearproof?**

Ask your roofer about M F Roofing Tin

"Entered at the Post Office at New York, N. Y., as second-class matter."

Vol. LXIX. MAY 17, 1902. No. 1783.

THE movements of prices on the Stock Market for some time must depend upon labor and crop news, with the prospect of their influence being unfavorable rather than otherwise. The attitude of the anthracite coal operators significantly suggests the query: has the time arrived when there is no longer any object in preventing interruptions to business as there was last year and the year before, or is business sufficiently profitable to make it worth while to accord concessions in any direction? Every piece of bad news accentuates the fact that prices are high and increases the difficulties of carrying on movements on the long side. Operations on the short side are still prohibited by the prosperous conditions and the difficulty of inducing holders to part with long stock. Under these circumstances, only a very dull market can be looked for with prices tending downward. The demand for money for commercial purposes continues good and makes rates high, nor is there any relief in sight. In this connection it is interesting to note how quickly exchange advances when money eases off, showing how promptly gold will go out as soon as legitimate rates for money here and abroad reach an equation; that is when it will not pay to seek accommodations in London to ease New York. One of the minor events of the week was the admission of the Fuller Construction Co.'s stock to quotation. It was an unfortunate time for a new security to appear on the board and the quotations subsequently made were without significance. The event is worthy of remark only because it is the first instance of a security of one of the recently organized realty and construction companies of this city being admitted to the Stock Exchange list, and because it brings home to real estate brokers the necessity for action if they are to have the business of buying and selling securities predicated on New York realty.

AS the time approaches when the Boers must say whether they are for peace or for continuing the war a feeling of nervousness seems to be coming over London. A negative result of the conference would be bad, but that is not really expected; probably what explains the nervousness is the thought of what must follow when the Government's war expenditures cease and the many companies that have been organized to supply the wants of the army in the field have to find other employment for their energies and capital. A declaration of peace might be momentarily followed by advances in the security markets, though one would think that peace already been discounted, but there would soon follow an interval of liquidation before the recuperating forces that would have play in South Africa could produce any effect. While awaiting results the European markets are dull and money is cheap. London is understood to be carrying not only some of the new schemes that have been completed under American auspices, but a good deal of speculative stock also. It pays to do this business on the other side of the Atlantic seeing how much cheaper money is there than here, but it by no means follows that it is better to have Europe loaning money with a margin on our securities instead of buying them outright, but the latter our friends over the water show no intention of doing. It is gilt-edge or nothing with them just now. Their position on our market is the sound one; as our prices stand, it is better to loan with a margin of 20% than buy the run of our stocks and bonds at current quotations.

THE suggestion that in widening 59th st. an arcade should be run under the buildings on the south side of the street, between 3d and 5th aves., and the sidewalk thrown into the carriageway, gives a more practical aspect to the whole scheme of widening the thoroughfare in question. That is it gives it a more practical aspect to the lay mind, what physical and legal difficulties may stand in the way have yet to be determined. In a general way the only reasonable remedy appearing to-day for congestion of traffic on narrow streets bordered by very expensive buildings, seems to be this one of an arcade under the buildings for foot passengers, and the surrender of the space at present occupied by sidewalks to wheeled traffic. It would be interesting to see this tried experimentally on a moderate stretch of thoroughfare, in order to discover whether it could be practically employed elsewhere, when land values are highest and buildings the most expensive that have been designed. Fifty-ninth street is in serious need of widening and as the property owners are apparently nearly unanimous in urging the improvement, the work of condemnation and physical change ought to be fairly easy and there should be at least a prompt and official examination of their suggestion from the engineering and legal points of view.

Window Extensions—Proposed New Ordinance.

JUDGING from the fact that there was only a small attendance at the public hearing given recently on the subject, it may be presumed that the purport of the amended ordinance relating to window extensions, now in the Board of Aldermen, was not appreciated. If it had been we think the representatives of the building trades would have appeared in force to oppose it. There is still time to take action, because the Committee on Buildings, to whom this matter was referred, have not yet reported to the Board of Aldermen and, of course, the latter have not yet acted on the proposition.

A careful reading of the draft ordinance and a comparison with existing laws and ordinances relating to window extensions forces the conviction that, if passed, it probably will create great confusion and will certainly impose charges for extension window privileges where they did not exist before. In addition discriminating charges will be made which will operate unfairly as between one class of property and another and one section of the city and another.

As builders are aware, at the present time bay, oriel or show windows may be put out when approved as to area and construction by the bureau of buildings; show windows must be eighteen inches above the level of the platform and not extend above the first story nor more than twelve inches beyond the jambs or posts at the sides of the openings. Outside the jurisdiction of the Park Department permission for the erection of bay windows must be obtained from the Board of Aldermen, but no fee is exacted. These and the requirements for construction are the only conditions placed on window extensions. When within 350 feet of a public park or square, permission for their erection has to be obtained of the Park Department, which imposes charges therefor based upon the value of the property to be improved. The Department's authority for this is obtained in Chap. 723 of the Laws of 1901, an act which has an interesting history, for which, however, we have no space at the moment. It does not specifically direct that charges shall be made, but empowers the Department to make rules and regulations for the extension of windows over the building line from buildings within 350 feet of any square or public park, and the Department have embodied the charges in the rules and regulations they have made under that authority. As to show windows, owners have, by immemorial custom, a right to make these without payment for the privilege. There have been several attempts to bring them within the city's income schedule, but they have hitherto failed. The present one would put the power of granting window privileges, except as otherwise provided by act of legislature, in the hands of the Commissioners of Public Works, a subordinate of the President of the Borough, by the way, and impose charges in all cases.

The proposed ordinance makes no distinction between the privileges that can only be accorded by the Park Department, or those that would have to be obtained from the Commissioner of Public Works. A city ordinance cannot supersede an act of the legislature, and, if this one is passed by the Board of Aldermen, there would be two authorities—supposing the Board of Aldermen can employ a subordinate of the borough president's office for the purpose—regulating window extensions; and presuming that the Park Department would maintain its present practice of making graded charges, varying rates of payment for the privileges. The ordinance is also defective in not prescribing how the various forms of window projections should be constructed. If passed in its present shape it would, therefore, create a good deal of confusion. As to the imposition of new charges that may be found in the following quotations from the proposed ordinance:

"For the purposes of this ordinance, a 'bay window' shall be

taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used."

"The amount that shall be paid to the Commissioner of Public Works for the Borough of Manhattan, as a compensation to the city for the privilege of erecting each bay window in that borough, shall be two dollars ($2) for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line, for each and every story through which it is carried. For the boroughs of Brooklyn and the Bronx one and ane-half dollars ($1.50), and for the boroughs of Queens and Richmond one dollar ($1) shall be paid for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried."

It will be seen from this that not only would all bay and show windows have to be paid for that can now be obtained by either as a matter of right or custom, or by permission of the Board of Aldermen, but as much would have to be paid for a show window on Avenue A as for one on Fifth Avenue, and thirty per cent. more than for one on important business thoroughfares in Brooklyn, Fulton street for example. Finally, if the ordinance is passed, it will throw a new expense on building which in the aggregate will amount to a large sum annually, and for this and the other reasons given the subject is commended to the notice of representative building organizations. In a consideration of the whole question of window privileges there is a reasonable doubt whether the city has a right to make any charge for the privilege at all. Certainly charges are not warranted specifically by provision of law. Besides directing the attention of the building trades to the matter we would also suggest that the wording of the proposed or-ordinance be carefully scrutinized by the Corporation Counsel before it is accepted by the Board of Aldermen.

THE announcement that the Rapid Transit Commission is to lay out a really comprehensive system of rapid transit, to be constructed as the occasion demands or the means become available, is full of promise for the future growth of the city. There is everything to be gained and nothing to be lost by adopting in the beginning a comprehensive plan. From a merely negative point of view, it protects the city, as Mr. Orr points out, against the granting of "special routes which would prevent or obstruct a permanent and sufficient programme." But what is more important is that it makes the word Rapid Transit mean something definite and specific, which will produce a certain kind of results, and which will enlist the support of the property-owners, who will benefit by its construction. The time has now undoubtedly come for the preparation of such a scheme. During the past few years important plans have been matured, both by private corporations and the public authorities, such as that of the Pennsylvania tunnel, and the various East River bridges, which must necessarily form an integral part of the rapid transit system of the metropolis, and until these schemes were matured a permanent plan, which ought to be framed partly in reference to these enterprises of private capitalists, could not have been well laid out. But the Rapid Transit Board has before it now some six or seven separate improvements, including bridges and tunnels of all kinds; and it must lay out a system that will provide, not only for any deficiencies in these separate improvements, but for their proper articulation and connection. It is a striking illustration of the extent to which large and comprehensive ideas have, since consolidation, taken the place of narrow and parochial ones, that the city authorities should begin to make provision for the future in a way that is both definite and generous. But to provide also the means to carry out these large ideas is equally important, and should be taken up at the same time as the ideas themselves and with even greater energy.

APROPOS of providing means for the new Subway extensions, the letter of Mr. August Belmont which has just been published should receive careful consideration. In brief, what Mr. Belmont offers to do is to find the money for these extensions without enlisting the aid of the city credit—without, that is, any further encroachment upon the constitutional debt limit. Whether this proposition would or not be acceptable would depend entirely upon the details into which it was developed. No proposal should be accepted which would not arrange for the ultimate return of the franchise and the Subway to the city at somewhere near the same period that the existing tunnel will be returned. But if some such arrangement can be made, the proposition should be seriously considered. The city stands to gain so much from the early construction of additional Subways that an arrangement which secures such early construction is worth some sacrifices in the amount of the rental. The choice lies largely with the present administration and will doubtless depend upon the chance that its leaders see of in some way expanding the present debt limit.

Economy in Municipal Disbursements.

THE Record and Guide has frequently expressed the opinion that the great problem of a reformed municipal government in New York is the problem of spending the city's income so as to get full value for every dollar that is spent. We have again and again quoted figures which indicate that the various branches of the municipal service in New York cost much more proportionally than do similar services in the other cities in the United States; and the important thing to discover is: In what manner can this excess of cost be reduced? In the future the Greater New York will be obliged to spend constantly increasing sums of money, not only for existing services and improvements already started, but for very expensive additional improvements in the street and transit systems of the city. If these improvements are to be liberally and systematically made, as they should be, it is essential that the city should not be cramped for funds, as under present conditions it always is. Moreover, the real estate interests of the city are entitled to some reduction in taxation. In spite of the fact that the assessed valuation of Manhattan real estate is so very high (not compared to its selling value, but to the valuation in other cities), the tax rate is also very high, and an immense burden would be lifted from the industries of New York in case some substantial reduction could be made.

The present administration has not, and apparently cannot, make this reduction. Its chiefs declare that their hands are so effectually tied by mandatory laws, by bad systems of accounting, and by lack of executive discretion, that the utmost it can do in the way of reorganizing the municipal service in the direction of economy is very small. It is very discouraging that such is the case, and that the revised charter did not arrange, as it was expected to arrange, for a more effective control of the expenditure of the city's money by the local authorities; but it must be admitted in this respect the new instrument is a complete failure. We do not say that this is altogether the fault of its framers. The truth is, as Mayor Low has recently and justifiably complained, "it has become so much the habit to legislate upon the theory that the way to get good government is to pass laws which will restrain bad officials, that the element of executive discretion in the administration of the city has been reduced in many cases to a point that good judgment cannot sustain." The only possible method of obtaining efficient and economical government is make executive power equal executive responsibility. At the present time, while a corrupt administration can in large measure evade the restrictive legislation, an honest administration is hopelessly hampered by it.

Since the hands of the present administration are tied, the task of doing something to relieve the present situation falls upon private citizens. The citizens who are most interested in economy of local expenditures are the property-owners and taxpayers; and it might naturally have been supposed that some property-owners' organization would undertake the task. But as a matter of fact no organization of property-owners exists in the city which has either the enterprise, the public spirit, or the resources to undertake this peculiarly essential work. Fortunately, however, there are other organizations besides those of property-owners, and it is one of these that proposes it. The Merchants' Association is the one society in the city that has ever attempted any really constructive movement in the direction of better New York municipal government. It is easy and cheap enough to pass critical and suggestive resolutions about various aspects of municipal administration, but it is a very different thing to spend large sums of money upon such a report on the water supply of the city as that which the Merchants' Association undertook and paid for. The same association is now seeking to do the property-owners even a greater service by attempting an exhaustive and scientific investigation of the way the city's money is spent, of the method of accounting, and of the means whereby a better system of expenditure and accounting may be reached. This investigation will be placed in the hands of a well-known and competent statistician. It will have all the assistance which it can reasonably demand from the municipal departments. All that it asks from the public is a certain contribution toward the expenses of the investigation, and there should be no hesitation on the part of

property-owners in making these necessary contributions. Let them remember that this is at the present time the only practicable remedy for a vast waste of the city's money, and that the Legislature can never be induced to legislate wisely on the matter except on the impulse and the information derived from such an investigation. To give liberally for such a purpose will not only be a public-spirited thing to do, but it will be a good investment for every property-owner in the city.

The Real Estate Situation

Good Reasons for Moderation.

The real estate market still retains the somewhat subdued tone which has characterized it of late, and which is the natural and wholesome result of existing conditions. The difference between an unwarranted and inflated "boom" and a justifiable speculative movement is that in the latter case people know when to stop. During the past eighteen months values have been increased in Manhattan real estate to an extent which undoubtedly anticipates the growth in earning power of the property during the next five years. Advances of this kind are dangerous, but they are entirely within the limits of a normal speculative movement, for it pays capitalists to hold property until its power of producing income catches up to its value. But there is a point beyond which such operations do not pay, and if values should keep on increasing in Manhattan, that point might have been soon reached. Now apparently the great danger of any speculative movement, viz., that the speculators lose their heads and forget all about values in their excitement over the manipulation of quotations, this danger, it may be expected, has passed. Operators are beginning to appreciate that every necessity of a real estate or building speculation is high. Land is high—not too high, but high enough. Money is high and scarce, and since these speculations require vast sums of borrowed capital, this is naturally discouraging. Building material is high, particularly lumber and structural steel. Labor is high and is growing higher. If the present building activity should continue much longer, the unions will undoubtedly use it as an opportunity to force up wages to a level which it will be difficult subsequently to reduce. And so it goes. New buildings of all kinds can only be put upon the market at prices which make them increasingly difficult of sale, and which almost necessitate higher rents. So from every point of view there are good reasons for going slow. But it is scarcely necessary to add that going slow does not in this case mean stagnation. Behind the speculative movement there has been little or no investment demand, but there has been the liveliest kind of inquiry by people who want to occupy and use Manhattan real estate, and these necessities on the part of business men for more space, and residents for more house-room, will continue as long as the existing prosperity lasts. Consequently it seems reasonable to expect that during the coming summer and fall will be more than usually quiet, and that the amount of activity during the winter and spring will depend upon the excellence of general business and the cheapness of money and of building materials. It should be remembered that not later than next spring the process of building up Washington Heights may be expected to begin and to continue at a rate which will exceed the records made on the West Side.

IT transpires that in improving the dock front to meet the requirements of ocean going traffic, the authorities have overlooked the needs of the city's internal commerce, to the extent of working a great hardship to those who have to move heavy goods from the river front to the lower portions of Manhattan Island. These injured parties include, merchants in brick, stone, lime, etc., lumber and coal and the like. The carrying out of the Bloomfield-23d st. improvement will cut off every piece of Hudson River front above Gansevoort st. now used publicly, except the bulkhead between 27th and 28th sts., and a portion of the pier at 30th st. for which a steamship company has applied for an exclusive lease. Of course in any properly conceived plan of dock improvements the necessities of the people in the various sections of the city ought to be considered; otherwise the prices of bulky supplies must work disadvantageously and unfairly towards some of them. The lumber, material and coal merchants are offering a strong protest against any further curtailment of their delivery facilities, and they ought to be supported by those still more directly concerned, namely, the consumers of their wares, who will have to pay the extra expense if the former are forced to receive their goods further uptown.

Changes in Retail Trade.

The air is full just at present of rumored changes in the locations of important department stores. These rumors have concerned one important house on lower Broadway, another on 14th street, and still another that now has shops in several different parts of the city. There can be no doubt that there is some fire behind all of this smoke, and that further important changes are pending in the locations of some of the big stores. The advantages for the owners of such stores of securing an enormous floor space, a building of the best construction and the most convenient arrangement, and a location in an advancing rather than a retrograding part of the city, the advantages of all this are so considerable that department stores now lacking them have every inducement in the world to acquire them. It must be exceedingly inconvenient and expensive for John Wanamaker, for instance, to occupy a building that is wanting in the conveniences which the Siegel-Cooper Co. now has and which Macy's soon will have, that is situated in a part of the city given over to the wholesale trade, and that is not large enough to include all the departments of his shop. So it is with certain of the big firms left on 14th street. But while the inducements to find new locations are considerable, the difficulties are in most cases still more considerable. Available sites of sufficient size are rare and can be pieced together only at a great expense and labor. Moreover the city has been changing so much of late that a more than usual uncertainty attends the selection of any particular location. The bold move of R. H. Macy & Co. up to Greely square unsettled the conservative ideas that formerly prevailed, while the very success of that move makes it extremely difficult for any other firm to imitate it. Yet imitate it they must. There are almost half a dozen very popular stores in New York whose facilities for accommodating their customers are inferior to those of their competitors, and who will have to find new locations and use larger buildings before many years are out. Their movements will constitute one of the most effective of all influences which are working to transform the middle district of the city. Where they will go it is useless to attempt to predict, but it may be expected that all the transit improvements now under way will make for concentration within ten or fifteen blocks of Greeley square.

IT is most interesting to note that the traffic of the Manhattan Railway Company continues to show the same remarkable increases that began in 1900. During the three months ending with March 31st, it carried 58,037,249 passengers on all of its lines, bringing the total movement up to 157,560,097 for the nine months since July 1st last. In the latter case the increase is about 13 per cent., and in the former over 15 per cent. Thus the traffic has been increasing at an average daily rate of 84,300 passengers; and if this same rate of increase continues until the end of the fiscal year, the company will transport as many passengers as it did during 1893, the year of its greatest prosperity hitherto. It is equally interesting to note that, whereas the gains in the traffic of the Manhattan Company during 1900 were due largely to the use of the 8-cent transfer tickets, the present increase comes from full-fare business. The figures show clearly that the Manhattan Company has pulled through the worst competition, which the street railways can offer, and that, hereafter, it may expect its normal share of the increase of passenger traffic in Manhattan and the Bronx. Indeed, the figures show that it is now probably gaining upon the Metropolitan Street Railway Company. There can be no doubt that during the past eighteen months, the service offered by that company has distinctly grown worse, not from any fault of its officials, but because it cannot handle its constantly increasing traffic with the former convenience and celerity. Travelers are returning to the elevated roads in larger numbers than ever, because the service of the Manhattan Company is compared to that of the trolley lines better than it used to be; and, of course, the introduction of electric trac-

tion will improve it still further during the coming year. Altogether it will be in an excellent position to meet the competition of the Subway—when it comes.

Bids and Estimates.

To the Editor of THE RECORD AND GUIDE:

Taking advantage of the offer made in your issue of last week to give space in your paper for a discussion of the abuses to which the manner of dealing with bids has given rise in this city, I wish to go on record as most heartily endorsing the letter of "Contractor," published at the same time. Many bids do *not* receive proper, or even decent, consideration, and practices far more dishonest than those referred to in the letter mentioned above are of daily occurrence. To such an extent have these practices become a part of the system, if such a thoroughly disgraceful way of doing business should be called a system, that we no longer appear surprised when an architect whispers in our ear: "How much of this comes to me if you get the job?"

In most lines of business such methods would lead to a disgraceful termination of a man's career, but the architect who can manage to pocket the biggest "rake-off" seems to be looked upon with admiration by his fellows.

As you suggest in your editorial note, why should not the bids of those asked to compete be opened at an appointed time in the presence of the contestants? If this were done, the contract could then be awarded to the lowest bidder. An owner or architect should not ask any one to figure concerning whose fitness and reliability he has any doubt. Should this be the rule in all cases, as I am happy to be able to say it is with a few architects, there would be an end to much of the trouble at present existing. We don't mind so much being beaten in a fair fight, but we do most vehemently denounce the plan of asking a dozen or more men to estimate, and then, behind closed doors, commence the investigation of the bids by throwing half of them into the waste-basket unopened.

I trust that some permanent reform may result from the movement which you have inaugurated, and assure you that you can count upon my most earnest support of any measures which promise relief. BUILDER.

To the Editor of THE RECORD AND GUIDE:

In last week's Record and Guide appeared a letter signed "Contractor," in which extraordinary statements concerning alleged breach of faith on the part of a "prominent architect" were made. While taken as a joke, this is intensely amusing; the matter has also a serious side, upon which I may be allowed a few words of comment.

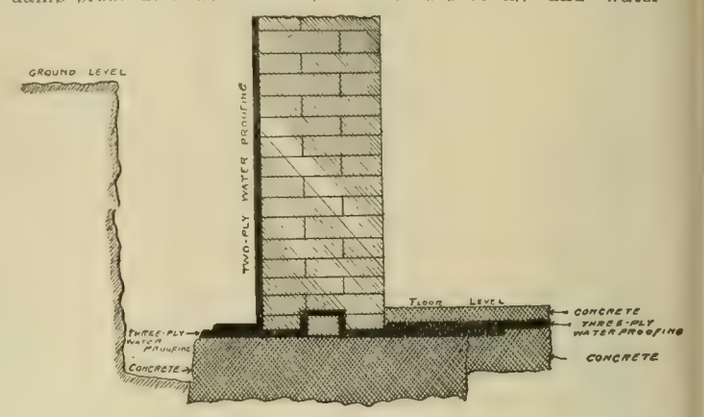
Every builder who submits an estimate does it with the understanding that the owner and architect reserve the right to reject any of the bids received. This being the understood agreement at the outset, what just cause has any of the bidders for complaint? This clause is inserted to afford protection to the owner, and to allow him and the architect an opportunity of exercising their individual preference, surely a prerogative to which they have the best of title. Should there be a difference of only a few hundred dollars between the bids of A and B, and should the architect have a little greater confidence that A could do the work to his satisfaction than can B, then the architect wishes to be able to place the contract with A, even though B should be a little lower. This merely allows a man to spend his money as he thinks best, and surely affords no basis for dissatisfaction.

If the plan followed in public works was also adopted for independent building operations, then the class of work done would at once deteriorate to the level of public works contracts, which is admittedly below that to be found in the better class of structures being put up by private capital. Now that a high standard of merit has been established, I am sure that none who have the good of the city's architecture at heart wish to see any falling off in the quality of work done.

That there are abuses under the present system is undeniably true, but statements to the effect that the system is itself at fault, or that it is being improperly used to any great extent are untrue, and give entirely false and misleading conceptions of the facts. ARCHITECT.

East River Park.

The following committee of The Real Estate and House Owners Organization of the 12th and 19th Wards, Messrs. Georgi, Steuer, Steinkampf, Engle and Banzer, called on Park Commissioner Willcox to urge him to finish the retaining wall on the river front side of East River Park, 84th to 89th sts, and to make other improvements, including the erection of a toilet that is badly needed in that section of the park between 84th and 86th sts; to have the park better policed. The Commissioner replied that he would give the matters brought to his notice his early attention, except as to the matter of police protection. As to that he did not see what he could do, except to appoint laborers as watchmen, but first he would have to get more laborers as his allowance for laborers had been cut down.



Damp-Proofing and Water-Proofing of Foundation Walls and Cellar Floors in New Tenements.

The Tenement House Department has just issued a circular, which reads as follows:

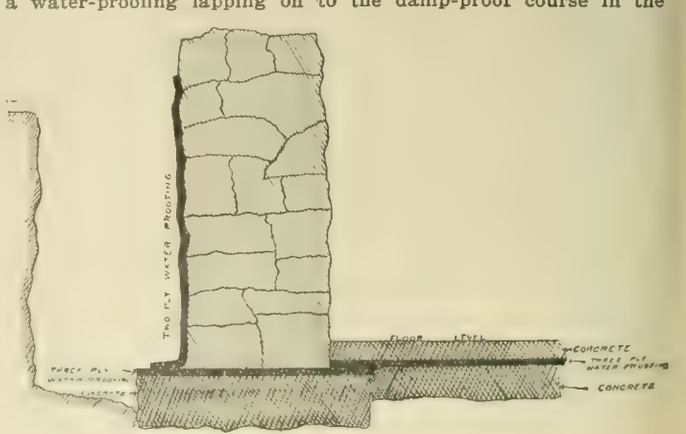
The attention of owners, builders and architects is called to the provisions of the Tenement House Act in regard to the damp-proofing and water-proofing of foundation walls and cellar floors in new buildings.

Section 92 of the Tenement House Act provides that:

"Every tenement house hereafter erected shall have all walls below the ground level and all cellar or lower floors damp-proof and water-proof. When necessary to make such walls and floors damp-proof and water-proof, the damp-proofing and water-

No 1

proofing shall run through the walls and up the same as high as the ground level, and shall be continued throughout the floor, and the said cellar or lowest floor shall be properly constructed so as to prevent dampness or water from entering."



In order to enable those who so desire to proceed with the construction of foundation walls and cellar floors without application to the Tenement House Department, in regard to damp-proofing, the following general regulations on this subject have been adopted:

"The walls and cellar or lower floors of tenement houses shall be made damp-proof and water-proof by the following method, unless application be made, in writing, to the Department for a special examination of the soil, and the Department decides, after said special examination, that the soil condition is such that this method of damp-proofing and water-proofing is not necessary. This decision will be evidenced by a certificate to that effect.

FOUNDATION WALLS.

"There shall be built in with the foundation walls, at a level of six (6) inches below the finished floor level, a course of damp-proofing consisting of not less than two (2) ply of tarred felt (not less than fifteen (15) pounds weight per one hundred (100) square feet), and one (1) ply of burlap, laid in alternate layers, having the burlap placed between the felt, and all laid in hot heavy coal-tar pitch, or liquid asphalt, and projecting six (6) inches inside and six (6) inches outside of the walls.

"There shall be constructed on the outside surface of the walls, a water-proofing lapping on to the damp-proof course in the

No 2

foundation walls and extending up to the soil level. This water-proofing shall consist of not less than two (2) ply of tarred felt (of weight specified above), laid in hot heavy coal-tar pitch, or liquid asphalt, finished with a flow of hot pitch of the same character. This water-proofing to be well stuck to the damp course in the foundation walls. The layers of felt must break joints.

CELLAR FLOORS.

"There shall be laid, above a suitable bed of rough concrete, a course of water-proofing consisting of not less than three (3) ply of tarred felt (not less than fifteen (15) pounds weight per one

hundred (100) square feet), laid in hot heavy coal-tar pitch, or liquid asphalt, finished with a flow of hot pitch of the same character. The felt is to be laid so that each layer laps two thirds of its width over the layer immediately below, the contact surface being thoroughly coated with the hot pitch over its entire area before placing the upper layer. The water-proofing course must be properly lapped on and secured to the damp course in the foundation walls."

The method illustrated in Figure 1 is what is required by the Department in the case of brick walls. The method shown in Figure 2 will be accepted in the case of stone walls, and in the case of brick walls under special circumstances.

Tenement House Commissioner.

Park Row Building Bonds.

A lot of $5,000 second mortgage 4% bonds of the Park Row Realty Co. were sold at auction on Wednesday at 57. The bonds were sold because the May interest had not been paid on presentation of the coupon. At the office of August Belmont & Co. any information regarding the matter was refused a representative of the Record and Guide yesterday, except the superfluous admission that the bonds had sold at the price stated. The statement accompanying the offer of $2,500,000 first mortgage bonds of the Park Row Realty Co. in January last showed that there was a surplus of $36,775 over and above $100,000 required to pay 4% on the first mortgage bonds and the $40,000 required to pay interest on the $1,000,000 second mortgage bonds. These

securities are not listed and very little is known of them on the curb, and they would naturally be in a bad way in the event of a forced sale. The Park Row Building on which the bonds are a lien was put up by what was known as the Ivins Syndicate, in which Charles R. Flint, August Belmont, Wm. M. Ivins and other well-known men were said to be interested. R. H. Robertson was the architect and the late John Downey the contractor.

To Stop Waste of Taxpayers' Money in New York City.

The Merchants' Association of New York has for years spent much time and money in fostering the interests and improving the conditions existing in this city. Its members have been active in every movement looking toward reform, it being largely due to the efforts of this same body that the present administration owes its existence. The iniquity of the Ramapo scheme was exposed by this association, and partly through its unceasing efforts the project was abandoned, thus effecting a saving to the city of many millions every year.

Mr. Wm. F. King and others, in order to stop waste of taxpayers' money, have long since perceived the necessity for a radical change in the administration of the city's business affairs, and a committee comprising among others the names of Henry R. Towne, D. Le Roy Dresser, W. C. Le Gendre, Wm. F. King and Isaac N. Seligman, was formed. This committee has labored faithfully upon the various and complex problems presented, rendered the more difficult of solution by reason of the peculiar and unique conditions prevailing in this city. Last Monday night the committee met and took final action upon a plan which it is their hope and determination to carry to completion. The scope of the work they have undertaken can best be shown by quoting from the report of the committee:

"The Merchants' Association of New York, with the approval and support of the Mayor and chief city officials—as shown in the annexed correspondence—proposes to effect a large saving in the cost of administration through the adoption of a system of accounting that will ensure the complete collection of public revenues and be an effective bar to peculation and the diversion of public funds. The public service hitherto has been characterized by waste and extravagance, which intelligent accounting will correct by making concealment impossible.

"The assistance of the association, moreover, has been sought by Commissioner Dougherty, of the Water Department, towards averting a grave menace which threatens the community in a failure of its water supply.

"The present administration was chosen through the confidence and votes of citizens desiring a change in the conduct of public affairs. It has been hampered in its efforts to correct abuses and accomplish results by tradition and conditions purposely instituted to perpetuate a system that has been condemned. It has scarcely eighteen months of existence in which to attain its purpose, and requires such an emphatic expression of support from its constituents as will make that purpose effective."

The letters which passed between Mayor Low and the committee, as well as the conferences held by these gentlemen, give the Merchants' Association every reason to expect the heartiest support of Mr. Low and his colleagues in the investigation which is to be made, and in the efforts to secure by means of legislation a better mode of conducting the city's finances.

Mayor Low pointed out that for two reasons the work of investigation had better be done by an independent body of men, rather than by the public officials. Not only are all those connected with the city government very busy, but every suggestion of partisanship would be eliminated if the work be accomplished by an admittedly fair-minded and public-spirited body of business men.

Some rather startling tables showing the expense of conducting the numerous departments of this city's government, as compared with the cost for similar service in other American municipalities, are incorporated in the report.

New York spent for operation and maintenance during 1900, $108,673,277; or $31.62 per capita. Thirteen other large cities, Milwaukee, Detroit, New Orleans, Pittsburg, Cincinnati, San Francisco, Buffalo, Cleveland, Baltimore, Boston, St. Louis, Philadelphia and Chicago, having twice the population, and three times the area of New York City, spent for similar purposes during the same year $115,838,345; or only $16 per capita. No good reason is apparent why the inhabitants of this city should each be obliged to pay twice as much as is required in the other cities mentioned.

Another interesting table shows how much New York gets for one million dollars, as compared to the amount secured by other cities for a like sum:

WHAT NEW YORK GETS FOR $1,000,000.

Comparative results per million dollars spent for maintenance and operation by New York, and by Chicago, Philadelphia, St. Louis, Boston, Baltimore, Cleveland, Buffalo, San Francisco, Cincinnati, Pittsburg, New Orleans, Detroit and Milwaukee, combined, in 1900:

Police.—Combined cities maintain 822 policemen for $1,000,000. New York maintains 658 policement for $1,000,000.

Parks.—Combined cities maintain 6,838 acres for $1,000,000. New York maintains 3,597 acres for $1,000,000.

Sewers.—Combined cities maintain 484 miles for $100,000. New York maintains 213 miles for $100,000.

Streets.—Combined cities maintain 1,378 miles paved streets and 1,438 miles unpaved streets for $1,000,000. New York maintains 874 miles paved streets and 382 miles unpaved streets for $1,000,000.

Lighting.—Combined cities maintain 30,535 all kinds for $1,000,000. New York maintains 22,713 all kinds for $1,000,000.

The report of the committee cites numerous cases of waste or worse, only one of which will be given here:

"In the budget for 1900 was an item for school supplies amounting to about $30,000 in value. The schools for which these were requisitioned were not all finished until 1902. Imaginary pupils in schools which do not exist do not consume school supplies. This item was passed without question by the Board of Estimate and Apportionment."

That very far from satisfactory conditions do at present prevail in the city's administration is thus plainly shown. With a view to rendering such irregularities impossible, the Merchants' Association purposes to:

First—Analyze and classify all the conditions properly within the scope of the city's business management.

Second—Devise a system of records, reports, estimates, accounts and audit upon the principles employed in the management of railroads, large manufacturing plants and similar business enterprises.

Third—Move for legislation to give effect to such a system and compel adherence to its essentials by successive administrations.

We heartily sympathize with the movement for this much needed reform, and trust most sincerely that the attempt may prosper.

All are invited to aid this work by contributing to the fund required. Contributions will be held in a special fund devoted exclusively to this purpose. It is desirable that this work be begun not later than the first of June. It is respectfully suggested by the committee that the subscriptions of all good citizens be sent in to the treasurer by May 25. Checks may be made payable to the order of William F. King, Treasurer, 346 Broadway, City.

The Fuller Company's Statement.

Wednesday $5,000,000 non-voting 7% cumulative preferred and $10,000,000 common stock of the George A. Fuller Co. were admitted to quotation on the regular list of the New York Stock Exchange, making the first security of this kind to go on the list. The application to list states that during the year ending March 31st, 1902, the company entered into 38 contracts for buildings in various cities as follows: New York, 18, aggregating $14,650,000; Boston, 6, aggregating $1,805,000; Chicago, 4, aggregating $2,850,000; Baltimore, 5, aggregating $810,000; Pittsburg 3, aggregating $5,300,000; Philadelphia, 2, aggregating, $600,000; total, $26,015,000. The results of operations to March 31st and the balance sheet as of that date were given as follows:

Inequality in Assessed Compared with Actual Values for Different Classes of Manhattan Realty.

Last fall when the tentative assessments were made public the Record and Guide remarked and commented upon the fact that these assessments showed no recognition of the increases in values which had taken place in the centers of speculative operations and advancing prices. The present time seems opportune for a more thorough inquiry into the matter, and the facts presented in the subjoined tables will be found to be extremely significant. The method used in selecting the parcels in these tables was as follows: Property was divided according to its kind into four groups, tenements, small residences, business properties and those to a greater or less extent speculative. A number of examples of each class were taken at random from the conveyances of the first three months of the present year. In all cases, except where noted, the consideration was expressed, and, wherever possible, sales where executor's deeds had been given have been used. So in every case the value given in the table is the price at which the property was sold at a very recent date, and is therefore its present selling value. As a perusal of the tables will show, the tenements are situated in both the upper and lower East Side, the residences on both sides of Central Park as well as in Harlem, the mercantile properties are on lower Broadway and streets adjacent, and the speculative properties on 5th av and other streets where purchases for merely speculative purposes have been unusually numerous.

In the case of each piece of property the percentage of assessed to actual value has been obtained, and an average percentage worked out for each class. The percentage in the tenement-house districts is found to run from .38 to .89 of the value obtained at time of sale, with a general average of .65. Quite in contrast with this are the properties classed as speculative. Here the percentage runs as low as .26; in no case does it exceed .68, and the general average for all parcels considered is but 43% of its value expressed in the transfers. Again in the districts where the smaller class of private dwellings are located we find the average again runs up to 65% of the actual value, with 37% and 87% as the low and high extremes respectively. With such conditions prevailing it is hardly to be wondered at that investors are seeking more remunerative properties into which to put their money. With tenements and residences paying too small a percentage on the invested capital, added to the worry incident to the care of such properties, it is not at all strange that many fight shy of investing in them. The assessed values of property in the purely mercantile part of the city, while proportionately higher than in the speculative district, are still much lower than in the residence and tenement localities. The lowest percentage of assessed to actual value recorded under this head is .31 in the case of the property at the corner of Wall and Pearl sts. From that it runs as high as 90% in the case of the building at 110 Fulton st. The average for the twelve pieces of property in this class shows that taxes are paid on 52% of their selling value. Thus we see there is a difference of 13% in the proportion of assessed to real values between the business properties and the tenement and small residence sections. The difference between these divisions and the speculative districts is even more marked, the discrepancy here amounting to 22%. Of course the upward tendency in the properties here referred to as speculative has been of comparatively recent date, and it is not to be expected that the assessed valuations would keep pace with the extraordinary increase in price of these parcels.

While not implying any criticism of the present or late administration of the Tax Department, and while fully appreciating the difficulties confronting this Department in arriving at an equitable basis for assessments in all cases, the Record and Guide thinks that the facts as stated above deserve careful consideration. Was the difference noticeable in but a few isolated instances it would lead to no conclusions of value. When, however, properties of the various classes taken at random show conclusively that there is a very considerable difference between the proportion of assessed to actual value, not only in a few cases, but taking the classes as a whole, it means a great deal more. The Tax Department would do well to consider this matter in making out the lists for the coming year.

The Textile Builing.

(See illustration.)

One of the most compact, best-constructed and architecturally excellent buildings in New York City is the Textile Building, on the southwest corner of Leonard and Church sts, designed by H. J. Hardenbergh and constructed by the George A. Fuller Construction Co. It is only twelve stories in height, but its proportions are good and the structure conveys an impression of solidity and strength. Its massive beauty stands out pre-eminent amidst the surrounding structures of years ago, and altogether the building is a fine addition to the drygoods district. There are seven elevators in the building, one of which is exclusively for freight. The cars are built of bronze, whilst the lights are of wire glass. In fact, wire glass, the now indispensable fire-retardent, is prominent on every floor, as is the metal-covered trim and artistic bronze metal work.

The principal firms which supplied the materials, product and appliances were: Window glass, The Pittsburg Plate Glass Co.; fireproofing, The National Fireproofing Co.; cement, The Atlas Portland Cement Co.; pressed brick, Fredenburg & Lounsbury; common brick, Goss & Edsall Co.; terra cotta, N. Y. Architectural Terra Cotta Co.; cut granite, The Chase Granite Co.; cut stone and setting, William Bradley & Son; ornamental iron, James McKinney & Son; painting, John S. Nelson Bros. Co.; plumbing, The Wells & Newton Co.; sheet metal, James White; stone sidewalk and sub-basement floor, Louis G. Meyer; roofing and copper flashings, T. New Construction Co.; elevators, David H. Darrin; plastering, John Doyle & Co.; hardware, Sargent & Co.; heating, G. A. Pratt & Co.; marble and mosaic, Empire City Marble Co. The structural steel work was designed by Purdy & Henderson.

The Monthly Architectural Record.

Coming Auction Sales.

Richard V. Harnett & Co. (Incorporated) announce for Thursday, 22d inst., an important sale of Brooklyn lots, located on Shore road or Bay Ridge Parkway, 1st, 2d and 3d avs, 67th and 68th sts, Sedgwick and Bergen places. This section, generally known as Bay Ridge, is being improved with residences for which it is specially adapted, owing to its high location, its views of the Bay and Narrows, and excellent transit facilities. Titles will be guaranteed by Title Guarantee and Trust Co. free of cost to buyers. The auctioneers will supply maps, etc., at No. 73 Liberty st, as will also Jas. A. Townsend, No. 206 Broadway, and C. N. Moody & Co., No. 189 Montague st, Brooklyn.

James L. Wells has a number of important business parcels to dispose of on the 20th inst. These consist of Nos. 20 and 22 Waverly place, Nos. 22, 24 and 26 Lafayette place, Manhattan; and Nos. 1015 to 1021 Broadway, Brooklyn, the last-mentioned being the department store known as the Berlin. Notice of this sale, containing descriptions, etc., will be found in the advertising pages. The sale is to close an estate. The auctioneer, at No. 141 Broadway, will supply maps and terms, etc. Mr. Wells also announces for the same date (May 20th) a trustees' sale to close the estates of George Faile and Thomas H. Faile, of 41 and 3½-acre plots on Boston, Mill and Landing roads, East Chester, in the Borough of the Bronx. Maps and particulars may be had either with the auctioneer, at No. 141 Broadway, or with Chas. H. Brush, No. 30 Broad st.

Gossip of the Week.

SOUTH OF 59TH STREET.

WOOSTER ST.—William Rosenzweig, Bernard Klingenstein and Samuel Green are reported to have resold Nos. 11 to 19 Wooster st, running through to Nos. 311 to 319 West Broadway, old buildings, on a plot fronting 104 feet on Wooster st and 96 feet on West Broadway. They bought the property two weeks ago, and resold last week. The buyer is said to be a well-known corporation, which will use the land as a site for a power station.

6TH AV.—Louis Schrag has sold for the estate of Eleanor J. Robinson, the building at the southwest corner of 6th av and 23d st. William B. Riker & Sons Company, the tenants, are the buyers, and the price is said to be a little over $450,000. Mrs. Robinson bought the property in 1897 for $340,000. It contains 1,505 squpare feet, which would make the square-foot price $211.77. At $450,000, the square-foot price would be $280.37; both of these square-foot prices are higher than any hitherto paid in the retail district south of 23d st, the nearest being $148.22 for the northwest corner of 6th av and 22d st, bought by Ehrich Bros. In the district north of 23d st, there is only one higher—that for the northwest corner of Broadway and 34th st, $324.95 per square foot. The other prices higher than this paid for property in the city are $348.67—for the southeast corner of Broad and Wall sts, $280.50 for No. 15 Wall st, and $330.70, for No. 19 Wall st, southwest corner of Broad st.

43D ST.—Potter & Brother have purchased from a Mr. Buck, No. 214 West 43d st, a dwelling on lot, 19x100.4. They also bought at auction to-day No. 216, adjoining, for $33,100. Their holdings on this block now comprise a plot 120 front on 43d st, and 50 feet abutting on 42d st.

33D ST.—A rumor, which could not be confirmed, had it that the Austen G. Fox property at Nos. 43 to 47 West 33d st, a plot 63x98.9, had been sold. It is supposed to be a Pennsylvania-Long Island Railroad purchase.

49TH ST.—William P. Rooney has sold for a Mrs. Hundenin to Joseph F. Cusick, No. 540 West 49th st, front and rear tenement on lot 25x100.

AN ideal country Home, for a retired family; a high class farm considered, one of, if not the very best farms in New Jersey. It is not in the rough mountainous section, nor in the red shale, nor sand, pebble or marl section, but in the beautiful Hopewell Valley, rolling land, clay loam soil; no mosquitoes; 146 acres in the highest state of cultivation; all buildings in first class repair; many of them new; houses for three families; running water in dwellings, barns and stables; fine brooks and pasture; made up of highlands and lowlands; grand sites for new residences; lakes may be constructed if wanted; fine woodlands, macadam roads in every direction; delightful drives, within sight of and five minutes' drive of the half mile training track of Glen Moore stock farm, of which this farm is a part, and to which the buyer may have free access. In sight of and five minutes' walk of the public school and the railway station, where there are three or four trains each way daily to New York and Philadelphia; three mails each way daily; telegraph, telephone, express at the station; doctors within twenty minutes' call; butchers and grocers call every other day; right in the country, with all its beauty, scenery, quiet and repose, yet with nearly every city convenience; two miles distant either way are two thriving villages, Remington and Hopewell, where other railway trains can be had, and about nine miles west of Princeton. The community, the soil, the water, the air high class in every respect. Price, $20,000.

LEASES.

M. & L. Hess have leased for J. Tuckerman Tower the entire 6-sty basement and sub-basement fireproof building, Nos. 687 and 689 Broadway, running through to and including Nos. 252 and 254 Mercer st, 45x200, for a term of years, from February next. They also report that the lease to Wing & Son has been closed for the entire building known as the Westerley Building, bounded by 9th av, Hudson st and 13th st, for a term of twenty-one years. This building is to undergo extensive alterations, after which it is to be occupied as a piano manufactory.

Pocher & Co. have leased for Sarah L. Cable for 5 years, the 5-sty tenement, No. 421 West 39th st; they have also leased for Jennie Lyman for 5 years, at a gross rental of $19,000, the two flats, Nos. 63 and 65 East 122d st; and for Robert Cable Nos. 432 and 434 West 53d st, for 5 years, at a gross rental of $13,500.

John N. Golding has leased for Thomas F. Ryan the dwelling No. 62 5th av, to Mrs. George L. Kingsland. This house adjoins Mr. Ryan's residence.

M. & L. Hess have leased the ground floor and basement in the new building now being erected by Philip Goerlitz and Christian Benjes, at the southwest corner of Waverley place and Mercer st, to Herman Gerdes for a term of ten years.

OUT OF TOWN.

H. W. Nichols has sold for Mrs. Mabel E. D. Taylor the country seat at Irvington-on-Hudson, known as the "Dibble Place," comprising 4 acres of land, large 4-sty dwelling, and outbuildings, to Mrs. Delia S. Clark of this city.

Brady & Hauptman have sold, through George I. Semel, their summer residence, with 108 acres of land, stocked, near Port Jervis, to Mrs. Anna E. Lyon, for $20,500.

Peter F. Meyer has sold to John F. Nelson, a Brooklyn lawyer, his summer home, on Byram Shore; it consists of three acres of shore front and a large colonial mansion with stables, boathouse, and a private pier running down to Long Island Sound.

To Protect Docking Facilities.

The Dry-Dock Board of Trade of the 11th Ward of New York City has been formed and incorporated by several prominent local lumbermen and other merchants of the East Side. The object of the association is the preservation of public dockage on the East Side for the merchants in that vicinity. There is only one public pier, namely at the foot of East 5th st., where lumber and other merchandise can be unloaded with any degree of satisfaction, and a large local corporation has been endeavoring of late to secure the lease of this pier for its own use, which would have closed it entirely to all others. A number of the merchants interested appeared before the Mayor and succeeded in preventing the lease, after which they formed the above association, the office of which is located at 814 5th st. The officers and directors of the association are as follows: President, F. Eckenroth, F. Eckenroth & Son; vice-president, John H. Meyer, Meyer, Denker & Hoerig; secretary, D. Epstein, Epstein & Vollweiler. These, together with the following, constitute the board of directors: Charles E. Pell, Dannat & Pell; H. C. Magruder; H. D. Goodman, Doernberg & Goodman; James Fagan, James Fagan & Son; C. H. Tucker, J. H. Monteath & Co.; F. Honerkamp, E. D. Albro Company; P. M. Cunningham, Brunswick & Balke Company; S. Schloss, Herman Lumber Company.

Real Estate Notes.

John J. Lester is the buyer of No. 16 East 28th st, reported in our last issue; the price is $46,500.

George Ranger has opened a downtown office at No. 111 Broadway, Trinity Building, to better accommodate a growing clientele. His uptown office continues at No. 237 West 125th st.

S. Nauheim is the buyer of No. 108 East 62d st, reported sold in our last issue. He recently sold the southeast corner of Lexington av and 59th st, at a profit of about $35,000.

Joseph F. Barry, real estate broker, of No. 3196 3d av, has opened a branch office at No. 2518 Webster av, near Fordham Station. Mr. Barry is an experienced real estate broker, with well-equipped offices.

Henry J. Braker, the owner of the southwest corner of 55th st and 6th av, this week took title to 965 6th av, a lot 25x100, for $27,500, a very low price. The lot adjoins his present holdings. The Department of Health is located in the corner building.

The New York Realty Corporation elected the following officers on Wednesday: Bradish Johnson, President; Robert E. Dowling and Albert Flake, Vice-Presidents; and Morris B. Mead, Secretary. A dividend of 5 per cent., payable July 1 to all stockholders of record on June 16, was declared.

Owners of numerous tenements have made leases of their holding in batches of two, three, four and five, for a term of years to avoid the bother incidental to the personal care of such property. One large owner has recently leased about a dozen tenements for a total of over $30,000 per year.

F. E. Mainhart, real estate and loan broker and general appraiser, has removed his office from No. 241 to No. 145 West 125th st, where he has well-equipped quarters. Mr. Mainhart is long established and experienced, and gives strict personal attention to business. His telephone call is 1699 Harlem.

The work of filling in the Mott Haven Canal, between 138th and 144th sts, is proceeding rapidly, and will soon be completed.

Jacob A. Zimmerman, Henry S. Hewson, D. McLean Shaw and Eugene Van Schaick are directors of the Grammercy Realty Corporation, incorporated last Friday, with a capital of $100,000.

The northeast corner of 16th st and Irving place, which was reported sold in April, was bought by Louis Cohn. We hear, however, that the deal is off. The owners of the adjoining houses having heard that the corner was sold, put up their prices to what was considered exorbitant figures. The corner, 20.1x86.4, was sold for $36,000.

Arthur F. Cosby, one of the Assistant Corporation Counsels, declared Monday that sidewalk gratings were a direct violation of the law, and that he was about to take action to compel the owners of buildings to remove their gratings. A damage suit has been instituted against the city on account of an accident caused by one of them.

Claude Poyet, the chocolate manufacturer, is the buyer of the brewery property at Nos. 414 to 430 West 38th st and Nos. 417 to 425 West 37th st. He paid $155,000 for the property, and will remodel it for his own use. He expects to occupy it in the fall.

Schmeidler & Bachrach have not sold No. 74 East 92d st, as reported last week.

The sale of the buildings standing on the site of De Witt Clinton Park (11th and 12th avs, 52d to 54th st), took place on Thursday. The buildings on McComb's Dam Park, known as Conrad's Hotel, and an office building on the dock nearby were sold on Friday. These sales bring these parks nearer the accomplished facts which vicinity owners and residents are anxiously hoping for.

Max and Moses Ottinger and I. S. & M. S. Korn, who this week purchased the Criterion Hotel, at the northeast corner of Broadway and 41st st, for $487,000, are the owners of the adjoining property, which they bought in 1900 at auction for $211,000, and erected a taxpayer thereon at a cost of about $35,000, which rents very well. They now have a plot fronting 102.5 on Broadway and 113.4 on the street.

It turns out that the New York & Portchester Railroad Co. have purchased about 200 acres in the vicinity of Bronx Park. They took title this week to the Neill tract, reported in our last issue, the price being $310,000, for about sixty-six acres. In the reports of the sale the price reported was all the way from $275,000 to $500,000; it could have been purchased a short time ago for considerably less than $300,000. The property has now been transferred to A. R. Peacock, the consideration being $400,000.

John J. Coady, for thirty years a real estate broker and appraiser, died on Wednesday, the 7th inst., and was buried last Saturday from the Church of St. Paul the Apostle. Mr. Coady was a successful negotiator and expert appraiser, and was highly

esteemed for his good deeds. He leaves a widow, two sons and two daughters. His son, Francis R. Coady, is of the firm of Thompson, Coady & Co., steam heating contractors, at No. 139 West 24th st.

Kahn & Baumann's offices, at the northwest corner of 5th av and 116th st, are very commodious, handsomely furnished and exceedingly well equipped for the transaction of a large realty business, including the management and sale of property. Some of their recent sales inculde the 7-sty apartment house on the southwest corner of Madison av and 89th st, known as "Temple Court;" triple flat, No. 10 East 118th st; and three double flats, Nos. 207, 209 and 213 West 140th st; also No. 423 East 75th st; No. 6 West 115th st; No. 306 West 118th st, and the southeast corner of Madison av and 117th st, the last four of which Kahn & Baumann sold and resold. Their specialty is Harlem property, and telephone call 827 Harlem.

An ordinance to widen 4th av, between 8th and 9th sts, was introduced into the Board of Aldermen on Tuseday, and referred to the Committee on Streets and Highways. The property to be taken is described as follows: "Beginning at a point on the northerly side of 8th st, distant 91 feet 6 inches westwardly from the westerly line of 4th av, and running thence easterly to the west line of 4th av a distance of 91 feet 6 inches, thence northerly and running along the westerly side of 4th av 199 feet more or less to the intersection of the westerly line of 4th av with the southerly line of 9th st, running thence westerly along the southerly line of 9th st 25.70 feet to the intersection of the southerly line of 9th st with the proposed new westerly line of 4th av, running thence southerly along the proposed new westerly line of 4th av to the place of beginning." This improvement is required in the construction of the Rapid Transit railroad, and has been approved by the Board of Estimate.

A TELEPHONE FOR EACH HOUSE.

The International Telephone Company of America have submitted a proposition to the City Council of Council Bluffs, which is a radical departure in telephone services. The company asks for a twenty-five years' franchise, and agrees to place in every house, office, shop, factory, or other place of business in that city a telephone, the only charge for which shall be not more than two cents per call or message of five minutes or less. The company agrees to begin the work of construction of the system within six months, and to put in operation not less than 6,000 telephones within eighteen months from and after the passage of the ordinance. It agrees also to put up a $10,000 bond for the faithful performance of its contract with the city, and reserves to the city the right to purchase the plant at the expiration of the franchise "for a sum of money equal to the amount upon which the said business and property pays an annual net income of 10 per cent."

The Bronx Complains.

President Haffen has not let the contract for the Grand Boulevard and Concourse; nor has he gone to jail, as it was reported, he said he would if he did not let the contract. He has, however, sent a letter to the Taxpayers' Alliance criticising the Board of Estimate for the failure to provide for public improvements in which he says:

The city has already expended $4,000,000 for acquiring lands for the Grand Boulevard and Concourse. Since Jan. 1, 1902, I have called the attention of the proper authorities to the urgency of this improvement on various occasions, but without result. As this is a matter which should appeal to the good sense of the public authorities, affecting, as it does, the interests of the Borough of Manhattan really more than those of our borough, there would seem to be some hidden obstacle in the way of getting this improvement consummated. Until this great trunk line can be constructed the improvements of the roads east and west must necessarily be delayed.

It is proper, I think, at this time to call your attention to what I consider a great hardship to the borough, and that is, that although since Jan. 1, 1902, there have been transmitted more than 100 resolutions initiating various local improvements, which are assessable upon the property deemed to be benefited, not one of these improvements has been authorized as yet. It seems but my duty to call your attention to this matter so that the immediate passage of the necessary resolutions for these various improvements should be called to the attention of the proper authorities."

Among other subjects the letter discusses the necessity for East Side rapid transit, more dock facilities, the building of public baths, the abolishing of all railroad grade crossings, the construction of a new court house, and the extension of the railroads over the Macomb's Dam or the Central Bridge. He also announces that he is preparing an elaborate sewerage system for the relief of the former villages in the territory east of the Bronx River.

The Quarterly.

The first Record and Guide Quarterly for 1902 is now ready for delivery. This publication includes all the conveyances, mortgages, projected buildings, alterations, auction sales and leases, arranged alphabetically and numerically, recorded from Jan. 1st to March 31st, 1902. Price, $3; yearly subscription, $10.

Uses of Vault Space.

President Cantor has commenced an investigation concerning the uses to which sidewalk vaults are being put. Under the old charter permits for these vaults were issued by the Commissioner of Highways. The power to issue these permits now resides with the President of the Borough. Some sidewalk vaults are being fitted up as rathskellers and for other commercial purposes. Recently the Record and Guide mentioned a case where the owner constructed a hot-house under the sidewalk in the vault space. President Cantor has applied to the Corporation Counsel for an opinion on the question of increasing the charges from vault privileges.

Commissioner of Public Works Livingston informed a Record and Guide reporter yesterday that the Corporation Counsel had not taken action in the matter, and that until he does the vault spaces will be leased as heretofore.

It is doubtful whether the city can in any way stipulate what use shall be made of a vault. The Corporation Counsel's opinion on this point will be awaited with a great deal of interest.

Charles H. Easton & Co. have sold for John A. Johnson and others thirty lots on Sterling place, Brooklyn, running through to St. John's place, together with three lots on Franklin st, north of Montgomery.

Articles incorporating the Brooklyn Heights Realty Company were filed this week with the Secretary of State. It is proposed to deal in real estate in the Borough of Brooklyn, and to erect and manage hotels and other buildings. The capital stock is $1,500,000, consisting of shares of $100 each. The directors for the first year are: James H. Breslin, William K. Kurtz, John W. Jacobus, George C. Austin, George J. Bascom and Gardiner H. Shaw, of New York City, and Charles N. Peed, of Brooklyn.

Comptroller Grout has stated that the sub-committee of the Rapid Transit Commission, consisting of himself, President Orr and Commissioner Smith, had carefully considered with the subway contractors the plans and specifications for the Brooklyn tunnel extension. In a few days he hoped a similar conference would be held with the representatives of the Brooklyn Rapid Transit Railroad. Mr. Grout said: "The plans have been sent to every possible bidder, so that they could thoroughly examine them and not wait until the advertisement is ready. I have found that the statute says that only three weeks' advertisement is necessary. The contract can be awarded by July 1."

"Harlem" No Longer Exists.

SO DECLARES PROMINENT UP-TOWN REAL ESTATE MAN.

The use of the name Harlem, as applied to that part of Manhattan extending from about 80th st, north to the Harlem River, is very strongly objected to by at least a part of the residents of that section. A well-known real estate dealer, who has long been identified with the upper West Side, when seen by a Record and Guide reporter, expressed himself quite strongly on the matter.

"Twenty-five years ago the section called Harlem was a mere outskirt of the city. Much of the territory was occupied by swamps and low mud flats; and mosquitoes, goats, squatters and chills and fever flourished. As every one knows, the past quarter of a century has seen vast changes and improvements made in this as well as other parts of the metropolis. The creek which ran in from the East River at about 110th st nearly to 7th av, and the adjacent low places, have all been

filled in, streets have been laid out, houses and stores built, and every vestige of the old unsanitary conditions removed. Simultaneously with the advent of these improvements occurred the disappearance of the malaria and mosquitoes. So rapidly has the ground been taken up for building purposes that the squatters have been forced on to a new frontier, taking with them their goats, which picturesque animal has become almost extinct upon the Isle of Manhattan.

"So since the line of demarcation between the lower and upper parts of the island no longer exists, and since the unhealthful and unpleasant conditions which were to be found years ago no longer obtain, why keep the name which at once recalls to mind all that Harlem when it existed used to be, but which a growing business and residence section of Greater New York, and its geographical centre, no longer is?

"Undoubtedly unpleasant ideas are by many associated with the old name of Harlem, and in some cases it is a foundation for prejudice which, in so far as it militates against the sale and rental of property, is a detriment to property-owners."

The House Numbering Ordinance.

To the Editor of THE RECORD AND GUIDE:

Dear Sir: In your last edition you give a report of a hearing before the Board of Aldermen's Committee on Buildings, but you make no mention of the presence of a committee from the United Real Estate Owners' Associations of New York, consisting of Messrs. Conway, Rheinhauer and myself, as chairman. Our committee opposed the adoption of the proposed ordinance in reference to house numbers, and requested the committee to report it adversely. Their reasons were that any metal enameled sign such as was required by the Goodman resolution would be expensive, could be easily destroyed, defaced or stolen. Our committee further stated that they were instructed to oppose any resolution that required the renumbering of houses in this city; that we represented the majority of the owners of houses in this city, and that our houses were numbered; that the only buildings that were not numbered were public buildings, churches, theatres, factories, stables, etc.; that we were in favor of having every house numbered by having the number painted on the house fronts, so that they could be seen from the centre of the sidewalk in the daytime and could be seen in the nighttime by any person standing close to the house front. We also opposed the referring of this matter to any commission, as was suggested. We urged the committee to amend the resolution by embodying our views therein.

Alderman Goodman stated to the committee that while he might have introduced the ordinance, he was not its originator, and that he hoped that no attention would be paid to any property-owner who opposed an expenditure of five dollars per house. I answered him by stating that this was the third time that we had appeared against such a resolution, and that we expected to kill this as we had the others; that this was no five-dollar matter with us, but that the enforcement of the ordinance as he introduced it would mean an expenditure of at least a half million dollars by the house-owners of this city.

I hope you will give this above matter your attention, in justice to the committee of business men, who left their occupations at the request of their associates in order to protect their interests. Yours very truly, GEO. G. BANZER.

The Good Old Society.

AN ENDOWMENT FUND WANTED.

The 116th annual report of the General Society of Mechanics and Tradesmen records a successful year's work in 1901 along the well-known lines of usefulness that this society has established for itself, namely, the advancement of the trades through education and the relief of the unfortunate and distressed. An interesting item in the report, is the acknowledgment of the receipt from the estate of the late eminent architect Edward H. Kendall, of 67 valuable architectural works and a number of pamphlets and framed photographs. The volumes were added to the Slade Architectural Library for reference, and the photographs are of value in the School Department.

The following extract is commended to the attention of those who desire to sustain and further an eminently worthy undertaking:

A very general, but erroneous, impression prevails that this society is a very wealthy one, and that it does not need money for the prosecution of its several lines of beneficial work. It is true that we own valuable real estate, unincumbered, that was purchased many years ago; No. 239 Broadway having been in our possession since 1802, Nos. 30-36 Crosby street, since 1833, and No. 472 Broadway since 1846.

Our income from this property is not sufficient to enable us to utilize more than two-thirds of the space available for school purposes in our 44th st building (from which we derive no income), and we are therefore compelled to limit the benefits which we could and ought to extend to deserving young men. It should be borne in mind that the instruction given is entirely gratuitous. We should be still further hampered were it not for the city appropriation for our library department, and this is an uncertain quantity, and fluctuates with the circulation. An endowment in a substantial sum is what we need, and we should then be in a position to enlarge our work to the full capacity of our building.

We earnestly place this matter before you for your thoughtful attention and consideration, hoping that some brothers or other generous citizens may fix upon this pioneer humanitarian institution as the object of their benefactions when they are disposing of their possessions.

CHATTEL MORTGAGES IN HEMPSTEAD.

To the Editor of THE RECORD AND GUIDE:

A claims that all new chattel mortgages and renewals in the village and town of Hempstead must be filed at County Clerk's Office, Mineola, as Mineola, the county seat of Nassau, belongs to town of Hempstead; chattel mortgages filed at the Town Clerk's Office are of no account. B claims that all new chattel mortgages and renewals in the village and town of Hempstead must be filed, as in every other town, at the Town Clerk's Office. Who is right?

Answer.—A is right. Chapter 248 of the laws of 1900 provides that in the City of New York chattel mortgages shall be filed in the register's or clerk's office of the respective counties in which the boroughs are situated, and continues: "In every other city or town of the State, in the office of the city or town clerk, unless there is a county clerk's office in such city or town, in which case it must be filed therein."—Law Editor.

SEWER CONNECTIONS.

To the Editor of THE RECORD AND GUIDE:

A and B own adjoining houses, both of which have used for more than twenty-five years the same sewer connections; the sewer is under A's house; without any notice to B, A hires an unlicensed plumber, and closes the sewer against B's house, which is found out on investigation by B's plumber. (1) Did A act lawfully? (2) Had the unlicensed plumber a right to do such work? (3) Has B any cause for action against A?

Answer.—(1) It is needless to discuss the question whether B had acquired a right to the connection through B's house by prescription, the user having been for twenty-five years, as the new Rules and Regulations for Plumbing, Drainage, Water Supply and Ventilation of Buildings provide (Article IV., Section 44) "each building must be separately and independently connected with a public or private sewer or cesspool." B should, however, have given A notice that he intended to close the connection. (2) A plumber who has not complied with the law as to registration, etc., can do plumbing work, but by so doing subjects himself to a penalty, and he cannot recover compensation for the work done. (3) If a cause of action existed at all, owing to B's probable right to the connection, by prescription, it would be of no use to sue, as, owing to the regulation above given, A's act would, if considered to be a tort, be held to be what is called damnum absque injuria, a wrong without an injury.—Law Editor.

ASSESSMENTS OF ADJOINING PROPERTY.

To the Editor of THE RECORD AND GUIDE:

A and B own lots adjoining; A has his assessment reduced through his attorney; B puts in no claim to have his reduced. Does B get the same reduction as A?

Answer.—It is the custom of the Tax Department, under such circumstances, to put adjoining properties on an equality as to assessment.—Editor, Record and Guide.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

Part of ceiling in parlor of house occupied by a tenant fell down and thereby damaged a piano and bric-a-brac. The tenand occupied the premises for about a year, and the same was in good condition when he took it. Is the landlord held liable for any damage caused by the same; and, if so, what steps should he take?

Answer.—The landlord is not liable.—Law Editor.

THE TENEMENT HOUSE LAWS.

The Record and Guide has now on the press a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses. In size and character, it will be a companion volume to "The Building Laws of Greater New York," and will contain the alphabetical cross-indexes which have proved so valuable.

The price of the book bound in cloth will be $1.50, and orders may now be sent to the Publication Office, Nos. 14 and 16 Vesey St., New York City. This will be the standard book on the subject.

The World of Building

Labor News.

THE CARPENTERS AND JOINERS NOW DEMANDING HIGHER PAY.

The most important item in the labor news of the week is the determination of the United Brotherhood of Carpenters and Joiners to insist upon an increase of wages from $4 to $4.50 a day. It had been practically decided by the carpenters for some time past that a demand for increased compensation should be made, but whether to insist upon 50 cents or $1 per day more, which would bring the pay to $4.50 or $5, was not settled until late this week. On Thursday last a man of high standing in the United Brotherhood of Carpenters and Joiners, who wishes his name withheld, said that it had been definitely decided to demand wages of $4.50 a day, and that a notice to that effect would probably be sent each of the employers on Friday. There has been considerable contention of late between the United Brotherhood of Carpenters and Joiners and their rival organization, the Amalgamated Society of Carpenters and Joiners, but whatever their disagreements on other matters, they are united on the wage question, and the same demand will be made on the employers of the members of the later association. A number of employing carpenters seen late yesterday afternoon said that they had not yet received notice of the demand, but that it was expected. It is not known at the present time what action will be taken by the Master Carpenters' Association, but individual bosses take a gloomy view of the situation. The notice given—about 26 days—is too short to prevent loss to the contractors, who are, seemingly, unable to avert the trouble.

The strike on the trim work of the Ansonia Hotel, Broadway and 73d st, which was called off a week ago last Saturday, was put on again at noon last Monday. Mr. Watt, of Watt & Sinclair, who have the contract, says that the workmen demand the removal of the trim on the door jambs, contending that the trim should have been put on by the men on the job. The hardware which arrived on the doors from out of town was removed at the request of the unions and the trouble was believed to have been overcome. Watt & Sinclair consider the last demand to be unfair in the extreme, and have determined not to yield to it.

A meeting was held last Monday night by the Hoisting Association to act upon the demand made upon them last winter for an increase in engineer's wages from 40 cents to 50 cents an hour, to take effect June 1st, 1902, but an adjournment was taken to next Monday without any definite plan having decided upon. An agreement was also presented by the riggers, who have recently formed themselves into an association. Their only demand is recognition and a continuation of the present scale of wage. J. E. Eustis, secretary of the Employers' Association, said that the report appearing in one of the city papers to the effect that a number of prominent contractors had signed the scale was untrue, for the reason that the agreements are invariably signed by the association and not by its individual members.

The Amalgamated Painters and Decorators have made a demand upon the master painters for an increase in wage from $3.50 to $4 per day for the plain painters, and from $4 to $4.50 for the decorators and gold-leafers, to go into effect August 1st; and, also, insisting that after that date Saturday shall be, no matter what the circumstances, a half holiday. This latter demand is regarded by the employers to be beyond the bounds of reason. Should this rule go into effect, the best class of employing painters, who at present have a monopoly in the field, would be unable to do the painting and decorating for the financial concerns downtown, where the only time it is possible for such work to be done is Saturday afternoon and Sunday. This is an important item in the yearly receipts and one which the employers cannot afford to lose. The only possible result would be in the mind of the master painters the usurping of this trade by the man who employed non-union labor, and a consequent suffering by both themselves and their employees.

There have been no developments this week in the strained situation existing between the master plasterers and the journeymen and helpers. Last week the men returned to work at the rate of $5 a day for the plasterers and $3.25 for the laborers, with the understanding that a committee of the plasterers would meet a committee of the employers' association for the purpose of discussing and finding a remedy for conditions very unsatisfactory to the employers. The secretary of the Employing Plasterers' Association, H. W. Miller, says that he has not as yet heard from the journeymen's committee. Other bosses when seen expressed a fear that the plasterers would fail to live up to the agreement.

Employers of about one-third of the sheet metal workers are reported to have agreed upon 20 cents a day advance.

E. Smith, secretary of the Master League of Cement Workers, says that no agreement has been reached with the Cement and Asphalt Laborers' Union, which ordered a strike upon the refusal of the employers to agree upon an advance of from 28 to 33 cents an hour, to take effect May 1st.

The Safety Association of Steam Engineers have notified Wm. Bradley, who has contracted a portion of the underground tunnel work, that he must cease working the association's members more than eight hours a day, even with overtime. A strike is threatened should their demands not be complied with.

Builders, read Wants and Offers. See page 904.

Influence of the Big Construction Companies Upon the Cost of Labor.

A well and favorably-known building contractor, in conversation with a Record and Guide representative the other day, advanced the idea that the policy being pursued by some of the large construction companies operating in this and other cities, was responsible for part of the present trouble in the labor market.

"These companies," said he, "secure a site, and forthwith negotiate as big a loan as possible upon a greatly inflated valuation. The building is then rushed to completion with but little regard to its cost, and wages far in excess of those prevailing elsewhere are, for a short time, paid to all classes of mechanics. This renders it extremely difficult for other contractors to secure efficient help without paying higher rates than they can afford.

"When one of these buildings is finished, it has cost a large sum, but bonds are issued on both first and second mortgages, and as these bonds have so far found ready purchasers, the merry game continues. Recently some of these securities have shown rather a weak tendency, and unless these dangerous and unsound methods are abandoned, a crash is sure to occur."

Material Market.

Satisfactory reports on the condition of trade are received in all lines. Prices have been steady for the most part this week. Inquiries indicate a continuance of the brisk demand that has prevailed thus far this season. It may be early to say much about the prospects in relation to prices for the season. It is now about two weeks since the fires were started in the brick kilns on the North River. Heavy shipments of lumber and much activity in forwarding other supplies are noted. It will be some time before the market can get its steady tone for the season.

IRON AND STEEL.

Iron and steel prices are firm, with slight changes. There is much inquiry for steel billets and sheet bars, but little can be had. Pig iron continues in strong demand, the holders fixing their prices. Chicago reports improved demand for bars, tubes and merchant steel.

A New York dealer who bought 20,000 tons of shapes and beams under $2 per hundred pounds, is now selling them at a 50 per cent. advance. Certain sizes are in a demand so lively as to command remarkable prices.

About 5,000 tons of muck bar are said to have been bought by the United States American Steel Hoop Co. at $35 per ton Pittsburg.

Large amounts of billets have been sold by western producers for $33 a ton.

Transportation companies have increased their facilities a little, so that shipments were handled more promptly this week.

Pittsburg advices are that sales of 50,000 tons of structural material have been made for next year. The prices are $1.60 per hundred pounds, the same as prevailed last winter for future delivery.

Late transactions in pig iron have been at $19 for early delivery, $18.50 for the last months of the year. For the first time in the history of the blast furnaces in this country the monthly output has reached 1,500,000 gross tons.

TIN, LEAD, ETC.

Spot tin is scarce, and 30¼c. was paid, while several buyers are said to have given ¾c. per lb. premium to get May instead of June tin, which they bought previously.

Zinc ore producers in Missouri have agreed to sell their product to the Southwest Ore Purchasing Co., which is to dispose of it

upon a minimum basis of $30 per ton of 6 per cent. quality. Highest price during the past week for ore was $34 a ton, paid to the Excel Mining Co. for an exceptionally high grade.

WINDOW GLASS.

It is said to be the intention of the Federation Window Glass Co. to absorb about 50 window glass plants in the east and west. This plan, if successful, would place the business in this country in the hands of three companies, the two Pittsburg corporations and the new concern.

BRICK, STONE, LIME, ETC.

Not so many brick boats are seen on the North River this week as a little earlier in the season. Cargoes are not coming in as rapidly as before, but there is a healthy demand which promises to take the stock on hand and be ready for the new product when it leaves the ovens. Prices are steady, and no imediate change is anticipated.

Improvement has been noticeable in the lime market since the strike of the plasterers was settled. The demand this week was livelier than heretofore this season. There is no change in prices.

A capital stock of $5,000,000 is issued by the New York Cut Stone Company, incorporated in Trenton, N. J., to quarry, cut and finish marble and other stone.

Fireproof buildings will be erected for the Empire Portland Cement Co., of Warners, to replace the structures destroyed by fire. The new plant will have a capacity of 750 barrels a day and will cost $60,000.

More liquid clay has been discovered near Tarrytown, this time at Sleepy Hollow Cemetery. A brick was dipped, then burned in a kiln, and the result was a handsome enamel.

LUMBER.

Increased activity is reported at the lumber yards. There are inquiries which give promise of even heavier orders soon. Supplies of spruce are a little short, and full prices are obtained. For quick delivery plain and quartered oak are also scarce, so that prices are firm. Poplar is active; ash firm, although rather quiet; pine from the Carolinas and cypress are in stronger demand; some shading of prices on hemlock is reported.

Mills in the east are not likely to start work until June. They are short of logs and are said to have orders enough from New England States to keep them busy a month after opening. This will take them out of their market for that length of time. Boston, Philadelphia, Baltimore and the Sound ports are sending in heavy orders for laths.

A total of 5,000,000 feet of lumber has been received at Ogdensburg, being the first shipments of the season.

PAINT.

Paint manufacturers and jobbers say that the buyers are sending in their orders freely, but this is expected now. One of the paint men remarked that if business wasn't brisk at this time of the year the dealers might as well close up their shops, but there isn't danger of any closing.

Berry Brothers, Detroit, varnish manufacturers, have built one of the largest wood carbonizing plants in the world. By-products will include wood alcohol and gray acetate of lime.

At Newark, a large tract of land, lying between the Passaic River and a spur of the Erie Railroad, has been purchased by the Patton Sun Proof Paint Co., of Milwaukee. A large factory will be built to uspply the eastern trade.

Products and Appliances.

To obtain a 1,500-candle power light from kerosene would appear almost impossible, yet we have seen a demonstration which convinces us that the new Proskey lamp can accomplish this. Few people have been aware that the ornamental lamps which illumined Madison square were dependent upon kerosene for their brilliancy. Electricity got the credit, while common kerosene did the work.

The new paint called Hydrofugal is said to prevent oxydation, corrosion or decay in metals or wood exposed to the action of water or atmospheric moisture. We are closely watching experiments now being made with this product, and shall be pleased to know that it does all that is claimed for it, but if it does not we must in justice to our readers place it among the long list of disappointments in this line.

We learn from New Haven that wire glass was installed nine years ago in two rooms of the Assessor's Office, in the City Hall building. There were thirty-six panes of the glass, and three years later one of these was fractured by a mass of snow and ice falling upon it from a roof adjoining. The broken pane, we are informed, has not been replaced, but it continues to serve its original purpose. There is no question about the strength of wire glass.

The attention of architects and others interested is particularly directed to page 845 of our last issue. Paragraph 6 of the regulations regarding elevators distinctly states that the lights in elevators must be of wire glass. This is a most wise provision, since it means absolute safety from fire and increased strength whilst admitting the required light.

Recent tests of "Sanitary" partitioning by the Bureau of Buildings were eminently satisfactory. This system of fireproofing includes both floors and partitions, and is manufactured under Gernerdt's patent by the Sanitary Fireproofing and Contracting Company, New York.

According to a special census bulletin on New York State's manufacturing and mechanical industries, 19 leading trades show an increase greater than the population. Among the number are electrical supplies, ironwork of an architectural and ornamental nature, foundry products. In 1900 foundry and machine-shop products ranked second among the industries of the State.

Aluminum-coated steel is one of the latest products for building construction. Galvanized steel truly is not a very satisfactory article and aluminum, it is well known, while adding very little to the weight, gives great protection from moisture or corroding action of acids in foul atmosphere or water. It is claimed to be as effective as copper, and costs less even than galvanized iron.

Concrete protected by steel appears to have made an impression on the municipal authorities in Brooklyn. It is conspicuous in the form of curbs at Court and Joralemon sts, and on Ocean av, from Fort Hamilton to Av F; also on Myrtle av, in the vicinity of Mason's furniture store. After the three or four years' wear these curbs have had, they appear to be as solid as they were originally, with the exception of the steel, which is slightly the worse for wear.

Have you read Wants and Offers, on page 904.

Building News.

MERCANTILE.

FRANKLIN ST.—G. Howard Chamberlin, No. 1183 Broadway, has started on the plans for a 10-sty brick and stone fireproof warehouse and office building, to be erected corner of Franklin and Hudson sts, for the Borden's Condensed Milk Co., No. 71 Hudson st. The group is to be used by the Standard Coach Horse Co., No. 50 Broadway, the owners. Cement work, plumbing, drainage, heating, ventilation, hardwood, carpentering, etc., will be required.

NEARBY JERSEY BUILDING.

PLAINFIELD, N. J.—Fred L. Lancaster, architect, Plainfield, N. J., is working on the plans for a 3-sty frame shop building, 40x50 feet, to be erected on West 2d st, Plainfield, for the Crescent Embossing Co. The building is to have slag roofing, metal ceilings, Sackett's wall boards, electric lighting, hot air heating, etc.

SUMMIT, N. J., is to be extensively improved by the contemplated D., L. & W. R. R. plans; over $500,000 will be spent by the railroad people in the next two years; the work includes new freight, baggage and passenger stations, etc., which will be built of brick and stone, and include all modern improvements. Work has already begun on depressing the tracks, which is a part of the scheme. W. H. McFarlain, Chief Engineer of the road, is having the plans prepared.

The First Baptist Church of Summit, N. J., will shortly officially accept the plans of J. N. Cady, architect, of Summit, for a

$30,000 brick and stone edifice to be erected on their plot, corner Springfield and New England avs. The Rev. Warren Childs is a member of the building committee.

R. S. Shapter, architect, Summit, N. J., is open for bids on the steam heating of the $20,000 brick and stone Public School building, plans of which are under way. The building is to be of brick and stone, 90x50 feet, 3-stories.

On the Morristown Turnpike, near Chatham, N. J., the Canoe Brook Club are about to erect a brick, plaster and stone clubhouse, 2½ stories, with shingle roofing, etc. Warrington C. Lawrence, of New York, is the architect. Hardwood flooring and cabinet work, open plumbing, baths, electric lighting, etc., will be required.

STANLEY, N. J.—The Congregational Church is to erect a granite edifice, with tile roofing, to cost about $12,000, from plans being drawn by Charles Lum, architect, of Chatham, N. J.

SUMMIT, N. J.—R. S. Shapter is at work on the plans for an $8,000 dwelling, frame, 2½-sty, shingle roofing. Modern improvements are specified. Dr. Hardy, of Summit, is the owner. R. S. Shapter is taking bids on a 2½-sty frame dwellin, 30x40 feet, shingle roofing, etc. The cost is approximated at $5,000. John McClary is the owner.

A $5,000 dwelling, 2½ stories, frame, shingle roofing, electric light, etc., is being planned by R. S. Shapter. The dimensions are 28x35. M. W. Sherwood is the owner.

A dwelling, 2½ stories, frame, with shingle roofing, electric lighting, steam heating, etc., 38½x40 feet, is being planned by R. S. Shapter, of Summit. The cost is $6,000; the owner is A. J. Holland.

Of Interest to the Building Trades.

John M. Lyle, architect, has opened offices at No. 33 Union square, 11th floor.

T. D. Miller, architect, formerly at No. 3852 Southern Boulevard, has removed to No. 2778 Decatur av.

Henry Ives Cobb has secured a suite of offices on the 7th floor of 115 Broadway, where he will be located permanently.

John Borie, G. B. De Gersdorff and H. D. Hale, associated architects, have opened offices on the 12th floor of No. 1135 Broadway.

Pickering & Walker, architects, have opened offices on the 13th floor of No. 1133 Broadway; both were formerly with Bruce Price.

Michael Bernstein has taken his brother, Mitchel Bernstein, into partnership, and the firm name will hereafter be Bernstein & Bernstein.

The contract for the U. S. public building at Salt Lake City, Utah, has been awarded to the Campbell Building Co., of Chicago, at $409,000.

Herrmann Horenburger, formerly at No. 802 Melrose av, has removed to No. 682 East 159th st, and would be pleased to receive copies of late catalogues, samples, etc.

Samuel H. E. Jennings and Thomas A. Welstead, who formed the old firm of Jennings & Welstead, carpenters and builders, for many years at No. 1762 Broadway, and who dissolved partnership about a year ago, have reunited and have offices and shop at No. 227 West 50th st.

The man who builds glass houses is Arthur E. Rendle. They are glass greenhouses and conservatories. One of the finest specimens of his work is to be found at Sand's Point, Long Island. These glass buildings cover over 20,000 square feet. The roof, sides and ends are glazed on what is known as the "Paradigm" system of glass roofing invented by Mr. Rendle.

Thos. C. Edmonds & Co., of Nos. 1826 and 1828 Park av, near 125th st, wholesale dealers in window glass, paints and oils, have added a new department to their business for the sale of wood mantels, fireplaces, tiles, etc., and are fitting up a handsome showroom on the 2d floor of their building, where they will carry a large stock of the latest design in these goods.

H. Becker, contractor for structural and ornamental ironwork, with office and plant at Nos. 318 and 320 East 48th st, is an experienced worker in his line, and enjoys a reputation for good work. His present contracts include ornamental and stair work on the new administration building, on Blackwell's Island for Wm. Henderson, and similar work on the new residence, No. 2 East 87th st, for the same contractor.

Use of Yellow Pine in Fireproof Buildings.

A notice has been sent out by the Building Department to the manufacturers of fireproof woods, and to others interested in building construction, to the effect that until further notice the use of yellow pine for sleepers and bucks will not be permitted in buildings over 150 feet in height.

The reason for this order was explained by Mr. Stewart, Superintendent of Buildings, as follows:

Yellow pine, being filled with rosin and pitch, does not absorb the fireproofing material as readily as do other varieties of wood. For this reason the Building Commissioners have doubts as to the efficacy of the methods now in use for rendering yellow pine absolutely proof against fire. The order was issued simply as a precautionary measure until the department shall have opportunity of testing to their satisfaction wood, which has been treated by the various fireproofing processes. It is proposed to make it obligatory on the part of the manufacturers of fireproof wood to stamp each piece of such material plainly with the name of the producer. In this way confusion arising from the large number of processes will be avoided, and each make will stand on its merits. As a result of this order, work on the Hotel St. Regis, corner of 55th st and 5th av, was stopped by the Building Department. Arrangements were at once made, however, to substitute another wood for the yellow pine, and work on the building will go forward without serious delay.

Advantages of the Branch Bank System.

A number of big down-town banks have quite recently enlarged their business operations by establishing branches in various parts of the city. The Produce Exchange Bank has four such branches in operation, the Corn Exchange Bank maintains ten distributed throughout Manhattan, Brooklyn and the Borough of Queens, and other well-known institutions have either started similar enterprises, or contemplate doing so. Just what effect upon real estate this plan of distributing the banking facilities of the city will have is entirely a matter for speculation. That business interests will be likely to group themselves around these new financial centres is obvious, but to what extent this will be true, and in what measure it will affect real estate values, remains to be proved.

Mr. Forrest H. Parker, President of the Produce Exchange Bank, does not think that the establishment of these numerous branches will to any considerable extent exert an influence upon real estate. The bank is looked upon by him as a direct result of the necessity in a certain section for banking facilities, rather than as a pioneer which is expected to draw business to its vicinity. He believes that in the future fewer small banks will be organized, and that whenever a bank is needed, one of the older and wealthier banks will establish a branch. The larger institution with its immense capital and substantial surplus inspires confidence which the smaller concern does not.

The branch caters to quite a different class of depositors than does the parent bank, with its large accounts with corporations and mercantile houses doing business amounting annually to millions of dollars. The branch offers a convenient place of deposit for small merchants, and for men and women of moderate means, whose accounts do not run into tens of thousands, but who, nevertheless, desire the advantages afforded by a safe and well-conducted bank. Mr. Parker is certain that the system has come to stay, and that both depositors and those who conduct the banks will be benefited by a more extended adoption of the plan.

Legal Decisions.

Contract—where a contractor abandons the owner may complete at the contractor's expense. Where contractors for the erection of a house fail to make substantial performance and, after the owners' consequent refusal to pay an installment of the contract price, abandon the work unfinished, the owners may complete it and hold the contractors for the necessary outlay. (Hansen v. Hackman, 37 Misc., 290.)

Landlord and tenant—right of a mortgagee of the tenant to pay the rent which the tenant's assignee has assumed and to sue the assignee therefor—basis of such right. Where a lease for a term of twenty-one years contains a covenant obligating the lessee and its assignee to pay a stipulated rent and the taxes assessed upon the premises during the term of the lease, and authorizes the lessor to re-enter in case of a breach of said covenant, a mortgagee of the leasehold interest, in the event of the failure of an assignee of the lease, who took the same subject to the "rents, covenants, conditions and provisions therein," and also subject to the mortgage, to pay the rent and taxes in compliance with the covenant, may pay such rent and taxes and then maintain an action against the assignee to recover the amount so paid. Such right is not based upon any contract relation between the mortgagee and the assignee of the lease, but rests upon the mortgagee's right to protect his interest in the estate. (Dunlop v. James, 70 App. Div., 71.)

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to their having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find Mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

May 9, 10, 12, 13, 14 and 15.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

MISCELLANEOUS.

Appointment of trustee. Virginia W Blanchard to E Morgan Griffin.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M.' 'occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.
